ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.,

New Orleans, La.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son and Company, in their last report of the Barbados market, say : The cargo of the Kipling, which we reported in our last as having arrived with 162,000 feet of white pine, was sold at $26 for shippers and $21.50 for second quality, and we value another cargo of this description at similar prices. The schooner Frances A. Rice arrived to ourselves on May 24th with 130,000 feet spruce, which we sold at $21.03 for merchantable and $18.03 for second quality. These late cargoes of spruce have supplied present requirements, and we do not think the next arrivals will bring similar rates, as the crop is drawing to a close, when demand for spruce is considerably reduced. The steamer Orinoco brought 78,000 Gaspe shingles and 140,000 Cedar Laying. The former were sold at $6.50, and as our market is virtually bare of these, next arrivals will probably bring similar prices. The latter were imported for a dealer, who we understand payed $2.25 for them, as they were better than the ordinary. We think moderate arrivals of these would be worth from $2.15 to $2.20 according to quality. Dimension shingles are entirely out of stock, and a lot of these would do exceedingly well."

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, JUNE 29, 1904 No. 22

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

FOR SALE CHEAP

TIMBER BERTHS

General Store and Saw Mill. Capacity 25 M (in running order). Terms liberal. Apply

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The weather of the past week has been very favorable to lumber activity and we think there has been a slight improvement in the demand. Conservatism still characterizes the action of buyers, however, and there is not likely to be any decided change in the near future. Dealers are not loaded with stock and must continue to buy more or less for requirements. This is about all that is expected during the next two months. The crops are making satisfactory progress and business conditions generally are good.

Late reports regarding square and waney timber confirm the opinion advanced that the outlook is not very encouraging. From what we can learn there appears to be an overproduction, which has come at a time when the consumption is declining. Manufacturers who sold their timber in advance were particularly fortunate, as there has been a decline of fully five cents per cubic foot in the price of waney and a proportionate decline in square timber. The salvation of the market would seem to depend upon a curtailment of operations on the part of manufacturers. If this policy is pursued it should be possible to maintain prices at the present reduced basis, but

if operations are continued with little regard to demand, the result will doubtless be a further decline in values. The wisdom of the former course should be apparent to all operators when it is remembered that the cost of getting out timber has increased during the past few years quite in proportion to the advance in price.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber prices have not suffered a further decline, although the market is still very unsettled. Manufacturers generally will curtail sawing operations as far a possible. There is a very good demand for American specifications. Most of the log drives are nearing the booms, and it is estimated that 34,000,000 feet will be hung up on the St. John river, including 6,000,000 feet on the Aroostook. The amount already in the Douglas and Mitchell booms is about 145,000,000 feet.

Extra cedar shingles are freely offered at $3.30 for Boston delivery, Clears at $2.75 and second Clears at $2.25.

UNITED STATES.

Compared with one year ago the movement of lumber throughout the United States shows a falling off, not marked, but sufficient to prevent any recovery in prices from the decline which has taken place during the past six months. The curtailment in demand has resulted largely from a decreased consumption by the railroads, as building operations are normally active. Many persons are looking for a revival in business after the presidential nominations are over next week, as there is a strong feeling that the business interests of the country are not likely to suffer through a change in the fiscal policy. One of the encouraging signs from a lumber standpoint is an increasing demand for stock from the Eastern States. This is reported by the Lake Superior manufacturers, who are holding prices firmly on the ground that the amount of lumber to be produced this year will be no more than equal to the demand. There is especial firmness in No. 3 and 4 boards. The old stock of No. 4 boards has been entirely cleaned out, and there is a very light supply of No. 3. The decline in the price of Norway flooring has resulted in a heavier movement of that lumber. The weakest grade in pine is shop common, for which inquiries are very light.

Weakness is more pronounced in hardwoods than in pine. Business has been disappointing and stocks have accumulated to a greater extent than was believed possible two months ago. The country demand is lacking. The northern hardwoods, such as birch, basswood, elm, and maple, have declined about $1 per thousand feet, but are steady at the lower prices. Basswood has shown some improvement during the past week, but is still a slow seller, while birch is moving in larger volume.

GREAT BRITIAN.

There has really been no improvement in the British lumber market since last writing. The opinion is expressed that this season is likely to witness heavy consignments, is which case buyers would have no difficulty in being able to purchase anything they may require in reasonable quantities. The fear of such shipments is working against the market and shippers are, if anything, showing greater anxiety to close contracts, with a further shading of prices in some instances. At the recent public sales prices showed further weakness. Concerning spruce deals the Timber Trades Journal says: "The low c.i.f. offers that are reported in respect to spruce deals must be accepted in a qualified sense, and do not bear a full significance unless the specifications are taken into account. From what we can gather the market for 3 x 9 inch deals has not varied much from the position it stood in two or three months ago. Some depression has been experienced, and where shippers pressed sales they have had to make concessions. If what we hear is correct, there has been some slight improvement in the export trade during the past week or two, and from this holders are looking forward to a more active inquiry."

STOCKS AND PRICES.

The first of the season's log drives down the Moria river has begun to arrive at Belleville, Ont. It totals 25,000 pieces.

D. E. Sprague's log drive has started down the Red river for Winnipeg. It contains 6,090,000 feet. Mr. Sprague will also get 6,000,000 feet of logs from Rainy Lake by train.

Robert Aitken, who has been superintending driving operations on the Aroostook river in New Brunswick, has been successful in getting out all his old logs, about 9,000,000 feet.

It is estimated that 30,000,000 feet of saw logs will come down the Sturgeon river this season. J. R. Booth will drive 12,000,000 feet, Gordon Bros. 8,000,000 feet, the Victoria Harbor Lumber Company 8,000,000 feet, Cockburn & Son 2,000,000 feet, and the Nippising Lumber Company less than a million feet.

QUEBEC TIMBER LIMIT SALE.

A sale of Quebec timber limits took place at the Parliament Buildings, Quebec City, on Wednesday, June 22nd, Hon. S. N. Parent, Minister of Lands, Mines and Fisheries, presiding. Mr. P. Blouin, of the Department, acted as auctioneer. There were 1,716¾ square miles of limits disposed of, the total revenue amounting to $259,865.90. The following are the purchasers: McCormack & Co.—Lots 11, 13 and 15, range 3, 93 miles, on Upper Ottawa, at $91 per mile; range 4, Nos. 10 and 11, 100 miles, same price; range 5, Nos. 9, 10, 11, 150 miles, $130 per mile; lot 16, same range, 50 miles, $91 per mile.

Mr. Flood—Four miles, Grand Lake Victoria, at $1,100 per mile.

W. Hendrie—Nos. 603 and 604A, on Ottawa River, containing 8 miles, $501.

Mr. Ritchie—Forty-seven and a half miles at Bostonnais Island, on the St. Maurice, at $101 per mile.

Mr. Dupuis, M.P.P.—Back of River French, on the upper St. Maurice, 164 miles, at $156 per mile.

Mr. Grogan—Lot No. 13, Saguenay, 49 miles, $115 per mile.

Laferriere Lumber Co.—Lots 14 and 16, Saugenay, 60 miles, $130 per mile.

Manicouagan Export Co.—Lot No. 7, River Manicouagan, 50 miles, at $130 per mile.

J. C. Kaine—Three miles and three-quarters at Petit Bergeronnes, at $91 per mile.

W. H. Davis—Lots 1, 2, 3, on river Godbout, 60 miles, $135 per mile. Lots 1 and 2, on river Moisie, at $121 per mile.

H. M. Price—Nos. A and B, on the river St. John, North Shore, 68 miles, Nos. 2 and 3 on Salmon River, 115 miles, and 77 miles on the River Chambers, at $101 per mile.

M. K. Kean—Two miles and a half in new township Bonaventure West, range 9, and five miles, range 9, at $201 per mile.

J. N. Piche—60½ miles in Canton Milenkek, at $135 per mile.

Lefebvre & Marr—5½ miles, Canton Marias, at $155 per mile, 3⅜ miles on River Andre, at $212 per mile.

Senator Edwards—30 miles on Grand Cascapedia River, at $155 per mile, 50 miles on Salmon River, at $185 per mile; branch 3, 35 miles, $190 per mile; branch 4, 15 miles, $205 per mile; branch 5, 18 miles, $215 per mile; 44½ miles, River Bonaventure, $153 per mile; 37¼ miles, River Bonaventure, $290 per mile.

W. Power—River Maepes, 2 2-5 miles, range B, Rimouski West, $201 per mile.

Mme. R. Blais—5¾ miles in Cabot township, Metapedia Valley, $151 per mile.

M. Guerette—Thirteen miles, range 1, Township Chabot, $201 per mile.

Wm. Milner—148 square miles on St. Anne River, Gaspe, $101 per mile.

Mr. Calhoun—Sixty miles, Sydenham West, Gaspe, $201 per square mile.

King Bros.—80 square miles, at Petit River Pabos and Grande River Pabos, $202 per mile.

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we cantake his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

The saw and planing mill of John Atchison at Cornwall, Ont., together with 300,000 feet of lumber, was destroyed by fire on June 25. The loss is about $35,000 and there is said to be no insurance.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN)

OTTAWA, June 24th, 1904.—Comparatively little lumber is being shipped from the Ottawa district mills these days, either by rail or water. The English market is receiving but small shipments and nothing is going to the United States outside New York and district. About a score of lumber barges were here with coal this week, but only a very few could get lumber as a return cargo to the States.

High water in the Ottawa has interfered with the movement of lumber by barge. However, as the river is dropping to its normal level, the shippers are finding it possible again to work at the docks. Most trouble was experienced at Calumet and Rockland. At the latter point part of the yards was flooded and the tracks will need repairing.

It is likely that the high water will have the effect of reducing the season's lumber cut. The L'Original mills have only been running about half time and the Perley mill at Calumet and the Edwards Company's mill at Rockland were also interfered with by the high water.

Inquiry shows that Ottawa lumber prices are stationary, holding to the figures that have ruled all spring. Dullness is about the word that describes the lumber trade hereabouts at present.

The English market is quiet, so quiet in fact that considerable square timber that was cut for summer sale in the Old Country will be left on the limits until next season. Discussing the square timber end of the business, a leading operator said that present prices are not within eight to ten cents a foot as good as the prices at which sales were made last fall. Fraser & Company and Brennen & Company are two firms that have decided to hold over their square timber on account of the slump in in prices.

From present indications, and for the above reasons, there will be a big decline in the production of square timber next season.

It was persistently rumored recently that Mr. Thomas Mackie, M.P., had sold his newly purchased limits along with others at an advance of $100,000 on the price he paid at the December sale in Toronto. However, Mr. Mackie is purchasing horses and making other arrangements to work the limits himself, so that the talk of sale is groundless.

The high water in the Ottawa river caused a break in the Des Joachims dam above Pembroke lately. About 300,000 logs and pieces of pulpwood were liberated, and it was feared at first that great damage and delay would be caused by the distribution of the logs. However, the logs were all collected by the steamers of the Upper Ottawa Improvement Company within a few days. The company was favored in the work by natural conditions, a strong east wind holding the logs in place. The companies interested were J. R. Booth, W. C. Edwards Company, Hawkesbury Lumber Company, McLachlan Bros. and E. B. Eddy Company.

Reports show that all the log drives are coming along in fine shape and the firms will have to report but few logs as "hung up".

Charles Desmarais, of Hull, has a stock of cedar poles 25 to 60 feet in length at Mellon station on the Pontiac branch of the C.P.R. He is open for offers.

A lumber traveller returned from an American trip reports business in his line better throughout New York state than in the city itself.

CANADIAN LUMBER SHIPMENTS.

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, JULY 6, 1904 No. 23

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

FOR SALE CHEAP

TIMBER BERTHS

General Store and Saw Mill. Capacity 25 M (in running order). Terms liberal. Apply

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Present lumber prices show more irregularity, we think, than at any previous time this year. It would not be fair to say that the market is depressed, for the feeling of the trade is quite the reverse; but that there has been shading of prices by more than one concern is admitted. There seems to be more old stock offering than was believed to be available, and the disposition of manufacturers to move the stock is reflected in lower quotations. The common and better grades of the new cut are also offered at concessions ranging from $1 to $3. No. 3 cuts and better are about $3 lower than one month ago. Ten inch box and common is held at the mills at $17, 12 inch at $18, and 5/4 and 6/4 box and common sidings at $16. Mill cull sidings are worth about $12.50, and 10 and 12 inch mill culls $11.50. Hemlock continues very firm, 2 inch in the narrow widths alone showing any decline, and that only 50 cents.

While the hardwood demand is quiet and enquiries few, prices have not declined much. Maple flooring is offered at concessions, partly owing to large arrivals from the United States.

QUEBEC AND NEW BRUNSWICK.

There is a very fair demand for spruce lumber for shipment to the United States, boards being worth from $11.50 to $11.75 per thousand f.o.b. St. John. Provincial boards sell about $1.50 below these figures. British deals are about steady at the reduced figures previously named. Cedar shingles are selling freely and there seems to be a disposition to stock up at each favorable opportunity in anticipation of a stronger market later in the year. Laths are, if anything, a little easier,

TENDERS

will be received by the undersigned up to **1st August, 1904,** for the purchase and removal of the **Old Water Saw Mills, formerly the property of Gilmour & Co., Gatineau Mills, near Chelsea, Que.,** containing probably half a million feet of Lumber and Timber, besides Machinery. **Separate** Tenders wanted for "Iron, Shafting and Machinery," and for "Lumber, Timber, and Roofing."

All material to be removed from the premises before the 1st May, 1905.

TERMS.—Twenty-five p. c. on acceptance of tender, balance in cash as material is removed from the premises.

The highest or any tender not necessarily accepted.

GILMOUR & HUGHSON, Limited,
HULL, QUE

1⅝ inch bringing $3.20 to $3.25, and 1½ inch $3 to $3.10 for Boston delivery.

UNITED STATES.

The lumber market of the United States is not particularly firm. The consumption has been about up to expectations, but dealers and consumers are buying as little lumber as possible in the hope of being able to depress prices and purchase to better advantage later in the season. Eastern stocks are low and must be replenished from time to time. Good common inch and the box grades in white pine lead in point of demand and in firmness, selects and shop being in more abundant supply and less firm. Dealers do not anticipate much improvement until buying commences for the fall trade, and this is likely to be later than usual on account of the Presidential election. Spruce is in light supply and all offerings at New York are readily taken. There is an active demand for birch at good prices. Ash also sells readily. Certain jobbers at Buffalo are said to have cut the price of quartered oak, offerings of which from the south have been quite liberal of late.

GREAT BRITIAN.

The British lumber market is showing a slightly better tone. The lower qualities of pine deals are difficult to dispose of, but there is a moderate movement of the higher qualities and of spruce. Several cargoes of the latter have recently been placed without any decline in prices, which is regarded as a favorable indication. Dealers have deferred placing in anticipation of a rush to sell, but so far this has not occurred. The quantity of stock offering at London and Liverpool is considerably less than usual at this season of the year. The recognized standard of prices for spruce deals is about £9 10s. per standard c i.f. for 3 × 9 inch second quality, and £8 15s. for thirds. Hardwood planks have been in more active demand, but the supply is ample and no advance in price has taken place.

The woodworking factory of L. P. Morin & Son, at St. Hyacinthe, Que., was burned recently. The loss is about $45,000, with insurance of only $15,000.

STOCKS AND PRICES.

The Victoria Lumber & Manufacturing Company, of Victoria, B.C., are shipping a considerable quantity of lumber into the Northwest.

R. S. Gallop, of Canterbury, B.C., intends taking out about 4,000,000 feet of logs on his timber limits on the Jumbo Fork of Toby Creek.

Sims & Co., of Little Current, Ont., are reported to have sold their cut of white pine lumber to Tonawanda parties, the transaction representing about $50,000.

The Nipissing Lumber Company, Limited, have sold the cut of their Cache Bay mills to Morris S. M. Long, of Hamilton. The consideration was in the neighborhood of $17 per thousand.

Tanner Bros., of Sturgeon Bay, Ont., recently received a raft of timber from French River which contained over 6,000,000 feet and which is one of the largest rafts ever brought down from that river.

The Scott Lumber Company, Fredericton, N.B., this week shipped a cargo of 2,500,000 feet of spruce deals to Liverpool, England. The deals were all manufactured at their Victoria mill since the first of June.

The Crows Nest Pass Lumber Company, Wardner, B.C., have completed arrangements to secure 5,000,000 feet of logs cut at the St. Mary's river camp. The logs will be boomed at Wardner. The company have also purchased 500,000 feet of logs cut by the St. Eugene Mission Indians.

D.V. Mott, of Fernie, B.C., has received the leases for the timber limits purchased by the Elk Lumber & Manufacturing Company. The limits secured include 16,000 acres and contain about 400,000,000 feet of timber. About half of this is tributary to the mill plant at Fernie, while the balance will be converted into lumber at Hosmer, where the company will build a mill.

The plant and stock of the Boston Wood Rim Company, Limited, Toronto, is to be sold by tender.

R. P. Drury is announced to have been appointed receiver of the Vancouver Island Lumber Company, Sidney, B. C.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., July 4th, 1904.—American deals will be scarce on the St. John this season. This is owing to the fact that two or three of the largest American mills will saw all Provincial logs and most of the others will saw American only part of the time. These logs were contracted for last year when prospects were very bright in the United Kingdom and when in a few cases the situation warranted the manufacturing of American logs for the English market.

While the American market, to the country at large, is but a secondary consideration, to St. John it is just as important as the English market, owing to the fact that the much larger number of the mill owners here are Americans. For this reason it has often happened that St. John has enjoyed prosperous seasons when the English market was off and the lumber industry decidedly depressed in other sections.

During the early part of this year the prospects for marketing deals in the United States were not at all bright, but during the last month or two, the demand has increased and the market has shown a decided firmness. The outlook is hopeful just now, although it is freely acknowledged that lower prices than those of last year will prevail all through the season.

Compared with other years, shipments from the provinces are remarkably small and from the Eastern States they are much below the average. The feeling seems to be that until the elections are over no great stimulus can be looked for but that the present prices will be at least maintained. After the elections a greater demand and higher prices are confidently expected.

A specification containing the usual percentage of 6's, 8's, 9's, 10's and 12's would be worth from $13.75 to $14.25 per thousand feet f.o.b. St. John.

As the American logs are cut mostly on the Aroostook river, they are late in arriving; hence there is very little American lumber for sale in this section as yet. American spruce boards are worth from $11.50 to $11.75 per M s. ft. f.o.b. St. John. They are scarce and promise to be even more so. Provincial boards are plentiful and are worth for shipment to the United States $10 per M. Hemlock boards are still hard to obtain and there will probably be very few for sale this season in this vicinity. Prices mentioned last month will still apply.

Freight rates to Boston per schooner are $2.25 per M; to New York, $3.25. Owing to the small quantities going forward, charters are scarce.

Logs are coming along slowly and the mill-men are having a hard time to keep their mills going. While there is an abundance of logs between here and Grand Falls, they are not coming through the booms at Fredericton rapidly enough to keep the mills in cut, and as they have heavy stocks on the way the manufacturers do not care to buy any large quantities. Cedar is particularly scarce, one or two shingle mills being compelled to run at half their capacity for a few days. Advices from up river, however, say that the logs are being rafted rapidly and the mill-men hope to be well supplied before another fortnight has passed.

Prospects for stream driving continue bright and the logs are being rushed into safe water with all possible speed. Recent rains in the up-river districts have raised the river from to two four feet and the conditions for stream-driving are now all that could be desired.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

THE MOUNTAIN LUMBER MANUFACTURERS' ASSOCIATION OF BRITISH COLUMBIA.

This association is now in its third year and its membership amounts to about 30 firms, or 40 mills, and covers the territory west of the Cascades in British Columbia, and eastward as far as Calgary. Its usefulness is becoming more and more appreciated by the members, and it is now in a decidedly healthy condition. The last general meeting was held at Nelson on June 22nd, the session lasting all day. Among the matters under consideration were the trade conditions in the North-West. During the past winter and spring the demand has been light and the mills felt the slackness in trade severely. The claim put forward last year by those who opposed the interests of the lumbermen, namely, that the Canadian mills were unable to supply the market, was even then unwarranted, but with the addition of several new plants and increased capacity in some of the old mills, the condition now is that a very large quantity of lumber is piled in the yards in excess of what is required to fill the orders received.

The trouble has been largely aggravated by the fact that in the state of Washington, as a result of over-production and poor home market, a large number of mills are in liquidation, and the stocks of common lumber are being disposed of at sacrifice prices in the North-West and Manitoba, which is the sole market for the Mountain mills. Even in ordinary times, there being no duty on rough lumber coming into Canada, the American mills can undersell the Canadian, for the reason that machinery and labor cost less and timber limits are to be had at not only a lower original cost, but are less burdensome to carry. It is clearly shown that our opponents to the south can put lumber on the cars for a considerably lower price than we can. The mill men have brought these facts before the Government and requested a duty of $2.00 per M on rough lumber coming into Canada, but although the plea was strongly pressed, and the lumber manufacturers' case was, as they thought, demonstrated beyond argument, nothing was done, and the mistaken idea that the consumer in the North-West was getting the benefit of the lower prices was taken for granted.

These matters were considered at the meeting on June 22nd, and it was shown from personal experience of those present that the consumer is still paying for his lumber on the basis of the Association price, and the middleman in most cases reaps the benefit of the lower price of the imported material. In Southern Manitoba the Canadian mills are practically shut out of the market on account of the disadvantage they suffer in the matter of freight rates. The opinion was expressed that it would not be long before the view would prevail that the North-West farmers who receive the fullest protection and are directly benefitting by the British Columbia markets for their products, should not receive more than the lumber industry, which is now in its infancy in this section, and suffers from a more unequal competition. It was made perfectly clear that there neither was nor is any justification for the statement that a combine exists between the manufacturer and dealer. The policy of the former is to see that the whole North-West is properly supplied, and that the consumer is enabled to get his needs supplied without being subjected to excessive charges, and they realize that, by doing so, a greater quantity of their products can be disposed of. Arrangements with this end in view were begun some months ago whereby the price list was published throughout the whole North-west and now a powerful organization has been formed for the purpose of enabling the manufacturer to open up yards and supply lumber directly to the consumer. No change was made in the price list, save to permit a difference of $1.00 in favor of cedar boards. In fact, in eighteen months there has been no change in the price list, notwithstanding that the cost of logs at the mill has been increasing.

Grading rules were agreed upon after consideration of the report of a committee appointed at a previous meeting for the purpose of considering the question. This matter has been under way for some considerable time, and at first it seemed to some members impracticable to work out any feasable set of rules which would be just to all manufacturers, there being such a very great variety of woods, some of which might have to be treated as constituting a class distinct from others. However, it is now thought the present rules will prove satisfactory and a considerable benefit to the manufacturer and to dealers.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN)

VANCOUVER, June 21st, 1904.—Prices of lumber and shingles in this city, delivered at the mills, are an indication of how utterly demoralized conditions are at present. In fact, prices are so bad and so cut to meet any particular demand or competition, that millmen do not care to make them public. An enquiry of one of the prominent shingle manufacturers as to what the prices of shingles at the mills were, elicited the reply that he did not know, and while this may seem somewhat paradoxical, it is nevertheless true. The figures are quoted from $1.40 to $1.60, according to quality, but are flexible that trade may be secured in what is the worst time that the lumber industry in this province has yet encountered.

Mr. C. M. Beecher, vice-president of the B.C. Mills, Timber and Trading Company, which has just closed its largest mill, the Hastings in this city, remarked the other evening: "The Government at Ottawa seems to think that those members who do not represent the West know the conditions best, but the bad times which are now settling down in earnest will bring Sir Wilfred Laurier and his cabinet to a realization of things, but only after considerable harm has been done." That is a brief summary of the outlook at

present, particularly on the coast, and all because lumber is one article that the protection in the tariff and in the special clauses will not affect in any way. It is not going too far to say that Vancouver will have a change in politics next election. It has always returned a Liberal during late years, but it will suffer severely from the lumber depression, and if the Liberals dare not grant protection, the people will seek relief from a party whose policy is protection.

The coast loggers are at present seeking the assistance of all important bodies in the presentation of a petition to the government asking for the annulment of the order-in-council which came into effect about two years ago prohibiting the export of logs. Last year was the best the industry ever had. The demand for lumber was good and the prices fair. The result was that logs were high and scarce, and to prevent being without a supply many of the mills installed camps of their

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.,

New Orleans, La.

own. Now independent loggers have all kinds on hand, but no market. They state they could dispose of them in the States, but the law forbids, and the petition asks for the order-in-council to be raised if only to allow them to dispose of the great surplus. When the law was made the conditions were much the same as in Ontario at the time a similar act was enforced. The result in both instances was the erection of many mills in Canadian territory by Americans. The unusual prosperity of last year had a bad effect and there is no prospect of immediate alleviation, as the Dominion government has decreed that the Northwest market is not for Canadians but for the Americans who debar people from this side of the line from participating in any trade in their country, except under the most difficult conditions.

FIRES.

The lumber yard of L. Prefontaine & Company at Point St. Charles, Que., was visited by fire recently, when 100,000 feet of lumber were burned.

The sash, door and box factory of the Rat Portage Lumber Company, at Rat Portage, Ont., was totally destroyed on June 17. The loss is upwards of $100,000.

A saw mill at Huntsville, Ont., owned and operated by John Whiteside, was burned on the 18th June. The loss is about $12,000. The lumber yard was saved.

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, JULY 13, 1904 No. 24

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

will be received by the undersigned up to **1st August, 1904,** for the purchase and removal of the **Old Water Saw Mills, formerly the property of Gilmour & Co., Gatineau Mills, near Chelsea, Que.,** containing probably half a million feet of Lumber and Timber, besides Machinery. **Separate** Tenders wanted for "Iron, Shafting and Machinery," and for "Lumber, Timber, and Roofing."

All material to be removed from the premises before the 1st May, 1905.

TERMS.—Twenty-five p. c. on acceptance of tender, balance in cash as material is removed from the premises.

The highest or any tender not necessarily accepted.

GILMOUR & HUGHSON, Limited,
HULL, QUE

CURRENT TRADE CONDITIONS.

ONTARIO.

The past week has been characterized by a steady trade in lumber at the lower basis of prices which has been established. That there has been no further cutting o any account is regarded as a recognition of the healthy conditions underlying the market. The stock of white pine held at the mills at the beginning of the summer season was by no means large, and the consumption promises to make heavy inroads upon the season's production. One or two Michigan dealers have recently purchased considerable blocks of white pine in the Georgian Bay district. Building operations are responsible for a large local consumption of lumber. In Toronto, for instance, the building permits issued during the first half of this year exceeded all previous records, being valued at $2,629,102 and including 728 dwellings, 25 factories and 23 warehouses. Keener competition is being experienced from yellow pine, but there is now some hope that the Government will protect the Canadian industry by an import duty on United States lumber.

Michigan hardwoods are being shipped into Western Ontario, and with a decreased consumption, the demand for the product of the Canadian mills is slow. Prices, however, are not showing much weakness, and there is a fair demand for soft elm and birch. Hemlock is still held at $12.50 at the mills.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market shows no signs of becoming more active in the near future. Shipments from St. John, N.B., to the United Kingdom are exceptionally

light, while there has been a falling off also in the shipments of provincial lumber to the Eastern States. The prices offered by dealers reflect the easier tone which characterizes the United States market. Spruce clapboards continue to show some strength, prices for Boston delivery being $41 to $42 for Extras and $38 to $40 for Clears. Spruce lath are offered freely at $3 to $3.10 for 1½ inch and $3.15 to $3.25 for 1⅝ inch. Very few cedar shingles of Extra grade are selling above $3.25 on Boston rate of freight, while there are large offerings of the lower grades at recessions from the prices ruling a fortnight ago. The tendency does not seem to be upward.

UNITED STATES.

An analysis of the lumber situation in the United States leads to the conclusion that there has been a slight improvement. The shipments from the head of the lakes during the month of June were 62,000,000 feet, of which 57,000,000 feet were from Duluth. Several transactions are reported for stock for future delivery and there is an increase in the number of enquiries. Business in the Eastern States is quiet, but dealers are doing a fair trade. The recent decline in prices has not stimulated buying to any extent, but orders for small lots are more numerous, which is another indication that dealers are not overloaded with stock. The call is chiefly for common and low grade pine, the better grades being hard to move. In Chicago concessions on prices have been mostly on dimension, shop lumber and better stock. No. 3 and No. 4 boards have not yielded in price, the demand being sufficient to absorb all offerings. Random spruce has declined 75 cents a thousand during the last two weeks and occasionally a sale has been made at $1 less than the spring prices. There is a lessened inquiry for hardwoods which is not easily explained, but it is probable that the vacation season is having its effect and that consumers are still pursuing a policy of curtailment. Even birch is not as active owing to a falling off in the furniture demand, but prices are held fairly firm. Thick maple is the strongest of the northern hardwoods with the demand comparatively brisk. Chicago reports a good demand for white pine lath. Prices range from $3.10 to $3.25, with $2.25 for No. 2. Mixed lath are held at $2.90 for No. 1 and $2 for No. 2, and Norway at $2.60 for No. 1 and $1.85 for No. 2.

GREAT BRITAIN.

The improvement in the British market mentioned last week has become a little more pronounced, with buyers showing a greater disposition to meet the demands of shippers. The latter, on the other hand, seem unwilling to give further concessions and it is probable that prices have touched bottom for the near future at least. The recovery is likely to be slow, but it would be greatly stimulated by an increase in building operations. The receipts of Canadian lumber at the leading ports this year show a decline as compared with the previous two years, but the stock on hand in most lines is still large. Prices for the better grades of pine deals and boards are firm, but the lower qualities are still offered at prices which must leave no margin of profit for the importer. Spruce is not offering in large quantity and there is not likely to be much pressure on the market during the summer months, as shippers will hold their stock in the hope that later developments will be of a favorable character. Birch planks are in good demand and prices are a little better.

STOCKS AND PRICES.

Jobbers at Buffalo quote elm flour barrel staves at $11.50 to $12 for first-class and $8 to $8.50 for second; basswood heading, 8 to 8½ cents for first-class and 6 cents for second; coiled hoops, $9.50 to $10 for 6-foot and $9 to $9.50 for 5½-foot.

Under date of July 2nd, Messrs. S. P. Musson, Son & Company submit the following report of the Barbadoes market: The arrivals during the fortnight consist of the schooner "Pacific" with 15 M. white pine, 15 M. spruce, and 70 M. hemlock, which being all seconds brought $19, $16 and $14 respectively, and the schooner "Harry Troop" with 58 M. spruce and 22 M. white pine, which brought $19.60 and $18.50 respectively. Our market is now fairly supplied with all descriptions, and as demand after the crop is very small, we cannot look for better prices in the near future. During the period under review, besides the "Bravo" which we advised in our last, the bulk of whose Long Cedar shingles realized in the neighbourhood of $5.55 and $6.30 for extra quality, with $4.15, $5.80, $7.25, $7.80 for 4, 5, 6, 7 inch Dimension respectively, the "Nimrod" has arrived with 680 M. Cedar Laying and 97 M. Long Cedar, which we placed at $2.08 for former and $5.62 for latter. The "Dawn," with 200 M., and the "Utility" with 995 M. Laying to neighbours, have since arrived and prices obtained are about the same as advised above. The "Harry Troop" also had 1,400 M. Cedar Laying which had been previously contracted for by dealers at $2.25, being guaranteed as better quality than the general run, and a cargo of 820 M. offered to arrive is supposed to have been fixed at $2.09, or thereabouts. The market therefore is well supplied especially with Cedar Laying, and we must look for lower prices for future arrivals.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells' Monthly Timber Circular contains the following information in respect to the Glasgow lumber market:

WHITE PINE.—The import during the month has been 1,000 loads waney pine. The stock now consists of about 7,000 loads waney and square, and in view of the reduced consumption and none to rosy outlook, seems more than ample for all prospective requirements.

RED PINE.—Stock is very low but quite ample, there being now hardly any enquiry for this class of timber.

OAK.—There has been no import, and stocks are still heavy, aggregating about 3,700 loads in Quebec and Southern States wood. Enquiries during the month have been of a trivial nature, and prices are rather easier.

ELM.—The stock amounts to 1,663 loads, and shows a satisfactory reduction on the two previous years. This almost wholly consists of second-class and soft elm, there being practically no first-class rock of good size at present in stock. First-class rock is being enquired for, and fresh shipments should meet with a ready market.

QUEBEC BIRCH.—The import during June amounts to about 60 loads, consisting of large wood, which was disposed of from the ship's side at, it is understood, 2s. 1d. for 18-inch average. The stock on hand is trifling, and a few shipments should meet with a ready enough sale, though at the same time there is nothing like an active demand existing.

LOWER PORT BIRCH.—The total import so far this year only amounts to 230 loads, and seems to have been ample for the trade's requirements, as there is still some 86 loads of Pictou wood in the public yards. Values are round about 16½d. for 15-inch average.

QUEBEC ASH.—The import this year has been on a very meagre scale, but notwithstanding this there has been little or no enquiry, which indicates that this once popular wood has gone pretty much out of use. In States ash about 850 logs have been imported during the six months, a considerable proportion of which is still lying in store unsold. There are only occasional enquiries.

DEALS, ETC.—Business during the month has been quiet, and imports continue on a modern scale. Stocks of narrow 1st pine deals are low, and a shipment or two of 7/10 and 3 would meet with a ready market. The stock of 2nd, 3rd, and 4th pine is heavy, and difficult to move. Lower Port Spruce and Pine.—The import has been heavy, and while sales have been made freely, prices are considerably reduced. Current values are as under:—

Third Pine Deals.—11-inch and up, £11 15s. to £14; ends and non-dimensions, £9 10s. to £11. Red Pine Deals.—9 and 11 inch, £11 to £11 10s.; narrows, £8 5s. to £8 10s. First Pine Sidings and Strips.—9 to 10 inch, £24 to £24 10s.; 11 to 12 inch, £25 to £26; 13 to 14 inch, £27 to £28. Spruce deals.—9-inch and up, £8 to £8 10s.; 7 and 8 inch, £6 15s. to £7 10s.

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN)

VANCOUVER, July 4th, 1904.—There is a little improvement in trade with the North-west Territories this month, though nothing to have any particular effect on the depressed conditions. The Victoria Lumber and Manufacturing Company is one of the companies doing a good business in that market and is shipping upwards of 100,000 feet per day. It is aggravating to lumber manufacturers to think what trade might be done if Canada were preserved for the Canadians instead of allowing Americans to use our markets for their own convenience.

One article in which Vancouver manufacturers should do a brisk business with settlers in the Territories is that of knock-down houses. Mr. E. Mahoney, manager of the Royal City Mills, one of the large local establishments of the B. C. Mills, Timber and Trading Company, patented a model knock-down house a short time ago, and Mr. H. A. Bell, of this city, has gone to Winnipeg where he will attend the Dominion exhibition and set forth the advantages of a structure of this kind. The model is ingenious, and when set up can hardly be told from the ordinary house of carpenter build. It is a fine thing for settlers just starting up in a new country where material and builders are scarce.

Railway building in the North-west, where many hundreds of miles will be laid this year, and also in the southern part of this province, is bringing good business to East Kootenay, as many ties are needed. Many camps have been started up this year in addition to those which have been operating. W. H. Griffith, of Cranbrook, is putting in a plant at Fort Steele Junction; R. O. Jennings and G. Laurie, both of Fort Steele, have each contracts for 50,000; the East Kootenay Lumber Company, which last year supplied the C.P.R. with 1,000,000, has over 150 men at work getting out ties, and 70 or 80 men are working near Kimberley at the same occupation.

The loggers have not yet presented their petition to the government praying for the abrogation of the order-in-council prohibiting export of logs, but their does not seem to be much chance of their wish being acceded to. Some of the millmen would like to see the embargo lifted for a short period anyway to allow the surplus stock to be disposed of, but governments are very conservative and slow to adapt themselves to circumstances, until, perhaps, damaging effects bring the matter prominently to their attention.

The only encouraging feature in the whole situation is the large number of applications for licenses to cut timber on government lands, there being fifteen in last week's Gazette. John Murray, Provincial Government Timber Inspector, has returned from a trip to the interior. He was collecting dues from mills in view of the closing of the fiscal year on June 30th, and reports that returns were prompt and better than he expected.

CANADIAN LUMBER SHIPMENTS.

From Montreal: Steamer Lake Manitoba, for Liverpool, 5,971 pcs. lumber, by J. Burstall & Co.; 9,204 pcs. lumber, by E. H. CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } **$1.00 PER YEAR** { **The Lumberman Weekly Edition, every Wednesday**

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, JULY 20, 1904 No. 25

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

The highest or any tender not necessarily accepted.

GILMOUR & HUGHSON, Limited,
HULL, QUE

CURRENT TRADE CONDITIONS.

ONTARIO.

The white pine market is now holding its own, no further concessions to buyers, so far as can be learned, having been made. It is believed that the readjustment of prices which has taken place has been beneficial to the market in that it has encouraged the consumption of lumber. There are already indications that consumers who have kept out of the market as much as possible are now willing to contract for future supplies, and this class of buying is likely to figure prominently in lumber transactions during the next three months. Dealers and consumers have been running along with as little stock as possible, in the hope of being in a position to take advantage of the mid-summer drop in prices which is often experienced. Consequently, they are now prepared to buy. Michigan dealers are also showing a little more interest in the market, and enquiries from the Eastern States are increasing in number. Mr. S.O. Fisher is reported to have recently sold 10,000,000 feet of lumber to be sawn at Blind River, and as he had previously sold 5,000,000 feet, it leaves but 10,000,000 feet of this season's output on the market. Many other large manufacturers have sold an equal percentage, while others are holding their cut for higher prices than can now be obtained.

While there has been a falling off in the demand for hardwoods, prices have not broken to any extent. Some grades are in light supply, as enquiries for stock frequently bring the reply that the lumber cannot be supplied at any price, which would indicate that there is not so much stock on the market as may be supposed.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber is no weaker, for manufacturers refuse to sacrifice their stock. The New York market is taking a considerable quantity of New Brunswick lumber, the demand in that city being quite active for this season of the year, but there has been no visible improvement in shipments to Great Britain. We understand, however, that most of the operators in Western Nova Scotia have placed their entire output under contract, and there is not likely to be as much lumber offering as was expected earlier in the season. There wil be upwards of 30,000,000 feet of lumber hung up on the St. John river, which will reduce somewhat the lumber production of that district. Some consideration has been given to next winter's logging operations, and the disposition seems to be to delay as long as possible making arrangements for work in the woods and to be guided by the market

conditions. If the market does not improve it is quite likely that several manufacturers will greatly curtail their operations and that others will take out no logs whatever. This disposition is a strong argument in favor of maintaining the present prices of lumber.

New Brunswick cedar shingles are offering in excess of the demand and there has been an increased number of sales at the low basis of $3.20 for Extras at Boston rate of freight. This would seem to present a good opportunity for dealers to acquire a supply of shingles, as when the fall trade commences and the Presidential election is out of the way, there will doubtless be a reaction to higher prices.

MANITOBA AND BRITISH COLUMBIA.

The aggregate cost of buildings for which permits have been issued so far this year in the city of Winnipeg exceeds $6,000,000. This vast amount of building will call for a large quantity of lumber and is responsible for considerable activity in lumber circles. The consumption throughout the entire North-West is heavy, and as the yield of wheat promises to be the largest on record, dealers are disposed to stock up to some extent in anticipattion of a continuance of the present healthly demand.

A late event of interest to British Columbia lumbermen was the adoption of a 40 cent rate on fir, hemlock and spruce lumber shipped from the Coast mills to Manitoba points. Up to the present time the 40 cent rate applied to fir lumber only, but the C. P. R. have now extended the rate to included spruce and hemlock. It is hoped eventually that a similar rate will be given on cedar also.

UNITED STATES.

The lumber outlook in the United States has brightened and the feeling of confidence is more pronounced. Statistics published by the Construction News shows that in the twenty-three leading cities there was a notable increase in building operations during the month of June as compared with the same month last year. The increase is equal to forty-two per cent. and shows that there has been a marked revival of building. The belief that this activity will continue throughout the season is in part responsible for the feeling of hopefulness which now pervades the lumber trade. The promise of an average yield of wheat and corn is also a favorable factor. Throughout the Eastern States there is a very fair demand for the lower grades of white pine, but it cannot be said that the upper grades are showing much life, and some buyers are still deferring purchases in the hope of being able to buy at lower prices. But dealers are not carrying large stocks and will be compelled to buy moderately if for nothing more than to supply requirements. Therefore, there is likely to be a sufficient movement to prevent prices of uppers from sagging any further, while the lower grades might easily be advanced.

Some business is doing in hardwoods, but it lacks snap. Plain oak is more active than any other lumber, and there has been an improvement of about $2 per thousand. White ash is also a good seller in the Boston market. White pine lath are worth at Buffalo $3.60 for No. 1 and $3 for No. 2 and Norway.

GREAT BRITAIN.

The slightly improved tone which we recently announced has continued. Buyers are a little more willing to acquire lumber when there is anything to commend its purchase. Although the market for Canadian lumber may truly be said to be a little firmer, prices are not quotably higher. The holders of white pine are not willing to sacrifice their stock, knowing that the supply is limited. Red pine is also in strong hands, and as the decline has been considerable an early recovery would be but natural. There has been a little more contracting for spruce deals, the basis being about £9 per standard for Quebec thirds. Of the Canadian hardwoods ash and elmare about the best at the present time. Square and waney pine timber is firm, but the demand is not active.

The improvement in the British market was not reflected in the prices realized at the last public sale in London, when 3 x 9 inch second quality, 12 feet long, brought only £9 10s. per standard. For third quality £7 15s. was obtained. These prices, particularly in the first instance, leave no profit to the importer.

STOCKS AND PRICES.

The Sturgeon river drive of over 17,000,000 logs was finished last week.

The barque Enterprise is about to load lumber at Wentworth, N.S., for the River Platte.

Forty-seven vessels have reached the Tonawandas this month, with a total of 33,423,061 feet of lumber.

S. O. Fisher, of Bay City, Mich., who stocks the Dolsen & McEwen saw mill at Blind River, Ont., is reported to have sold a block of lumber to go east.

The barge Three Brothers arrived at Owen Sound, Ont., recently from Boyne City, Mich., with about 500,000 feet of hardwood lumber for Keenan Bros., Limited.

The tug Arbutus reeently brought to Owen Sound a raft of 400,000 feet of maple and beech logs for the North American Bent Chair Company. The logs were cut on the peninsula.

The Fredericton Boom Company, Fredericton, N. B., had rafted up to July 15th 46,000,000 feet of logs at the Douglas and Lincoln booms. This is about one-third of the quantity likely to go through the booms this season.

J. D. McLean, Secretary of the Department of Indian Affairs, is asking for tenders up to August 19th for the white and red pine, tamarac and cedar timber of 9 inches and over in diameter at the stump, standing and lying on Indian Reserves Nos. 26A, containing 4,850 acres, and 26B, containing 2,600 acres, on Rainy Lake, district of Rainy river.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to 6th July, as reported by the Supervisor of Cullers :

	1902 Cu. Ft.	1903 Cu. Ft.	1904 Cu. Ft.
Waney White Pine....	1,286,662	611,480	987,880
White Pine.....	257,197	80,620	69,920
Red Pine.....	45,231	40	2,000
Oak.....	339,071	380,640	121,760
Elm.....	442,046	216,000	131,400
Ash.....	46,931	34,160	12,240
Birch and Maple....	86,310	132,840	111,690

The exports of lumber from St. John, N.B., sawn at mills owned by Americans, during the three months ending June 30, were valued at $140,793.08, made up as follows: Long lumber, $118,375.16; shingles, $13,065.08; lath, $9,352.84. In the same period the New Brunswick lumber sent from that port to the United States was valued at $71,742.26, made up as follows: Long lumber, $24,124.59; lath, $36,812.93; shingles, $5,807.97; piling, $4,759.40; staves, $237.38.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

OTTAWA, July 18, 1904.—The report of a decline in lumber is not given credence by Ottawa and Ottawa district manufacturers and wholesalers. Careful inquiry failed to show any weakening or tendency to weakening outside the English market. As has been already reported, square timber has dropped about ten cents from the ten per cent. advance at which contracts were made last fall. True, business with the States has been very slack, but the stagnation of trade is not taken as an indication of a weakening in prices. Lumbermen are notorious for their reluctance to figure in print, so that names cannot often be used. A local wholesaler said today, "I would like to know where prices are weakening, it's certainly not around Ottawa. Only last week I was offered a block of high grade lumber, but at an advance of $2 on the figure ruling a year ago."

A manufacturer said, "While there may be isolated instances where prices have become easier, there has been no decline that could be looked on as indicating a weakening in general in any line."

As a matter of fact, the manufacturers would not be affected by any decline, as the Ottawa Valley cut is practically all out of

hands. None of the present season's cut is ready to ship yet, but with the turn of the summer it will be on the move. Stocks in the States are very low, and must necessarily be replenished ere long. Continued labor troubles across the border have held back the lumber business, and, of course, the old familiar bugbear, Presidential election, has played a similar part. Once Uncle Sam gets away from these there should be resumed activity in the lumber business, and an increased demand for Canadian stuff.

Men are already being hired for early operations on the limits. Wages are ower by $2 to $3 a month, and a further decline is looked for from the high figures that have held good for the past three years.

In a recent issue of THE LUMBERMAN, mill cull sidings were quoted as being $1 higher than ten inch mill culls. According to a local manufacturer the situation should be reversed.

All the logs are now on the Ottawa and its big tributaries. The rush of logs is so great that hundreds of thousands are being held back on the tributaries. For instance, on the Madawaska, Mr. J. B. Booth is holding 400,000 awaiting the time when the booms on the main Ottawa will be releived of their present congested condition. So great was the crush of logs that the Upper Ottawa Improvement Company found it necessary to put in a new boom on the Ottawa at Rocher Capitional about twenty miles above the Des Joachims boom near Pembroke.

The rapid fall of the unprecended high water on the Gatineau, left about 80,000 logs stranded along the low lands. Men are now at work getting these back into the main streams.

TIMBER OPERATIONS AT TEMISKAMING.

Following is a statement of the total quantity and value of timber cut and sold by settlers in the Temiskaming District during the past winter. The purchasers were J. R. Booth, E. B. Eddy Company and the Rideau Lumber Company.

TIMBER	QUANTITY	VALUE
Pine	2,608,894 ft. B.M.	$26,088.94
Spruce	4,089 000 " "	32,712.00
Tamarac	483,934 " Lineal	16,937 69
Cedar	3,641,212 " "	91,030.19
Pulpwood	13,232 Cords	36,388 00
Tamarac Ties	202,029	24,243 48
Cedar Ties	35,558	1,266 96
Jack Pine Ties	4,055	486.60
Cedar Posts	10,572	634 32
		$232,788.18

There were nearly 300 settlers cutting timber, therefore the average amount paid to each settler would be nearly $800. There was also about 750,000 feet of pine cut by the mills for local supply only.

COOPERAGE STOCK.

Messrs. Sutherland, Innes & Company, Chatham, Ont., say: "Until recently the weather has been very unfavourable for summer logging, there being so much rain that the woods are still very wet, and hardly anything has been done in the way of hauling. The consequence is that a great many mills are shut down, having cut out the logs they got in during the winter months, and until we get a dry spell they will not be able to commence running again. The majority of the mills, however, are still running, although some of them only from hand to mouth, and the coopers are being fairly well supplied with material; in fact, we believe we may safely say that this is the first time for nearly 12 months that coopers have been able to get an adequate supply of material to keep them going. This month, however, will deplete the stocks on hand very considerably, and there is likely to be some delay in shipments going forward.

"We, ourselves, are anticipating a rush for apple barrel stock and are keeping a small stock on hand at every mill possible for emergency. The outlook for the apple crop is excellent, and probably more apple barrel stock has been already placed this season than was ever known before in the history of the cooperage industry, as the coopers are determined not to be caught short this year as they were last. There is no doubt there will be quite a scarcity of apple barrel stock later on, but we are in hopes there will be enough to go around to take care of the trade. The demand for flour barrel stock continues good, although it has eased off slightly, while the demand for all other classes of stock continues brisk, and the cement mills are now running stronger than they have done for months.

"Prices for all classes of stock remain firm; if anything there is a slight upward tendency in hoops and heading from a month ago, although it is not very appreciable. The larger manufacturers have been persistent in their prices since the new stock came in, the cheap stock which was offered on the market being made by the smaller manufacturers and in some cases it was considerably off grade. Some of the small mills turn out very good stock indeed, while others turn out very poor stock. We do not mean to say by any means that the large manufacturers are the only parties who turn out good stock.

"Sizing up the whole situation, we should think it was satisfactory both from the manufacturers' and coopers' standpoint; from the manufacturers' standpoint because they are getting a fair profit on the goods they manufacture, and from the coopers' standpoint because they are getting the stock which they require, and are able to get a fair price for their barrels.

"A great many of the apple packers have already contracted for apple barrels ahead at prices which are remunerative to the coopers so as not to experience what they did last year, when they had to pay more for the barrels than they could afford to."

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, JULY 27, 1904 No. 26

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

All material to be removed from the premises before the 1st May, 1905.

TERMS.—Twenty-five p. c. on acceptance of tender, balance in cash as material is removed from the premises.

The highest or any tender not necessarily accepted.

GILMOUR & HUGHSON, Limited,
HULL, QUE

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been a fair degree of activity in the lumber market during the past week. Some dissatisfaction is expressed in regard to United States shipments, but business locally compares very favorably with one year ago. Some dealers report that their facilities are taxed to the utmost to fill the large number of small orders which call for immediate delivery, which is an indication that consumers and retail dealers are carrying very light stocks. There is a very fair demand for bill stuff and some difficulty has been experienced in obtaining the necessary material to fill orders. The pine market as a whole is exhibiting strength, and any change in prices is likely to be in the direction of an improvement.

Buyers who have visited the hardwood mills have found that there is not a large quantity of stock offering nor any weakness in prices. Manufacturers seem to have become satisfied that the entire hardwood production will find a market at the prices now prevailing, and accordingly no concessions of consequence are being made. Hardwoods for interior finish are in good demand in Toronto. The furniture and implement factories are also willing buyers of stock. Lath and shingles are moving in some volume at unchanged prices. The consumption of No. 1 pine lath in Toronto is considerable, but there is very little demand for No. 2 excepting in the country districts.

QUEBEC AND NEW BRUNSWICK.

Considerable lumber is changing hands in the Eastern Provinces, notwithstanding the low prices, but it is composed chiefly of small lots, as buyers are not disposed to assume much risk until conditions improve. British deals are fully $2 per thousand lower than one year ago, which leaves little or no profit for the producer.

Manufacturers will hold their logs and lumber rather than sell at the prevailing low prices, and it is probable that the market will recover later in the season. New Brunswick cedar shingles have not strengthened, but on the other hand larger quantities of Extras have been sold on the basis of $3.20 for Boston delivery. As with lumber, the larger manufacturers are holding their stocks.

UNITED STATES.

The good prospect of having a large yield of wheat and corn to sell at high prices has established a strong feeling of confidence in the business community and has perceptibly influenced the lumber market. Retail dealers are anticipating their demands and are laying in a stock for the fall trade. These remarks apply particularly to the agricultural districts, but a better feeling prevails in the Eastern States also on account of an improved outlook for the iron and steel trade. The Buffalo White Pine Association met last week and reaffirmed the price list. Common lumber still shows an advancing tendency and no sales are being made at cut prices. Eastern dealers have picked up several blocks of lumber in the Lake Superior district, which would seem to indicate that the idea of a further decline in prices has been abandoned. Spruce lumber is not being manufactured in large quantities, the supply being no more than equal to the demand. The random cargo market is quiet, but ordered cargoes are active and firm. Quotations at Boston are: 2 × 3-4, 10 feet and up, and 2 × 5-6-7, $16.50; 2 × 8-9, 10 feet and up, and 4 × 4 and up, $17.50; 2 × 10 × 12, $20.

After weeks of inactivity the hardwood market is now showing more life. Soft elm in all grades and thicknesses is one of the best sellers. Plain sawed oak is also in good demand. Furniture manufacturing has not revived in full measure and consequently birch continues dull, but as the supply is not heavy, there is no pressure to sell.

GREAT BRITAIN.

Lumber conditions in Great Britain have improved only in respect to consumption, which is a little more active. While prices are firm, there has been no material advance, although it may be said that there is less pressure to sell. Buyers who deferred making contracts have been rewarded for their procrastination, but considering the present low basis of prices, it would seem unwise to further delay the making of contracts for requirements, and even buying for speculative account would seem to offer a good opportunity for profit. We are told that during the past fortnight prices of spruce cargoes have still further sagged, but that several cargoes have lately been sold to the Bristol Channel ports at the lower figures. It is stated that shippers regard the decline as temporary in character and look for a recovery of some proportions in the early fall. Spruce lumber is now lower than it has been for some years. A quantity of 3 × 9 inch second quality, of Breakey's manufacture, sold recently at public sale at £9 10s. per standard, which is practically c.i.f. prices.

STOCKS AND PRICES.

Montgomery Bros., of Buffalo, have received 10,000,000 feet of lumber by lake this season.

Mershon, Schuette, Parker & Company have just purchased the unsold stock to be cut this season by Eddy Bros. & Company at Blind River, Ont., estimated at 20,000,000 feet. The lumber will likely be shipped to Saginaw.

At an auction sale held by Churchill & Sims, London, England, on July 13th, a small quantity of Canadian lumber sold as follows: 12-14 feet, 3 x 11 inch unassorted pine, £5 per standard; 12 feet, 3 x 9 inch second quality spruce, £9 10s; 13 feet, 3 x 11 inch third quality spruce, £7 5s.

The American Lumberman says: "Importations of lumber into Canada for April, 1904, were valued at $588,087, as against $436,128 in the like month of 1903. For the period of ten months ended April 30 of the present year, lumber was imported into Canada, largely from the United States, to the value of $4,679,556, as against $2,920,876 in the corresponding period in the year previous. Thus American lumber sent over the line into Western Canada almost doubled in value in the last ten months, as stated. It is not to be wondered at, therefore, that the British Columbians are anxious to dam back this inflow of American lumber by some sort of fiscal legislation."

Messrs. Denny, Mott & Dickson, London, Eng., say of the lumber market: "There has been some demand for waney pine of good dimension but little enquiry for oak and elm. The latter, however, continues to harden in price—owing to the difficulty of shippers finding even the limited quantity to which they have committed themselves for the new season. Quebec oak continues to be difficult to sell, owing to the cheaper, if inferior, American oak being taken for many purposes where the dearer article used to be specified. The spruce market has shown an easier tendency for ordinary specifications but good prices have been realized by shippers for special requirements."

Messrs. S. P. Mussen, Son & Company, of Barbadoes, say: "The only arrivals during the fortnight ending July 16th were the schooner "F. B. Wade" with 62,000 feet of white pine and 2,000 feet of spruce, and the schooner "Nellie" with 15,000 feet of white pine and 32,000 feet of spruce, which were placed in Trinidad. The market is well supplied, and the demand, as usual after the crop, is very light. The lot of 820,000 of Cedar Laying shingles to which we alluded in our last, arrived on the 5th, and while $2.09 was obtained for the bulk of the cargo, $1.86 had to be accepted for the balance, which were not up to quality. The market for these is now well stocked, and although Long Cedar are not held in any quantity, we look to see lower prices in both these grades for next arrivals. Dimensions are in very light supply and a small lot would bring fair prices."

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., July 22, 1904.—Conditions in British Columbia, while not improving to any degree worthy of mention, are not getting any worse. Some lumbermen might say that the latter was impossible, still the mills are running, and though prices are not maintained in their integrity, yet they are sufficiently good that the sawing of the stock of logs on hand is continued. The 40-cent rate on spruce and hemlock to points east of the western boundary of Manitoba will be more of a benefit to the millmen of the interior, where these timbers are mainly sawn. Heretofore, the territory for the 40-cent rate extended only to the Manitoba line, but since American roads decided to extend the territory to all points west of the Missouri river, the C. P. R. was permitted to include Manitoba, which would under those circumstances be non-competitive territory. An extension of the 40-cent rate has been agitated for by the lumbermen, and now their hope is to have it apply to cedar. This the railway company will, however, not do, until the American roads take similar action. Coast lumbermen deal principally in fir and cedar, while spruce is one of the staples of those manufacturers who have their mills in the Kootenay. It is one step, though, to a betterment of rates, and in the present depression is of assistance.

The announcement of Hon. Mr. Fielding that next year something may be done for the protection of the lumber industry is not regarded so much as encouragement as a promise in view of the elections which may come off shortly. The necessity of preserving Canadian markets for the Canadian people, as is done in every industry except that of lumber, has been brought to the attention of the Liberal Government since 1896, and particularly within the last couple of years. The Government cannot plead ignorance of conditions, and in the last speech of Mr. Fielding, when he announced the dumping clause, he carefully excluded the west from any benefits, although providing that the people out this way should pay whatever extra could be charged on goods, and they are many, imported from the east. Hence, the statement that something may be done next year is not taken with all sincerity, and lumbermen here will believe nothing until they either see the duty imposed or have very definite assurance that it will be done.

A story was circulating in the up-country papers to the effect that the Kamloops Lumber Company had sold out their interests in the mills at Kamloops, Enderby and Annis, and had profited considerably by the transaction. Mr. George McCormick is head of this concern, and Mr. Wm. Irwin, of Peterboro, Lieut.-Col. M. Davidson and Lieut.-Col. John McGillivray,

both of Toronto, are also interested. Mr. D. C. Irwin, of this city, brother of Mr. William Irwin, and who also has shares, states that the deal was one whereby the company purchased several of the smaller holdings of stock, and thus have centralized interests instead of disposing of them.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., July 19th, 1904.—The lumber trade in this vicinity is quite brisk. Low prices prevail in all branches, but the feeling seems to be that they have reached rock-bottom. It is almost certain that when a change occurs it will be more favorable to the manufacturers.

English deals have shown but little change during the last month. Shipments from this port have been quite heavy and the wharves are being kept quite clean. Part of these shipments were the tail-ends of some 1903 contracts, but outside that the demand is fairly brisk. Still it is not so great as to warrant a too pessimistic view of the immediate future. Buyers are cautious, few contracts of any importance are being made, sales are small and mostly for early delivery. Few manufacturers have disposed of any lumber except in the way mentioned, as the prices available do not warrant their tying themselves up to any great extent. They are confidently expecting better conditions and want to be in a position to make the most of them when they do arrive.

According to information received from reliable sources, the principal dealers in the United Kingdom are carrying very small stocks; therefore any stimulation in the demand will be sure to have an immediate effect on prices. This is what the local dealers are hoping for and expecting. If, however, their expectations should fail to be realized, there is very little doubt that, preferring to hold their logs rather than carry a large stock of manufactured lumber or sell at a loss, they would cease operations entirely for a few months.

A specification of merchantable spruce deals of an average length say of 14½ feet, containing say 50 per cent. of 7s and 8s, 35 to 40 per cent. 9s, and 10 to 15 per cent. 11s, would probably bring from $11.50 to $11.75 per M s.ft., f.o.b. St. John.

The logs being sawn in this section this year are somewhat smaller than was the case last year. The result will be a larger percentage of the narrower deals, which, of course, reduces the value of the specification in which they are included.

Freight rates from St. John to the West Coast range from 32s 6d to 35s per standard.

Very little pine or hemlock will be manufactured here this season. Both are growing scarcer year by year and the small lots which are available are mostly American, being cut on the Aroostook river or some of its tributaries. Very little is shipped, as all that is obtained is required for local use and brings a higher price than could be obtained elsewhere.

CANADIAN LUMBER SHIPMENTS.

From St. John, N. B.: Steamer Benedick, for Barrow-in-Furness, 1,967,677 ft. deals, 160,009 ft.scantling, 85,776 ft.ends, 13,550 ft. boards. Steamer Micmac, for Brow Head, 85,232 ft. scantling, 98,620 ft. ends, 3,065 ft. boards. Schooner Rewa, for New York, 212,002 ft. plank. Schooner Ida M. Barton, for Vineyard Haven, 727,000 laths. Schooner William Marshall, for Philadelphia, 1,537,000 laths. Schooner Norman, for Washington, 1,833,700 lath; schooner Lucia Porter, 1,700,000 laths.

From Halifax, N. S.: Steamer Damara, for Liverpool, 253,171 ft. spruce deals, value $3,039; 48,287 ft. hemlock battens, value $433; 48,653 ft.hemlock car bottoms, value $437; 121,003 ft. birch deals, value $1,283; 224 tons birch timber, value $2,688, by Furness, Withy & Co.; agents.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, AUGUST 3, 1904 No. 27

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

JUDICIAL SALE OF PROPERTY

Pursuant to an order of the High Court of Justice made in the administration action of Re Thomson, Bank of Montreal vs. Thomson, there will be offered for sale by J. E. O'Rielly, Esq. the local Master at his Chambers in the Court House at the City of Hamilton at 11 o'clock in the forenoon on

Thursday, the 15th day of September, 1904,

Timber Limits Nos. 1369 and 1370 situate on Dodd Lake which empties into Malaspine Strait in British Columbia, said to contain 6608 acres.

The property will be sold subject to a reserve bid.

The purchasers of each parcel shall pay 10% of the purchase money at the time of sale to the Vendor's solicitors and the balance in 30 days thereafter into Court to the credit of this action without interest.

The Vendors will only be required to furnish such abstracts of title and title deeds or copies thereof or other evidences of title as are in their possession. In all other respects the terms and conditions of sale will be the standing conditions of this Court.

Further particulars may be had from Messrs, Bruce, Bruce & Counsell, Plaintiff's solicitors, Hamilton, Ont, Messrs. Washington & Beasley, defendant's solicitors. Hamilton, Ont., and C. Sweeney, Vancouver, B.C.

Dated this 30th day of June, 1904.

J. E. O'RIELLY,
Local Master at Hamilton.

TIMBER LIMIT FOR SALE

There will be sold by Public Auction at the Clifton House, Burk's Falls, on TUESDAY, SEPTEMBER THE 6TH, 1904, at 2 p.m., 44½ square miles Timber Limit, comprising the Township of Chapman in the District of Parry Sound. For further particulars apply to the BRODHAGEN LUMBER CO., Ltd, Brodhagen, P.O., Ont.

FOR SALE

Timber Berths

and new well-equipped Band Saw Mill situate in the Province of Ontario, District of Algoma, as follows:

Township of Kitchener, 36 sq miles, virgin limit.
Township of Roberts, 36 sq. miles. virgin limit.
Berth No. 107, 36 sq. miles.
Berth No. 167, 36 sq. miles.

The above limits contain 100,000 000 feet of good Pine, besides Spruce, Birch, Cedar, etc., situate on Spanish river and convenient to Lake Huron. Also a new, well-equipped Band Saw Mill with Dwelling Houses, etc., convenient for men situate at Spanish. Will be sold en blok or separately. Terms of payment very reasonable. For further particulars apply to

HUGH S. BRENNEN,
Hamilton, Canada.

One hundred and twenty-four timber licenses were issued by the British Columbia government during the past month. This is considered astonishing in the face of the depression in the logging industry on the coast. Most of the licenses, however, are for Kootenay limits.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber conditions during the past week, while not entirely satisfactory show evident signs of improvement, with the assurance of a large yield of grain hroughout the province. The demand during the past week has been steadily maintained local trade being good, in view of the extensive building operations now proceeding in the larger cities. Comparatively little lumber is being shipped to Great Britain, where the market still continues to be effected by the scarcity of money among the general public. Present shipments to the United States are small, dullness being chief feature of that market, although with the result of the presidential campaign a foregone conclusion and the large curtailments in the output of many industries, exporters are confident of a large increase in the demand towards the fall. Prices continue stationary generally holding to the figures that have ruled since spring. There is, however, a possibility of them taking a rise very soon as a large number of logs cut this year will not reach the mills on account of the excessive floods that have raged in various parts of the country.

QUEBEC AND NEW BRUNSWICK.

The demand for spruce lumber continues fairly active, with dimensions and yard orders holding firmiy. Shipments to the United States have been fairly good but there continues to be very little buying for the British market. Hemlock boards are steady at firm prices, while the demand for pine, although the market still continues rather quiet, has increased during the week. New Brunswick cedar shingles have strengthened a little and are now being sold on the basis of $2.90. Lumber prices continue about the same although it is pleasing to note a lessening in the disposition to cut as reported during the past month.

MANITOBA AND BRITISH COLUMBIA.

With the building season at its height in Manitoba and the North-West Territories the market for B. C. shingles has at last assumed a prosperous condition. The mills, for the first time during the past six months, are being run at their fullest capacity. Despite a general lull in the building trade in the Eastern and New England States these shingles continue to make headway in that market. Lumbermen are experiencing a fair improvement in the volumne of trade, the demand from the North-West being much larger with the partial exhaustion of the surplns stocks of the Washington mills. Foreign shipments continue small, Great Britain being overstocked, while the Australian market has sufficient stocks on hand to supply all demands for the next six months.

UNITED STATES.

But slight change has taken place in the condition of the trade during the week, although a universal cheerful tone seems to be prevalent with the expectation that matters will improve before long. Business has been slightly unsettled in the West on account of the packers' strike and other labor troubles, although these are partially offset by the decidedly favorable crop weather. There is a strong feeling that the limit has been reached in the way of weakness with the result that many wholesalers are displaying a tendency to hold what stocks they possess rather than dispose of them at less than a fair valuation, or what will produce a fair margin of profit. The hardwood trade continues the improvement of the preceding week, white pine however with the renewed activity in the box trade being considerably ahead of it. The furniture factories are beginning to buy more freely than heretofore, the demand for cyprus, spruce and hemlock being strongly to the front. Prices have been appreciably strengthened by the general curtailment of production both in the south and west, while a marked tendency to stop cutting is noticeable.

GREAT BRITAIN.

The past week has not heralded any improvement in the condition of the trade here, prices having had a tendency to droop. The business done seems to be more or less of a desultory character, but we are convinced that the reluctance to buy is attributable to the quietness of trade and to the absence of speculation among building contractors. The country has evidently not yet recovered from the results of the South African war, the population having developed extreme caution in their dealings, and until more cash accumulates there is very little likelihood of any improvement. Movements of both pine and spruce are quiet, the low prices of the preceeding week being maintained.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., July 30th, 1904.—The short lumber trade, both American and Provincial, is quite brisk. The demand is steady and somewhat sharper than was the case at this time last month.

American slab laths are worth from $2.15 to $2.20 per M, f.o.b. St. John. Stocks are low and as there are less being manufactured this year than has been the case for many years, they promise to be even scarcer.

Provincial laths are quite plentiful, and although none of the manufacturers are carrying heavy stocks, the chances are that that there will be no scarcity unless an unlooked for demand arises. They can be disposed of at from $1.85 to 1.95 per M. The weekly output of laths in St. John City alone is in the vicinity of 3,000,000. As some of the American millowners are sawing provincial logs, only about 800,000 American laths will be manufactured per week for the balance of the season.

Shipments of laths during June were rather light and for July mediumly heavy. According to all indications all receipts were absorbed by the markets in the New England States which showed no slackness in demand in consequence. The prospects unquestionably lead to the conclusion that laths will be higher but it is probable that the change will not take place before mid-Autumn. Inquiries during the last month have been more frequent and it is a well known fact that few dealers in the New England States have any quantity of any consequence in stock, but they will probably continue in this way until after the election.

Cedar shingles: There is little change in this line. Low grades are selling locally as fast as they can be produced and very few are left for export.

In Boston and vicinity trade is only moderately brisk. Lower prices are the rule this year in shingles as in other lines. It is hard to make any forecast, but the outlook for any immediate rise in price is not very bright. The feeling among the manufacturers and dealers in this vicinity is that the price has not touched the lowest point, but that it will be two months at least before anything more favourable to them can be expected.

American cedar shingles are worth, f.o.b. St. John: Extras, $2.90; clears, $2.45; 2nd clears, $1.90.; No. 1's, .95.

Stocks are very low except in extras and these are not sufficiently heavy to cause their owners any anxiety.

Freight rates to Boston on shingles are quoted freely at 22-½ cents per M, and to New York on laths at 65 cents per M.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

A large drive of saw logs belonging to McLachlin Bros., of Arnprior, Ont., is being boomed in Mud lake, to remain until next spring.

What the Wanted and For Sale Department of this paper will do for others, it will do for you. Try it when you wish to purchase or sell lumber.

It is estimated from different sources that about 850,000,000 feet of logs have been cut during the past winter for the Prairie markets of Manitoba and the North-West.

The sympathy of the lumber trade is extended to the members of the Elk Lumber & Manufacturing Company, of Fernie, B. C., whose entire cut of last season's logs, consisting of 2,000,000 feet was totally destroyed by fire last week. Our sympathy is also extended to Handy Manufacturing Company, of Bay City, Mich., who were unfortunate enough to lose by fire, on July 24th, 5,000,000 ft. of pine lumber, their total loss amounting to $80,000.

New Orleans, La.

THE LIVERPOOL MARKET.

The monthly report of business in all parts of the north of England continues very languid.

PITCH PINE.—There has been a large importation of pitch pine timber greatly in excess of the requirements of the market. 564,000 cubic feet entered the Mersey during June, 321,000 of which remained in Liverpool. The stock at the close of the month was 1,121,000 cubic feet with still further consignments at sea.

OAK.—The stocks of Canadian and American logs are far too heavy and as the prices asked are very high the consumption for the month was only one-third that of last year. Shippers are strongly advised to send nothing here but their very best lumber, as all inferior grades are simply given away at slaughter prices, the prevailing prices being as low as 36 cents a foot, landed.

SPRUCE.—The position of New Brunswick and Nova Scotia spruce continues to steadily weaken owing to very large shipments and the fear that when the various companies in these provinces commence work upon the immense stock of logs now at hand there will be an excessive supply and a slump in prices will follow in the autumn.

UNITED STATES MANUFACTURERS AND WHOLESALERS

YOU CAN REACH THE BONSACK LUMBER CO. WHOLESALE HARDWOODS ST. LOUIS BY RAIL, MAIL WIRE OR 'PHONE

WANTED: Ash, Basswood and Elm
AND HAVE

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages | $1.00 PER YEAR | The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, AUGUST 10, 1904 No. 28

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

Valuable Lumber Business and Limits
For Sale by Tender

In order to wind up the lumber business carried on by the late John Maclaren at East Templeton, Que., the Executors of his Estate invite tenders for the purchase of the said business as a going concern, including the timber limits and licenses, plant, supplies, logs that have been left over on their way to the mills after this season's sawing, real estate, saw mills, lumber yard, wharves, etc.

Tenders to be in writing, and to be in the hands of the Executors at their head office at Brockville not later than the 12th of September next and to be addressed "The Executors of the Estate of the late John McLaren, Brockville, Ontario. Full particulars will be furnished intending purchasers on application to the Brockville office.

The highest or any tender will not necessarily be accepted.

Dated at Brockville the Fourth Day of August 1904.

EMMA MACLAREN
WM. C. MACLAREN
J. E. VALLILLEE
Executors of the Estate of the late John MacLaren.

CURRENT TRADE CONDITIONS.

ONTARIO.

Under the influence of a fair demand the lumber market has maintained a quiet though steady tone. Much prosperity is evidenced in the province, with the assurance of a good crop of grain, while the future is extremely promising in the building trade and various other departments of industry which all contribute largely to the advantage of the lumber trade, and which give promise of a good fall demand. The increasing competition of the American lumber is being utilized as a strong weapon in the hands of tariff reformers and it becomes increasingly evident that the government while opposed to any increase of duties, for purely protective purposes, will be compelled to yield to the pressure in the fall. Turning from local conditions it is regretable to note that there continues to be very little improvement in the British market, depression being the chief feature, while very few sales are made and practically none at all of square timber, except at ridiculous prices. This fact coupled with the unsatisfactory shipments to United States and the continued uncertainty of that market, has decided many operators upon a curtailment of the cut for the season just entered upon, and a reduction in the wages of their employees. Hardwoods are in steady demand, prices being firm and no concessions obtainable by purchasers.

QUEBEC AND NEW BRUNSWICK.

Reports coming from Quebec and New Brunswick give really no substantial signs that the spruce market is likely to become more active in the near future. There has been an excellent yard demand from the United States during the past week, but, as against this, the shipments to England have been exceptionally light, while with the low pressure on the market prices have not improved. However, their is little possibilty of them going any lower, while in the general course of events the probabilities are they will improve. One of the causes advanced for this continued depression in the export business is that Russian lumbermen, being unable to borrow from their home banks, have been obliged to realize on stocks of lumber at any price, the figures quoted making it impossible for Canadians to compete. At St. Johns, N.B., in view of the continued quietness of the trade the lumbermen are seriously considering the advisability of curtailing the output by closing their mills early in the fall unless an improvement should change the situation. The situation is further accentuated by the increase in stumpage and mileage dues imposed by the Government of New Brunswick, which, it is estimated, will create an increased expenditure of $83,000 out of the St. Johns lumbermen alone. Cedar shingles are selling freely, there being evidence of a stronger market, which was anticipated some time back, appearing in the fall.

UNITED STATES.

From almost every part of the country trade reports this week show hopeful signs of improvement, and while the volumne of trade is still unsatisfactory, there comes an occasional report of a dealer doing good business. In some grades prices are weak, but as a rule these low offerings usually emanate from overstocked mills or those in want of money. Just now there appears a better demand for hemlock on account of the scarcity of low grade pine, and it is noted that this class of lumber is gradually winning a place for itself in spite of all prejudices, upon its merits. With the assurance of a good crop in all sectionn of the country, it becomes increasingly evident that the demand for lumber will show considerable improvement in the fall. Building in the large cities continues heavy and gives promise of holding so until the close of the season. The export trade is still in an indifferent condition, although manufacturers predict that rock bottom prices have been reached and that the advent of early fall will see a resumption of the demand and an increase in prices. The hardwood trade remains active, although the supply has been up to requirements, prices being the same. Very little change has been evidenced within the past week in general lumber prices obtained, western pine remaining firm, cyprus slow of sale and prices easy.

GREAT BRITAIN.

The latest indications to hand of the economic barometer points to fair weather in the near future. It is pleasing to note the healthy condition of the cotton trade and the encouraging reports of improvements in iron and steel. In the lumber business the past week has not heralded any discernible advance, as the country is right in the middle of the holiday season when movements are usually slow. The arrivals though fairly large, have with few exceptions been less than at this time last year, while the demand continues quiet, with ample stocks on hand and consequent low values. Maritime province spruce imports have lately increased in quantity but with the already large stocks on hand there has been a further decline in values. Many buyers have been tempted in the market on account of this continued decline. Quebec spruce has given evidence of a distinct improvement a much better feeling prevailing than for some time past. In pine deals the demand is exceedingly quiet and sales difficult, although prices in the better grades are firm. Birch planks are in good demand, prices being a little better. While the anticipated revival is slow in coming and numbers of consignments remain unsold, it is confidently expected that the opening of the fall season will herald an advance in all branches of the trade.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., August 1, 1904.—A good demand for lumber and especially shingles at the present time improves conditions in the industry on the coast and particularly in the interior, though none of the causes which brought about the depression have been removed. All grades of shingles are being asked for from the Territories and a fair business is being done.

While 124 licences to cut timber have been issued during the past month, that is

hardly to be taken as an indication that the industry is thoroughly prosperous, according to the expression of one of the prominent operators. He points out that 97 of the licenses were issued for the interior where there is activity in timber just now. Of the twenty-seven issued to people on the coast, all were renewals except one, showing that the holders of limits are only saving their investments, and waiting for better times.

Still, one or two new enterprises are talked of, besides the re-opening of the Ross-McLaren mills at New Westminster by a company composed of San Francisco capitalists. Ontario people, represented by Mr. Cook of Algoma, have secured large limits in the interior, and are talking of starting a mill near Ymir, while a company dealing in cedar, and which has mills at Ballard, Wa., is purchasing limits on the west coast of Vancouver island, to manufacture cedar for export. Thomas McNaught, of Toronto, has also been in the province lately, and is very favorably impressed with the prospects. He has not expressed himself as to whether or not he will erect a mill, but it is not improbable as so many people from Ontario have become interested in British Columbia during the last year or two. Nearly all of the big lumbermen in the interior are either from Ontario or the Maritime Provinces, with a few from Minnesota and Michigan.

Lumbermen from Winnipeg west to the coast have organized under the Manufacturers' Lumber Company, with a capital of $500,000 under the provisions of the Manitoba Joint Stock Companies Act. The membership includes all of the prominent operators, and principally those of the Kootenays and the interior, with a few from the coast. There are already two Associations in British Columbia, many members of which have joined the company recently organized. It is understood that the B.C. Lumber & Shingle Manufacturers Association, of this city, and the Mountain Manufacturers' Association, of the interior, still retain their integrity, though the new company places all under one management.

Bush fires on the coast have subsided since the rain, though the warm weather which has again followed will likely restart them. The most destructive of them all was that which burnt $200,000 worth of logs, the whole season's cut of the Elk River Lumber Company, and seriously threatened the town of Fernie, a week ago. This company is composed of Minnesota people. Two or three of the mills on the coast have also had narrow escapes from fire. Lumber in the yards of Mr. McLaren's mill at Barnet was discovered to be on fire the other night, but was extinguished with a loss of $700. Galbraith's sash and door factory, New Westminster, was also on fire, but was saved.

The loggers, who are praying for the removal of the export duty on logs saw the premier last week, but he asked them to wait until a full meeting of the executive was present. From the present attitude of the government, the loggers will remain bankrupt.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, AUGUST 17, 1904 No. 29

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

JUDICIAL SALE OF PROPERTY

Pursuant to an order of the High Court of Justice made in the administration action of Re Thomson, Bank of Montreal vs. Thomson, there will be offered for sale by J. E. O'Rielly, Esq. the Local Master, at his Chambers in the Court House at the City of Hamilton, at 11 o'clock in the forenoon on

Thursday, the 15th day of September, 1904,

Timber Limits Nos. 1369 and 1370 situate on Dodd Lake which empties into Malaspine Strait in British Columbia, said to contain 6608 acres.

The property will be sold subject to a reserve bid.

The purchasers of each parcel shall pay 10% of the purchase money at the time of sale to the Vendor's solicitors and the balance in 30 days thereafter into Court to the credit of this action without interest.

The Vendors will only be required to furnish such abstracts of title and title deeds or copies thereof or other evidences of title as are in their possession. In all other respects the terms and conditions of sale will be the standing conditions of this Court.

Further particulars may be had from Messrs. Bruce, Bruce & Counsell, Plaintiff's solicitors, Hamilton, Ont., Messrs. Washington & Beasley, defendant's solicitors, Hamilton, Ont., and C. Sweeney, Vancouver, B.C.

Dated this 30th day of June, 1904.

J. E. O'RIELLY,
Local Master at Hamilton.

WM. C. MacLAREN
J. E. VALLILLEE
Executors of the Estate of the late John MacLaren.

Log driving on the St. Mary's and Kootenay rivers, in British Columbia, came to an end last week. The Crow's Nest Pass Lumber Company have 5,000,000 feet in their booms at Wardner, and the Moyie Lumber Company have landed nearly 8,000,000 feet of logs in Moyie Lake.

CURRENT TRADE CONDITIONS.

ONTARIO.

Opinions as to the condition of the lumber market are not universally favorable. The stock of unsold lumber at the mills is no doubt larger than at the same time one year ago, and the movement at the present time does not indicate that the fall consumption will be unusually large. A good trade is promised in most of the cities, where building is active, but the purchasing power of the farming community may be curtailed by a depreciation in the grain yield. There is still a tendency on the part of manufacturers to shade some grades of lumber. Common white pine is holding its own, but all above that grade can usually be purchased at concessions from the prices ruling a month ago. Marked weakness is not anticipated, for the reason that, even if demand should be disappointing, the market will be held steady by the prevailing disposition to curtail the log production next winter. A meeting of lumbermen was recently held at Sudbury to consider the extent of the output and wages to be paid. Several operators stated that they purposed curtailing their output, one of them to the extent of 15,000,000 feet.

In hemlock the tone is stronger than in pine. Some manufacturers have advanced the price of inch stock fifty cents. Hardwoods are moving only moderately, but as the stock is not large there should be no difficulty in marketing it.

QUEBEC AND NEW BRUNSWICK.

Nothing has transpired during the past week to cause increased activity in spruce lumber, orders continuing of a hand-to mouth character. However, the probability that the corporation drive of logs on the St. John river may be hung up has created a better feeling among holders of lumber. The contractor is meeting with much difficulty and is said to be desirous of abandoning the logs. At the annual sale of unmarked and mixed logs of the Fredericton Boom Company held last week, the prices realized were high when compared with the price of deals. Spruce brought $11.10 per thousand feet, pine $7, cedar $6.90, and hemlock $3.75. The outlook for New Brunswick cedar shingles is still discouraging, as there seems to be a considerable quantity offering at the prevailing low prices.

UNITED STATES.

Yellow pine lumber shows a pronounced improvement, the curtailment of production having caused a revival of demand and an advance in prices. Dealers realize that the market is hardening and that the likelihood is that there will be a further advance as soon as the fall movement commences. This improvement has been reflected in white pine, which is showing a little more activity. It is claimed that the stock of white pine lumber at the mill is exceptionally light, and with the guarantee that there will be no accumulation, the natural tendency of price is to harden. This is particularly true in respect to the lower grades, any sluggishness which prevails being confined to the better qualities. There is still a liberal demand for box lumber and prices promise to be strong throughout the fall months. Hemlock prices at Buffalo are reported stronger than they were, influenced by the prospect of a light cut for next season. Random cargoes of spruce are easier, while ordered cargoes are practically at the same level. There is no increase in the consumption of hardwoods, trade generally being backward. House finish is responsible for a considerable demand for such lumber as is suitable for that purpose. Birch and ash are among the leaders in the general demand, but in all departments there is room for improvement. Lath and shingle prices have been sustained.

GREAT BRITAIN.

Although some confidence is expressed in a stronger market, the transactions which are taking place bear little evidence of an early improvement. The stocks are still too heavy for the good of the trade and many holders are showing increased anxiety to close contracts. Even pine deals have been imported in excess of the consumption, with the result that the supply at the leading ports is larger than one month ago. The Liverpool stock is 12,080 standards as compared with 9,430 standards at corresponding time last year and 11,170 standards in 1902. New Brunswick and Nova Scotia spruce deals are held in stock to the extent of 11,240 standards, which is not an excessive quantity when compared with 10,890 standards in 1903 and 15,640 standards in 1902. Broad first quality pine deals are worth about $160 per standard; 11 inch, $145; second quality pine deals, 11 inches and up $85 per standard; third quality pine deals, 11 inches and up, $60. Red pine deals bring about $50 per standard for 9 and 11 inch and $40 for narrows. Waney and square pine and elm are considered good property, as it is expected that the supply will be inadequate to meet the demand. Oak is quiet and is giving holders some concern.

STOCKS AND PRICES.

The steamer Stentor has loaded 175,000 feet of lumber at Sayward's mill, Victoria, B.C., for Hong Kong.

The St. Catharines Wood & Lumber Company are operating in the vicinity of North Bay, Ont., getting out pulp wood.

The official report shows that 37,000,000 feet of lumber was used in the vicinity of Calgary, N.W.T., during the year ending June 30th, 1904. 20,000,000 feet was brought in from British Columbia and the balance was manufactured locally.

The annual sale of unmarked and mixed logs of the Fredericton Boom Company was held at the office of A. F. Randolph & Sons, Fredericton, N. B., on August 11, and was characterized by lively bidding and good prices. The purchasers were as follows: Hemlock, $3.75, Hilyard Bros.; cedar, $6.90, Hilyard Bros.; pine, $7.00, T. E. Babbitt & Sons; spruce, $11.10, (battens, 2-3 price), Chas. Miller.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to August 3rd, as furnished by the Supervisor of Cullers:

	1902 Cu. Ft.	1903 Cu. Ft.	1904 Cu. Ft.
Waney White Pine..	1,519,699	1,083,440	1,484,280
White Pine.....	297,570	188,920	148,160
Red Pine.....	59,947	34,000	2,900
Oak.....	505,742	494,040	187,840
Elm.....	527,884	364,080	200,680
Ash.....	68,438	50,760	14,160
Butternut.....			40
Birch and Maple....	90,410	189,560	114,680

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

OTTAWA, AUG. 10th, 1904.—At no time during the past year was the lumber business so slack as it is at present. Shipments by rail and water alike have fallen off. The British market is receiving little or nothing, and the movement of stuff to the States is no better.

In the face of this depression, however, prices hold firm, manufacturers evidently having confidence in the future. Of course, the firmness of the Ottawa market is in a large measure due to the fact that most of the stuff being turned out at the mills changed bands some time back at the advanced prices. Thus the manufacturers need no concern, while the dealers are determined to get their own out of their lumber.

In a month's time most of the present season's cut will be on the market, and the increase in purchasable stock may have a depressing effect on prices, unless business picks up.

Discussing market conditions in the Ottawa district to-day a local lumberman said: "Prices are firm and ready stocks light. The market may be expected to right itself. If a man had lumber which he desired to realize on immediately, he would probably have to shave prices some to find a purchaser, otherwise there would be no decline. The stock is needed and no one is going to sacrifice it."

In some circles it is believed that lumber will not shake off the present lethagry until the steel and iron commodities in the States brighten up. The textile strikes in the New England States and the latest builders' strike in New York City are viewed with considerable apprehension in Ottawa lumber circles, as interfering elements in business.

The writer, while in Pembroke a few days ago, made enquiries in lumber circles. The outlook up the line is not considered any too rosy and it is even thought that there will be a drug of stuff on the market this fall.

The movement of the logs on the Ottawa river is causing all kinds of discussion these days. Reference was made lately to the breaking of the Des Joachim boom above Pembroke, whereby over 300,000 logs and pieces of pulpwood were liberated. To prevent a recurrence of the break, a temporary boom was placed the entire width of the river about twenty miles farther up at a point known as Rock Captaine. The logs, pulpwood, etc., jammed up behind it for a distance of four miles. The temporary boom went smash and the logs and pulpwood, variously estimated at from 700,000 to 1,000,000, were liberated. The river for twenty miles is full of the stuff and fears are entertained for the safety of the Des Joachim boom. Officers of the Upper Ottawa Improvement Company in charge of the handling of the logs state that the work is being done as well as can be expected considering the unprecedented high water and record rush of logs.

The sudden death of Mr. Alex. Lumsden, ex M.L.A., was a serious loss to the lumbering and other interests of the Temiskaming district, and in fact the whole Ottawa country, including the city itself. Mr. Lumsden's mills and limits in the Temiskaming country were estimated to be worth over a million dollars. Until a couple of years ago he had charge of all the log driving on the Temiskaming.

A curtailment in the log cut may be looked for in the Ottawa as in other districts this coming fall and winter. The depression in the British market and the seeming uncertainty of the American market have prompted a curtailment on the part of some operators. The free movement of logs this summer also makes it unnecessary to cut so extensively. The production of square timber, on account of the slackness of the English market, will also show a marked decrease.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, AUGUST 24, 1904 No. 30

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

BOX SHOOKS.

LONDON HOUSE HAVING INTIMATE connections with the largest buyers throughout England, desires to make commission sales. First class sellers. Please write. "SHOOKS," 4 Dashwood House, London, E. C., England.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber demand is lacking in snap and in some of the upper grades of pine prices are weaker. Unfortunately, the season has been very unfavorable for fall wheat, and the yield throughout the province is little more than half that of last year. However, this is partially offset by the higher price of wheat as compared with one year ago, although it is doubtful that the present price will be maintained. The strike of builders' laborers in Toronto has curtailed the demand for lumber in that city, as retail dealers will not increase their stocks while uncertainty exists in respect to building operations. There is a very noticeable disposition on the part of operators to curtail the log production the coming season. Two of the largest firms in the Ottawa district are reported to have decided not to operate this winter, and their withdrawal will mean a large reduction in the log crop. Very few firms will operate in square timber, as the low prices of the past season have wiped out any profit in the business.

Soft elm leads the hardwoods in point of demand. Birch is holding its own, but basswood has been showing signs of weakness. Prices of other hardwoods are about steady.

The shingle market is most irregular, influenced by a sharp decline in the prices of B. C. shingles. For Ontario delivery xxxx B.C. cedar shingles are quoted at $2.90, and xxx at $2.70. These quotations, however, cannot be taken strictly as the market price, for several of the smaller manufacturers have cut 10 cents below these figures. White pine and white cedar shingles have sympathized and lower prices are the rule. Lath are also slightly weaker, 1½ inch No. 1 white pine being quoted at $3 for Toronto delivery.

MANITOBA AND BRITISH COLUMBIA.

Harvesting operations in Manitoba and the North-West Territories are about to commence, and great interest is shown by all classes of business men in the prospective crop. It seems likely that the yield of wheat will be larger than last year, although reports indicate considerable damage by rust. During the harvesting period the retail demand for lumber is likely to be light, but this should be followed by an active Fall trade. Prices of lumber are about steady, with importations from the United States still being sold below the average market price. The interior mills of British Columbia are making considerable shipments eastward, and the export mills are comparatively busy, foreign shipments this year up to July 30th comprising thirty-seven cargoes. There is no improvement in the logging market and several of the largest camps remain closed. Recent forest fires in British Columbia have destroyed much valuable standing timber.

UNITED STATES.

Lumber prices are practically unchanged as compared with those ruling last week. The advance in the price of yellow pine has been well maintained and it is believed that the curtailment policy which is being pursued will result in a further advance in that class of lumber. The curtailment during the month of July amounted to 144,137,107 feet, which cannot but have a sustaining influence upon prices. The consumption of lumber for building purposes continues fairly active, as is shown by the fact that during the month of July the building permits taken out in twenty-six of the leading cities represented a valuation of $35,000,000, as compared with $29,000,000 for the corresponding month of 1903. Numerous orders for rush shipments indicate that retail stocks are light. Box and cull pine promises to continue scarce and any revival in the general trade would doubtless be followed by an advance in the prices of these grades. The Eastern States market is seasonably quiet, but even in this section the lower grades are scarce and strong in price. Norway and hemlock bill stuff are in good demand, such timber being able to compete successfully with southern pine. In hardwoods, elm, birch, and ash are doing better. Soft elm is scarce and selling at good prices. The supply is limited and we would not be surprised to see considerably higher prices for this class of lumber before the close of the year. Plain white and red oak are also scarce.

GREAT BRITAIN.

Notwithstanding fine weather in Great Britain during the past month, the consumption of lumber has not increased to any extent, and the outlook is somewhat disappointing. The disposition of buyers continues to be to place orders only when they know where they can dispose of the stock, which clearly indicates that there is not much confidence in the future. The depression has prevailed so long that some importers are looking for a reaction in the Fall, but at the present time signs in that direction are lacking. While the general lumber market is weak, it is refreshing to learn that Canadian pine and spruce are holding steady, no doubt due in some measure to light imports. From Manchester comes the report that there is an upward tendency in prices of spruce deals, some importers having recently advanced their quotations five shillings per standard. It is predicted that when the imports slacken off prices will further advance. There are large stocks of spruce deals on hand in Manchester and Liverpool, but it is said that the bulk of this class of lumber has now arrived. First quality pine and spruce deals have sold fairly well in a retail way, but the auction sale prices have not been satisfactory, prices realized being 10s. per standard under the value of the same lumber a few weeks ago.

STOCKS AND PRICES.

It is claimed that yellow pine lumber is now selling $1.50 a thousand higher than in did in June.

Jobbers of cooperage stock at Buffalo quote first-class dry elm flour barrel staves at $10.25 to $10.75; first-class basswood heading, 7½ to 8 cents; coiled hoops, $9 to $9.50 for 5½ foot, and $9.50 to $10 for 6-foot.

At an auction sale held by Foy, Morgan & Company, London, England, on August 10th, spruce deals brought the following prices: Ex Holmlea, from Montreal, 10-16 feet 3 × 9 in. second quality, £9 per standard; 10-14 ft. 3 × 7-8 in., £7 10s.; 11-14 ft. 3 × 9 in. third quality, £8 15s.; 11-14 ft. 3 × 7-8, £7 5s.; 11-14 ft. 3 × 9-11 in. fourth quality, £7 5s.; 10-16 ft. 3 × 9 in. second quality, £9; 10-16 ft. 3 × 9 in. third quality, £8 10s. Ex Mount Temple, from Montreal, 16 ft. 3 × 9 in. second quality, £8 15s.; 10-15 ft. 3 × 9, £8 10s.; 10-16 ft. 3 × 8-10, £7 5s.; 9-16 ft. 3 × 7, £7.

TO HOLDERS OF BIRCH LIMITS

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

BUSINESS NOTES.

F. Fulmer & Company, lumber operators, St. Martins, N. B., are announced to have made an assignment to E. B. Jones, F. Schofield and C. B. Lockhart, of St. John.

A meeting of the creditors of William Curry & Son, lumber dealers and planing mill operators, Windsor, N. S., was held in Halifax last week. The claims presented aggregated about $23,000. George H. Curry was appointed assignee, and an advisory board was named, consisting of Rufus Curry, W. M. Christie, and C. DeWolfe Smith, to consult with the assignee as to the disposition of the estate, which it is expected will yield about fifty cents on the dollar.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., August 15th, 1904.—The lumber trade in this vicinity has shown little variation since this time last month. All the mills are running at their full capacity and logs are plentiful. Shipping has been somewhat less brisk during August so far than was the case during July, and the result is apparent in the increasing stocks on the wharves, although the surplus is not yet so great as to cause any inconvenience.

Taken altogether, the outlook for English deals has not changed materially since last writing. The same indifference on the part of buyers, the same lack of stimulus generally, continues. Few orders are being booked and practically no contracts are being made. Careful enquiry leads to the conclusion that orders for September delivery are very small. Whether or not this condition of affairs will continue throughout the Autumn is a question, but the situation looks decidedly that way.

A specification containing the usual percentages of usual widths would be worth on wharf at St. John, from $11.00 to $11.50 per M s. ft, ⅔ price for fourths and ends.

Freights have shown no change from those mentioned last month, viz., 32s. 6d. to 35s. per standard to West Coast of England.

Provincial merchantable boards are plentiful and the demand is not at all brisk. They are worth, at St. John, from $9.75 to $9.85 per M. s ft. These are mostly disposed of in Boston and vicinity.

American deals are scarcer at this port than has been the case for many seasons, as most of the American manufacturers obtained their logs from Quebec and New Brunswick limits. The few that have American logs have been sawing only a few weeks and for this reason very little American lumber is available here as yet. To date the trade in this line has been quite brisk and prices good. Shipments from Maine have been very heavy and whether the market will hold its own or not during the next month is a question. While the dealers here are quite optimistic, the probabilities are that by mid-September prices will not be as firm as they have been.

American deals are usually shipped separately, in two classes, wides and narrows. A specification containing 20 per cent. 6s and 80 per cent. 8s would probably be worth from $13.00 to $13.50 per M s. ft. f.o.b. St. John, and a specification of wides containing say 25 per cent. 9s, 65 per cent. 10s and 10 per cent. 12s should bring from $15.00 to $15.50 per M.

As the American logs are small this year compared with other years past, the proportion of widths in the above specifications would probably be quite hard to obtain, and of course any increase in the percentage of narrow deals would mean a lower price.

Freight to New York from St. John are offering freely at $2.75 per M.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., August 15, 1904.—The saw mills are fairly busy just now, an improvement on the conditions which have existed all along this spring and summer. "If we have not trade at this time of the year when will we have?" is the interrogated way in which a well-known lumberman expressed himself this morning. "It is due, of course, not to any cessation of American importations, but to the increased demand from the Territories. There are a great many people settling there this year, and it is all bringing trade to our mills."

In the Kootenay district the industry is fairly active. There the manufacturers enjoy better rates, and just at present there is a number of mills projected. Timber is being taken up also. Thomas Mc-

Mills at RAT PORTAGE and RAINY RIVER, Ontario, WINNIPEG, Manitoba, and VANCOUVER, British Columbia. Head Office: RAT PORTAGE, Ontario.

Our Vancouver Mill cuts High-Grade Cedar, Fir, Spruce and Red Cedar Shingles. Correspondence solicited at all four points.

Naught, a lumberman of Toronto, has been looking over the timber resources of the province, but though he has stated he is impressed with their magnificence, he has made no statement in regard to the construction of a mill. A new mill on the Voilin lake limits, five miles from Rossland, is to be built by Mr. G. M. Annable, M.L.A., Moose Jaw, N.W.T., and his associates, Lindsay Fetterly and James McAnnaly, of Ottawa; J. L. Peacock, of Buffalo; H. M. Dodge, nephew of Senator Dodge, of Boston; W. P. Tierney and J. E. Annable, of Nelson; J. H. Schofield, Mayor of Trail; and G. L. Marry, a lumberman of Trail. There are 5,000 acres in the limits and the timber is especially fine.

Mr. Adam Hall, who is interested in the Big Bend Lumber Company, has been out inspecting the mill and plant.

Mr. G. M. Campbell, also of Ontario, a shareholder in the Pacific Coast Lumber Company, of this city, was in town this week. Mr. Otis Staples, of Stillwater, Minn., who is erecting a mill near Cranbrook, also passed through Vancouver last week. Mr. E. M. Ferris, of Traverse City,

Also Yellow Pine Finish and Timber.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.

New Orleans, La.

is locating limits back of Kamloops, on the upper North Thompson.

Mr. W. R. Beatty, formerly of Ontario, but now manager of the Arrowhead Lumber Company, when asked about the industry in British Columbia, said that the government could materially aid it by passing an order-in-council making the definition of imported rough lumber to be that which is as it has left the saw, and has not been touched by a planer. This was the intention of the law in the first place, but it has been interpreted to pass as rough lumber that which is planed on one side and is consequently partially dressed. Then if the American lumbermen still want the Canadian market, let them, said Mr. Beatty, put up their planer and dressing plants on this side the boundary line and employ their labor in this country.

Fires are doing great damage in all parts of the province. The summer has been long and warm, and since the first part of June there has been but two days' rain, which came together. That was after a month's dry weather, and a large number of fires were extinguished. Since then the weather has been again warm, especially in the interior, where it has been the hottest ever known, and as a result there are destructive fires burning from Vancouver island to the eastern boundary.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, AUGUST 31, 1904 No. 31

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

310 MCINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED

SITUATION WITH LUMBER COMPANY, as chief clerk or bookkeeper of woods operations, by an all-round man, Ontario Culler, good stock keeper, temperate and not afraid to work. Address BOX 160 CANADA LUMBERMAN, Toronto.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED — POSITION AS BOOKKEEPER or general office man by young man experienced in woods and manufacturing departments; has knowledge of stenography, also knows the mechanical work. Address with particulars, BOX 164, CANANDA LUMBERMAN.

POSITION WANTED.

BY A THOROUGHLY COMPETENT LUMBER Inspector, Log Scaler, and general office man. Seven years' experience with large lumbering and lumber manufacturing concern. None but employers reply. Write first to BOX 163, CANADA LUMBERMAN, Toronto, Ont.

$75,000

will buy a Timber Limit under the old license regulation, well located. Estimated twenty million of Pine, sixteen million feet of other kinds of timber, and at least twenty five thousand cords of pulp wood. For terms of particulars apply to BOX 154, CANADA LUMBERMAN, Toronto.

WANTED

CASH PRICES ON SPRUCE AND HEMLOCK yard sizes, delivered by boat and in car lots to New York points.

SOUTHERN PINE COMPANY,
Rooms 1014 & 1015, 42 Broadway,
New York City, N.Y.

TIMBER LIMIT FOR SALE

BERTH NO. 3 SITUATED ON THE SOUTH WEST corner of the township of Creelman comprising lots number 7, 8, 9, 10, 11 and 12 in the first, second and third concessions; good location, Vermillion river running through centre. For terms and particulars apply to W. RYAN, North Bay.

CURRENT TRADE CONDITIONS.

ONTARIO.

The close of the month of August finds conditions not altogether favorable to the lumber market. The building strike in Toronto, which is still unsettled, is having a depressing effect and is certain to cause a perceptible decrease in the consumption of lumber, as the season is now getting too late to commence work on large buildings in the hope of having them completed this year. The country demand does not show much activity, small orders for immediate requirement being the rule. Conservatism is to be noticed through ut the course of trade. Under these conditions prices are not likely to advance, but it may also be said that the indications of weakness are becoming fewer. There is an absence of pessimistic sentiment, for manufacturers recognize that they can control the situation by curtailing the production. One authority estimates the reduction in the Ottawa Valley log cut the coming winter at 25 per cent. The Georgian Bay production will also be curtailed.

Hardwoods for finishing purposes are meeting with a fair demand, but the implement and furniture factories are not buying as much stock as one year ago. It may be that they have been holding off

in the hope of a decline in prices, which has not yet materialized.

QUEBEC AND NEW BRUNSWICK.

Lumber manufacturers in the Eastern Provinces are not anticipating much improvement in market conditions this year. The usual lethargy attendant upon the summer season is in effect, and shipments to the Eastern States have fallen off. Prices of lumber for that market are a little easier. Very few shipments to Great Britain will be made during the balance of the season. The manufacturers in both New Brunswick and Nova Scotia have agreed to hold over their lumber rather than sell it at the prevailing low prices. It is recognized that a curtailment of logging operations would be very beneficial in restoring healthy conditions, and this policy is likely to be adopted by all the larger manufacturers. The St. John River output is likely to be reduced 50,000,000 feet, and a corresponding curtailment is anticipated in other districts.

UNITED STATES.

The white pine trade has been unsettled by sensational reports of damage to the wheat crop by unfavorable weather and by rust, the prediction being made that the combined winter and spring wheat yield would not exceed 500,000,000 bushels. Aside from the injury to wheat, however, the indications are that there will be an abundant harvest, as a very heavy crop of corn is promised, and what is equally as important, high prices are being obtained for nearly all farm products. There is not likely to be much activity in the market until after the presidential election, with the exception, of course, of that which is due to stocking up for fall and winter requirements. Pine lumber prices are about steady, with manufacturers feeling confident that the entire stock will be required. It is claimed that the stocks that will be left in the docks to carry over this year will be so small compared with former years, that the manufacturers will prefer to carry them over until next spring rather than sell at lower prices. Spruce lumber is slightly weaker, some random stock having been sold in the Boston market as low as $16 by the car. Hemlock is strongly held, and hardwoods are showing better tone. Plain sawed oak, ash, elm and birch are good sellers, while basswood is slow. The shingle market is in fairly good shape, prices now being low enough to warrant laying in a winter supply.

GREAT BRITAIN.

The reports that come to hand from Great Britain contain very little on which to base anticipation of an early improvement in the lumber market. The general trade of the country is in an unsatisfactory condition, as shown by the falling off in both imports and exports. Money is also tight, brought about no doubt by the large expenditure for the South African war. Lumber imports from most of the countries have this year been light, but the deficiency has been more than made good by the supplies from Russia, where shippers have been forced to realize on their stocks. The absence of demand for deals for export to South Africa has increased the depression in the lumber trade, broad sizes which in an ordinary year would have been shipped to that country having been forced upon unwilling British buyers. The demand for pine deals is very light and the poorer qualities are most difficult to place. Quebec pine deals, however, are not likely to recede much further, as they are largely in the hands of persons who are financially able to hold them. The spruce market is, if anything, lower than last week. A cargo from Shediac, N.B., is reported to have been sold a fortnight ago at £5 15s per standard c.i.f., which is the lowest point reached this year. At the late auction sales spruce prices showed no improvement, 3×11 inch second and third quality bringing £8 12s 6d and £7 5s respectively for Quebec shipments. Buyers are holding off in the expectation that there will be large consignments in the fall. Should this not prove to be the case, a recovery in prices may be expected.

STOCKS AND PRICES.

The corporation drive of logs on the St. John river has reached the booms at Fredericton, N.B.

Such general improvement has taken place in the lumber trade on the Coast that the Pacific Coast Lumber Manufacturers' Association, at its meeting held July 29, advanced the price $1 on all fir products. This action was the unanimous vote of all the members present. The advance is the first change that has taken place in the association list since Feb. 5, when a new list was adopted.

The Dalhousie Lumber Company, of Dalhousie, N. B., and Hilyard Bros., of St. John, N. B., have agreed to curtail their logging operations the coming winter by fifty per cent.

A sale of standing pine on Indian lands in the Pigeon river, Fon du Lac, Bois Fortes, Mississippi river, Leech lake and Winnibigoshish reservations will take place November 15th next at the land offices at Duluth, Minn. There will be offered 116,000 acres, estimated by the Government to contain 211,000,000 feet of white and norway pine. No bids for white pine will be received at less than $5 a thousand feet, and $4 for norway.

Messrs. S. P. Musson, Son & Company, under date of August 13th, furnish the following report of the Barbadoes lumber market: "There has not been any arrivals during the fortnight and the position of the lumber market remains virtually unchanged, as the consumption at this season is very limited. Small cargoes of both white pine and spruce would probably be worth in the neighborhood of $26 to $19 respectively, while for large lots prices would be lower. The market for shingles remains as last advised, there being no further arrivals to report, and stocks of Long Cedar having been somewhat reduced, fair prices will be obtained for next arrivals. Dimension are very scarce and immediate shipments would do well. Cedar Laying are in full stock and are not worth over $2 to $2.10."

The Department of Interior, Ottawa, will receive tenders up to Wednesday, September 21st, for a license to cut timber on Berth No. 1,170, situated in the district of Saskatchewan, on either side of Turtle Lake, containing 49 square miles, also up to Wednesday, September 28th, for a license to cut timber on Berth No. 1,171, containing an area of 50 square miles, including all the islands in Cormorant, Yawning Stone, White Water, and White Fish Lake, the remainder to be selected in district of Saskatchewan, N.W.T. The Department is also prepared to receive tenders for a license to cut timber on Berth No. 398, in the Province of British Columbia, about two miles west of Fraser River, containing an area of two and one-half square miles.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, SEPTEMBER 7, 1904 No. 32

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE — 42 ACRES HEAVILY TIMBERED; Elm, Ash, Blue Oak and Basswood. C. C. HUYCKE, Hastings, Ont.

SMOKE STACK WANTED, 40 OR 50 FEET of 24 inch stack, new or second hand, must be in first class condition; also small Lath Machine. Box 80, Providence Bay, Ont.

FOR SALE.

25 TO 30 M FEET 4/4 SOFT ELM, MILL run; 50 to 60 M feet 4/4 Soft Maple, common or better; 4 to 6 M feet 4/4 Black Ash, mill run. J. A. STEELE, Box 162, Humberstone, Ont.

FOR SALE.

Timber Limit in Canadian North-West

TEN MILLION FEET OF FIRST CLASS Spruce Timber in Manitoba; close to railway and farming community. A snap. Address Box 165, CANADA LUMBERMAN, Winnipeg, Man.

To Box Shook Manufacturers

A LONDON (ENGLAND) FIRM HAVING an extensive connection with users of large quantities of Spruce and Pine Shooks, wishes to hear from Canadian or American factories able to supply same by regular liners to Liverpool, Manchester, Glasgow, etc. Cash payments. Apply "BOX SHOOK," care CANADA LUMBERMAN, Toronto, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been some gain in the volume of business during the past week, buying by wholesale and retail dealers being responsible for more activity. Orders for stocking up purposes are expected to be more in evidence during the next few weeks. White pine prices are not likely to recede further, and there is a probability of some advance at least on such grades as are meeting with most favor. From the standpoint of the manufacturer, conditions are satisfactory. Unsold stocks at the mills are larger than one year ago, but there is a feeling of confidence that the demand will eventually absorb the supply, whether the lumber on hand is marketed this year or next year. Mill owners will conduct their logging operations this winter with a view to restricting the production of lumber next season, and mills that are being operated day and night this year will be stocked for day runs only next season.

There is promise of a fairly brisk fall trade in hardwoods. Buyers are showing more interest and are willing to take stock whenever the slightest inducement is offered. Manufacturers generally are adhering to the prices which have ruled for the past month, and, unless general business conditions take an unfavorable turn, hardwood prices are not likely to decline. Birch is still active and there is considerable call for plain oak.

QUEBEC AND NEW BRUNSWICK.

Some orders are being booked for spruce lumber for shipment to the Eastern

States, but British trade is exceptionally quiet and sales made for that market usually represent a loss to the shippers, as the manufacturer's profit has been entirely wiped out by the decline. It is not expected that much improvement will take place this year, although with a reduced log production better things may be expected next spring. Cedar shingles are still weak, there being a tendency to shade prices below $3.20 for the best brands for Boston delivery.

MANITOBA AND BRITISH COLUMBIA.

The wheat crop of the North-West is now estimated at 44,000,000 bushels, a shrinkage of 30 per cent. from the first estimate, and somewhat smaller than last year's production. The buying power of the farmer, however, will be almost as great, for the price of wheat is considerably higher than one year ago. The demand for lumber is a little quiet and prices still irregular. The Victoria branch of the British Columbia Lumber and Shingle Manufacturers' Association have given notice of a reduction of 10 per cent. in the price of all rough lumber, lath and shingles for delivery in Victoria and district. The general tendency of prices, however, is not downward, for it is learned that some of the largest manufacturers refuse to give concessions to buyers and are looking for an advance in prices at an early date. No improvement in the shingle situation can be reported. One or two small manufacturers are said to be finding difficulty in meeting their obligations.

UNITED STATES.

At the semi-annual meeting of the Mississippi Valley Lumbermen's Association held at Minneapolis, Minn., on August 30th, it was decided to make no change in the official price list adopted on June 15th. The secretary reported that there is a decrease in the percentage of dimension being sawed this season as compared with last year; that production at the head of the lakes will be 40 per cent. less than a year ago; that wholesale stocks in the hands of eastern lake jobbers are about half what they were last year; and that retail stocks everywhere are lighter than they have been for several seasons. These conditions are peculiar to white pine, but reflect in a measure the general lumber market. Yellow pine and Pacific Coast lumber have strengthened and have recovered part of the decline which took place earlier in the year. The demand from yard dealers is expanding and orders are usually accompanied by a request for immediate shipment. Manufacturers are holding prices firmly, but some wholesalers are making concessions in order to encourage the demand. Hardwoods are showing more activity and it is believed that the volume of business for August compared favorably with the corresponding month for last year. The demand for birch, elm and maple continues good.

GREAT BRITAIN.

After weighing the different reports that come to hand from Great Britain, the conclusion is reached that there has been some improvement in market conditions during the past week. Business is still far from satisfactory, but more orders are being placed at sellers' figures than previously. Many importers, having bought but a small proportion of their requirements and having relied upon large consignments to be secured almost at their own figures, are discovering that less lumber is offering than they anticipated, and they are therefore showing more disposition to buy than for some time past. First and second quality white pine is almost certain to remain firm, and there is not likely to be such heavy shipments of thirds and fourths as to affect the market perceptibly. The most substantial improvement, however, has been in spruce. Prices are said to have advanced fully five shillings per standard as compared with two weeks ago. The wise policy of the Canadian shippers in refraining from sending goods forward at an unfavorable time is no doubt largely responsible for the improvement. Two cargoes of St. John deals are reported to have been sold recently at £6 2s 6d per standard c. i. f. Liverpool.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

STOCKS AND PRICES.

The city of Winnipeg will award a contract this week for the supply of from 400,000 to 1,000,000 feet of lumber.

Curry & Thrasher, of Ferguson Falls, Ont., are preparing to commence operations on their timber limit near Deux Rivieres, Ont.

Vigars & Company, of Port Arthur, Ont., have just finished cutting 1,000,000 feet of cedar, which will be shipped to the Peterboro Canoe Company, Peterboro, Ont.

E. H. Heaps & Company, of Cedar Cove, B. C., recently purchased 500,000 feet of spruce logs from the Port Renfrew Lumber Company. The logs were towed from Renfrew to Vancouver, a distance of 140 miles.

At a recent auction sale held by A. F. & D. Mackay, Liverpool, Eng., 27 birch ogs, 8 to 22 feet long, 14 to 22 inches, sold at 14d per cubic foot. Spruce deals from Hopewell Cape, N. B., brought £7 12 6d for 3 x 11 inch, £7 5s for 3 x 9 inch, and £6 for 3 x 7 inch. Spruce scantlings brought £5 17s 6d for 3 x 6 inch, 9 feet and up, and £5 5s for 2 to 4 inch. Spruce boards sold at from £5 12s 6d to £5 15s.

The Scott Lumber Company, of Fredericton, N. B., last week cleared a tramp steamer from St. John to Bristol, Eng., with a cargo of 1,800,000 feet of spruce deals. This makes the third cargo forwarded by them to Great Britain this season. This firm were recently notified that the schooner Romeo, bound for New Rochelle, N. Y., with a cargo of lumber loaded by them, lost her deck-load in the Bay of Fundy. The cargo was insured.

We are informed by the Montreal Lumber Company, Limited, that they have been given an order for all the lumber to be used in the construction of the plant now being erected at St. Johns, Que., by James Stewart & Company, of New York, for the Singer Manufacturing Company. The approximate quantity is 1,500,000 feet, representing a value of nearly $40,000. When we consider that the buildings are practically fireproof construction and that the lumber is required only for floors and roofing, some idea may be obtained of the extent of the proposed buildings.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN)

VANCOUVER, B.C., August 29th, 1904. —If the Finance Minister would come to the Pacific coast, and observe the condition of the lumber industry, the same as Hon. Mr. Prefontaine did the fishing industry, and take as decisive steps to place it on a better footing, it would be the only proper thing to do. "I came out to see for myself," said Mr. Prefontaine, and as the result of what he saw he took immediate action which will result in benefit to the salmon fishing industry. Ministers who live three thousand miles away from the scene of the British Columbia lumber industry cannot understand the conditions under which it labors, and if Hon. Mr. Fielding saw for himself he would not be slow in taking some action to preserve Canada for the Canadians.

The Railway Commission may bring some re ief. The sessions open here this morning, and before they are all over the lumbermen are going to appear before it, and ask if they cannot have better rates on lumber, seeing that the Government will not assist them with an equitable adjustment of the tariff. The rate for cedar to points east of the western boundary of Manitoba is fifty cents, and the millmen

wish a reduction to 40 cents. The C.P.R. denies this concession on the ground that it is competitive territory with the American roads. Thus British Columbian lumbermen are prevented from shipping cedar into Manitoba. Everything seems to help the United States as against Canada. Mr. H. W. D. Miller, manager of the transportation department of the Canadian Manufacturers' Association, is in the city, and has also visited Victoria. He is collecting information bearing on the rates for lumber shipped to eastern parts of Canada by millmen of the Pacific coast, and this will be presented to the Railway Commission. On Saturday Mr. Miller conferred with the freight rates committee of the Board of Trade and the lumbermen. He pronounced the discrimination against coast mills as unjustifiable and unwarrantable.

Considerable rain fell yesterday and loggers particularly and millmen generally are wishing it was sufficient to check if not extinguish the fires which have been doing so much damage among the timber during the past month. This is the second rain since the first part of June, and during the last month and a half thousands of dollars' worth of timber has been destroyed, besides a number of logging camps. The fires have not been confined to any particular section, but ranged from the timber limits in Alberta to the coast, and on Vancouver island. The whole province has been enveloped in smoke for weeks past, just like a heavy fog.

There is some talk of the stiffening of the price of lumber, but millmen say they cannot see how it will be done. It is now getting on toward the end of the season, and when the demand begins to slacken is hardly the time for prices to go up. Besides there is product in the yards which has been piling up since the slump last spring, and Americans in Washington state have not yet got rid of all their surplus cut. It may stiffen on the Sound, since the export of rough lumber into the Canadian market has preserved the market in the United States from demoralization, to the detriment of Canadian interests.

There is a report that capitalists of Duluth, Minn., have secured 40,000 acres of timber limits on the Duncan river in the Kootenay and will erect a mill of 150,000 feet daily capacity at Procter, near Nelson.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., August 31st, 1904.—The lumber trade in this vicinity is rather more dull than it was during July. The output has not decreased but shipments are somewhat lighter and demand has shown no increased activity. Some large contracts which were held over from last year have now been completed and shipped and many of the wharves are beginning to show greatly increased stocks. It is a well-known fact that many of the manufacturers are expecting an early shut-down, and the probabilities are that New Brunswick will see a duller Autumn in the lumber business than has been the case for many years.

White and Red Pine Lumber, Lath, Shingles, Sash, Doors, Turned and Band Saw Work

Dealers in CEDAR POSTS, POLES and TAMARAC PILING

Mills at RAT PORTAGE and RAINY RIVER, Ontario, WINNIPEG, Manitoba, and VANCOUVER, British Columbia. Head Office: RAT PORTAGE, Ontario

Our Vancouver Mill cuts High-Grade Cedar, Fir, Spruce and Red Cedar Shingles. Correspondence solicited at all four points.

Owing to extremely low water in the St. John River the local manufacturers have had great difficulty in keeping their mills in cut, and the result will be that most of them will winter many millions of feet. As a result of these conditions, it is very improbable that logs will exceed in price the low figures of last spring and the chances are that there will be less cut on the headwaters of the St. John, by 25 per cent., than was the case last winter.

During the last two months there have been several large cargoes shipped from this port to Australia. The Australian market will take only dry lumber, consisting of three qualities, first, second and third merchantable (no fourths), and of an average second, that is, as much first as third and vice-versa. The usual sizes are 6s, 8s, 7s, 9s, and 11s and wides, but the general run of shipments contain very few narrows, consisting chiefly of nine inch and up. The price of a consignment such as this at Melbourne Wharf would be

Also Yellow Pine Finish and Timber.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.

New Orleans, La.

from £9 10s. to £9 15s. per standard. Of course, the price is dependent greatly upon the quality of the lumber and the quality of manufacture, and varies accordingly. The above figures apply to lumber of good manufacture and quality.

Freight rates are being freely quoted at from 52½s to 57½s to Melbourne wharf Nearly all shipments are made by sailers. Insurance rates range from 2¾ per cent. to 3½ per cent., depending largely upon the condition of the ship.

Compared to last year the shipments to Australia from the Atlantic Coast have been larger than for years past, owing chiefly to the depression that governs the home markets. Of late there has been no important change in price. Compared with 1903 the conditions are slightly more favorable this year to the seller.

It is felt in lumber circles here that this market will be firmer in the near future. The demand for the right article is very brisk and trade seems to be unaffected by the dullness of the British market.

The planing mill of Frazer, Hamilton & Cox, Ottawa, Ont., was damaged by fire recently to the extent of $3,000.

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, SEPTEMBER 14, 1904 No. 33

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Dealers are booking a considerable number of orders for small lots of lumber and seem to be satisfied with the condition of trade, although it can hardly be said that the fall movement has as yet commenced with full vigor. Holders of lumber appear to have no apprehension as to their ability to dispose of their stocks at satisfactory prices, consequently there is no pronounced pressure on the market. White pine, however, is showing an uneven tendency. Export grades and No. 3 cuts and better have weakened slightly, the common grades remain stationary, while box lumber, mill cull sidings, and dead culls are slightly stiffer from the standpoint of manufacturer's prices. It is not anticipated that prices as a whole will materially change during the next few weeks, and it is almost certain that there will be no further decline. There is a very liberal demand for hemlock at firmer prices. Inch stock is unchanged, but many manufacturers are holding their two inch at an advance of from 50 cents to one dollar. The sizes 2 × 6 and 8 inch, 12 to 20 feet, are showing the most strength. Shingles are steady, while lath prices are a little weaker. No. 2 spruce and hemlock lath are off about 20 cents, and now sell at the mills at $1.60.

QUEBEC AND NEW BRUNSWICK.

As there is very little activity in lumber shipping circles in the Eastern Provinces, the demand being unusually light, interest is centered on logging operations. In this connection a peculiar situation has arisen. The operators decided to restrict the output of logs by at least 40 per cent., and unless they can secure the necessary help at what they consider reasonable wages, it is quite possible that the production may be still further curtailed. The wages paid last winter were from $28 to $32 per month, and the men are asking $28 this season. Many of the operators are refusing to pay more than $20 per month, and unless they can secure a sufficient number of men at this rate, they will restrict their production accordingly. The general opinion is that while spruce lumber prices have reached bottom, the improvement is likely to be slow. United States shipments have increased of late at unchanged prices. New Brunswick shingles are still dull and weak.

MANITOBA AND BRITISH COLUMBIA.

Moderate activity characierizes the lumber trade of Manitoba, the Territories and British Columbia. The outlook for the wheat crop induced some stocking up on the part of dealers a few weeks ago, but

the unfavorable reports regarding damage by rust and frost which have been made public during the past week have caused dealers to assume a more conservative attitude. Competition from United States lumber is not quite as severe as in the midsummer season, due to an improved demand in that market. Nevertheless, the American shippers have cut fully $2 per thousand below the home manufacturers and are still selling lumber below the actual cost of production. The present outlook is for an average volume of business during the fall months, but without much improvement in prices.

UNITED STATES.

Any change in the United States lumber demand has been in the direction of an improvement. In the wheat producing districts the volume of business has fallen off on account of the probable shortage in the yield of that cereal, but in all other sections of the country there has been an increase in the call for lumber. This has not resulted in higher prices, although one or two lines have advanced slightly. In the Lake Superior district No. 1 common boards in white pine are in very light supply and box lumber is none too plentiful. In the Chicago market No. 1 boards are scarce and strong in price, box grades are limited in supply, and No. 2 and 3 boards, though more plentiful than some other grades, are selling well. Buffalo and Tonawanda dealers report that sales of white pine are increasing and a sharp revival in demand is anticipated upon the settlement of the labor difficulties in New York, which is expected at an early date.

Better reports come to hand concerning hardwoods, which have been quiet for the past few months. There are signs of an active fall demand, as the large building operations under way in the cities will mean a large consumption of hardwoods for interior work. Plain sawed oak is much in favor, followed by ash, elm and birch. Basswood is not showing much life, but as stocks are not large prices have been well maintained. White pine lath sell readily. In Chicago the market price for No. 1 is $3.10 to $3.25.

GREAT BRITAIN.

The improvement in the British lumber market mentioned in our last report has been maintained, but the fear of consignments is still causing some anxiety. Up to the present time very little Canadian lumber has been received on consignment, and as there is a stiffer tendency in respect to Atlantic freights it is not likely that the market will suffer much from this cause. The light import of Canadian pine has been very beneficial, and has prevented prices from breaking. The volume of lumber offering is falling off and with a fair demand buyers are showing more disposition to secure cargoes. Prices of pine and elm timber are stronger. A considerable quantity of elm of good quality has recently changed hands at advanced prices. There has also been more inquiry for birch planks and shippers are asking higher prices than previously accepted. At Liverpool the prevailing price is from 10d. to 11d. per cubic foot.

STOCKS AND PRICES.

Rhodes, Curry & Company, of Amherst, N.S, last week imported from the United States 100,000 feet of oak lumber per schooner Greta, and 70,000 feet of oak timber per schooner Oriole.

The Brodhagen Lumber Company offered for sale at Burk's Falls, Ont., last week, 44½ square miles of timber limits in Chapman township. The highest bid received was $1,600 and the limits were withdrawn.

The Scott Lumber Company have closed down their saw mill at Magaguadavic, N. B., for the season, having decided to hold over until next year about 5,000,000 feet of logs which they have at Magaguadavic Lake. Their Victoria mill at Fredericton, N. B., will be operated until about the middle of November.

The water in the St. John river rose very unexpectedly last week, breaking away the booms between Little Falls and Woodstock. The Scott Lumber Company, of Fredericton, had about 1,000,000 feet of logs carried away, and R.A. Estey lost 180 joints of cedar. At Van Buren, Maine, the St. John Lumber Company is reported to have lost 5,000,000 feet of logs. Most of the logs will no doubt be recovered, but at considerable financial loss.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to September 7th, as reported by the Supervisor of Cullers:

	1902 Cu. Ft.	1903 Cu. Ft.	1904 Cu. Ft.
Waney White Pine..	1,591,600	1,420,040	1,738,880

Red Pine.....	60,080	52,560	10,080
Oak.....	527,760	772,960	235,520
Elm.....	561,800	407,800	254,120
Ash.....	79,240	54,320	14,640
Basswood		160	
Butternut.....			40
Tamarac		40	
Birch and Maple....	164,800	196,640	114,680

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells, in their last report, refer to Canadian lumber as follows:

DEALS, ETC.—Business has slightly improved during the month, though buyers are still unwilling to go in for big lines, contenting themselves with filling up their immediate requirements. Imports continue on a very moderate scale, and prices are practically unaltered. Current values are as under: Broad First Pine Deals—£32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22 to £24. Second Pine Deals—11-inch and up, £17 to £19; ends and non-dimensions, £13 to £14 10s. Third Pine Deals—11-inch and up, £11 to £14; ends and non-dimensions, £9 10s. to £10 10s. Red Pine Deals—9 and 11 inch, £10 to £11; narrows, £7 to £8 10s. First Pine Sidings and Strips—9 to 10 inch, £23 to £24; 11 to 12 inch, £25 to £26; 13 to 14 inch, £27 to £28. Spruce Deals—9-inch and up, £8 to £8 10s.; 7 and 8 inch, £6 15s. to £7 10s. Lower Port Spruce—9-inch and up, £7 10s. to £8; 7 and 8 inch, £6 5s. to £7.

WHITE PINE.—The import for this month amounts to 200 loads of waney pine. There has been a fair business done during the month, and the transactions must have amounted to 700 or 800 loads.

OAK.—There have been no imports during the month and no inquiries.

ELM.—There has been some enquiry for elm, and several transactions have taken place of good elm at advanced prices. Second class and soft wood continue to be pressed on the market, but are meeting with a very limited demand.

QUEBEC BIRCH.—The imports for the month consists of about 120 loads, a considerable proportion of which was sold on "ex quay" terms at from 14d. to 2s. per cubic foot, according to specification and quality.

N. B. BIRCH. — There have been no arrivals of logs, but a considerable quantity of plank came to hand, the bulk of which has gone into store.

ASH. — There has been no import of Quebec ash, and there is practically no enquiry. In United States ash the import is unusually light, consisting of about 50 loads, most of which has found its way into store.

SPRUCE DEALS.

The Timber Trades Journal, of London, Eng., in its issue of September 3, says: "The position of spruce deals from New Brunswick and Nova Scotia remains just as it was last week. We cannot trace amongst the merchants in this port any confirmation that the allegation that local buyers had advanced fully 5s. in their offers for cargoes without business resulting. And in point of fact, we decline to believe it until we are furnished with the facts upon which such assertions are based. The spruce market is, as we have said before, probably at its bottom, but there has not been any jump of 5s. or 7s. 6d. per standard so far as we can trace, and if any such offers were floating about we think we should have heard of such advances being made. The fact is there is a lot of fencing going about just now, and half truths are being told as if they were whole truths. We shall wait until we know of real transactions at £6 7s. 6d. to £6 10s. c.i.f. being made in the Liverpool or Manchester market. There is a steamer on the way here with a cargo from St. John, N.B., and when this is marketed we shall have a solid basis to work upon. A cargo has been sold by a Liverpool firm to the Bristol Channel at £6 2s. 6d. c.i.f. This does not look like any advance of 5s. to 7s. 6d. per standard."

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.

New Orleans, La.

BUSINESS NOTES.

S. .E Adam, general merchant and lumberman, Disraeli, Que., is reported to have assigned to V. E. Paradis.

George H. Curry, assignee, is asking for tenders by September 19th for the purchase of the planing mill and other property belonging to the estate of William Curry & Son, Windsor, N. S.

A meeting will be held this week to appoint a curator for the estate of S. E. Adam, general store and lumber, D'Israeli.

The first meeting of the creditors of H. & G. Curwen & Company, lumber dealers, Liverpool, Eng., was held in Liverpool on Angust 30th, at which the official receiver stated that the statement would be somewhat complicated owing to there being assets and liabilities in Newfoundland. It seems that the company acquired a timber concession in Newfoundland, and that for this purpose a considerable sum was advanced to them by creditors. If it is found possible to realize satisfactorily on the assets, it is probable that the estate will show a small surplus.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, SEPTEMBER 21, 1904 No. 34

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED

WHITE ASH, ALL THICKNESSES. M. BRENNEN & SONS MFG. Co., Hamilton, Ont.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

The saw mill of the King Lumber Mills, Limited, at Cranbrook, B.C., is reported to have been destroyed by fire a few days ago.

CURRENT TRADE CONDITIONS.

ONTARIO.

During the past week there has not been any definite increase in lumber activity, and some dealers express dissatisfaction with the way in which the fall trade is opening up. It was thought that the decline in manufacturers' prices which occurred during the summer season would stimulate buying early in the fall, but so far this has not materialized to any extent, the number and volume of orders booked being considerably less than one year ago. Retail dealers are not buying with much snap, but appear to be relying upon the heavier stocks that are carried at the mills as an assurance that prices will not advance. In this they may be building upon false ground. A few buying orders from wholesalers would, in our opinion, cause a stiffening of prices, and after the Presidential election in the United States is over there may be a sharp recovery in the grades of white pine which have declined the most. The dealer who buys at present prices for his winter and early spring requirements is not likely to make much of a mistake. Local sentiment has improved on account of the settlement of the strike in the building trades, and there is likely to be an active demand for lumber for building purposes during the next two months, with the most enquiry for finishing material. Hardwoods are rather featureless but maintain their firmness. Another decline has taken place in the price of British Columbia shingles, which are now selling for Ontario delivery at $2.60 for XXX, $2.80 for XXXX and $3.10 for XXXXX. This is a decline of ten cents from the last quotations. White pine shingles are slightly easier in sympathy.

QUEBEC AND NEW BRUNSWICK.

We cannot report any improvement in the demand for spruce lumber. An occasional order is received for stock for shipment to the Eastern States, and South American specifications are in some demand, but otherwise the market is quiet. Clapboards are selling very slowly but have not weakened in price to any extent. The large mills at St. John have yet about three months for sawing operations, but it is likely that owing to the condition of the market the manufacturers will close down earlier than usual. There is a plentiful supply of lath, which are not in great request, and the expected advance in price has not yet taken place. New Brunswick cedar shingles are reviewed at some length in another column. The range of prices is quiet wide, with the lower grades showing more firmness than Extras.

MANITOBA AND BRITISH COLUMBIA.

The crop reports from Mantioba and the Territories have been more favorable during the past week and it is now reasonably certain that the yield will be up to the average. There is a disposition, nevertheless, to buy lumber only for immediate requirements. Many of the retail dealers are now carrying fairly heavy stocks, and as the farmers are not building at the present time, country trade is slow. In Winnipeg, however, the demand continues good and the tendency of prices is to stiffen. One of the Winnipeg dealers recently secured the contract for the lumber for the Eaton departmental store building, amounting in all to upwards of one and a half million feet. The British Columbia mills are not particularly busy, although there is a fair demand for fir and a slight improvement in the call for shingles. For XXX shingles, 6 x 2 inches, the present price is $2.25 for delivery throughout Manitoba and the North-West on a fifty cent freight rate. Current prices at the mills are : XXXXX, $1.70 ; XXXX, $1.50 ; XXX, $1.40.

UNITED STATES.

There is a fair movement of lumber throughout the United States, but conservatism still characterizes operations. The idea is still prevalent in the minds of some dealers that prices will go lower during the winter months, and for this reason stocking up has not been much in evidence. The manufacturers, however, are of the opinion that the fall and winter trade will be of a satisfactory volume, as it is well-known that the stocks of retail dealers throughout the North-Western and Eastern States are very low. Buying for immediate requirements is expected to represent an aggregate amount of business of considerable proportions. Stocks of unsold lumber at the head of the lake are getting low, and it is possible that the cut will be shipped closer to the saws than usual. Half of the lumber to be sawn between now and the close of the season is already sold for eastern shipments. The settlement of the packers' strike in Chicago has been followed by an increased demand for lumber. Building operations are active and there is a large consumption of common boards. While the demand for hardwoods is not particularly strong the condition of the market is satisfactory. Birch and oak are the leaders and the supply does not seem to be as plentiful as earlier in the season.

A scarcity of lath has developed in the Lake Superior district. Stocks seem to have faded away before it was fully realized and the demand is as strong as at any time during the summer. At the recent meeting of the Mississippi Valley Lumbermen's Association it was suggested that lath prices might be advanced, and while no change was made, the condition of supply and demand may bring about considerably higher prices in the near future.

GREAT BRITAIN.

The Board of Trade returns show that during the first eight months of this year there were imported into the United Kingdom 3,719,278 loads of sawn and plain lumber, a decrease of 173,189 loads as compared with the corresponding period in 1903. The import of Canadian lumber was 762,850 loads, as compared with 871,334 loads in the previous year. It will be seen, therefore, that two-thirds of the decrease in the lumber imports is due to lighter shipments from Canada. This explains in part why Canadian stock has not declined in price as much as the Baltic lumber. The stock on hand, while ample, is not excessive, and prices are about steady. There is still some fear, however, that the bottom has not yet been reached and there is little inclination to purchase in anticipation of an advance in prices this fall. While there has been some improvement of late, it has not been sufficiently marked to entirely restore confidence, and only a few who are willing to take heavy risks are buying in a speculative way. The latest transaction reported from Liverpool for spruce was on the basis of £6 2s. 6d. per standard c.i.f.

NEW BRUNSWICK CEDAR SHINGLES.

The volume of business in this line is fairly good but prices are decidedly unsatisfactory. Extras are being freely offered, f.o.b. Boston rate, all the way from $3.00 to $3.25 per M, with the bulk of the sales probably being made at $3.05 or $3.10. Clears are comparatively stiffer and range in quotations from $2.60 to $2.80. Second clears are in most excellent demand and we would call the market stiff at $2.25 to $2.35. Clear whites are quoted at from $2.00 to $2.25, with the bulk of the sales being made at $2.10 to $2.15. Extra No. 1's are mainly sold in the Provinces.

The New Brunswick manufacturers have generally small stocks on hand of extra No. 1's. The manufacturers in the Province of Quebec are not on the average so well cleaned up. While some mills are completely sold out, certain others have fairly long stocks. On the whole, however, we would say that the average stock of extra No. 1's was about the normal and that the fall demand will probably take care of this grade all right.

Our opinion in regard to the future is that the market will eventually adjust itself to the old-time difference in price as between extras and clears. In other words, the clears will shortly bring within 25 or 30 cents per M as much as extras. The stock of clears and second clears is likely to be cleaned up this fall and the probabilities are that the demand will considerably exceed the supply on these two grades.

In spite of the low prevailing prices on extras, and the rather apathetic demand for this grade, still we expect to see the manufacturers at the close of the season with reasonably bare yards.

There is no occasion for any further decline in price on any grades, as extras are now selling at Boston as low as the B. C. red cedar shingles. It may be tha after the Presidential election in the States is over the market will revive, but this may be questionable, and our opinion is that all manufacturers will consult their own interests by going into the woods this winter for a very small stock, and furthermore omitting the winter manufacture to a considerable extent, so as to give the market a chance to recover before spring.

For the average manufacturer there is no profit in shingles at present prices, and the only thing that can bring prices back to a profitable level will be a decided curtailment in the output by the manufacturers concerned.

The saw mill of A. A. Brown at Salisbury, N.B., was burned last week. There was a small insurance.

STOCKS AND PRICES.

P. G. Keyes, Secretary of the Department of Interior, Ottawa, will receive tenders up to October 12th for a license to cut timber on Berth No. 1,176, comprising Sections 21, 22, 23, 26, 27 and 28, in district of Saskatchewan, N.W.T.

Morris S. M. Long, wholesale lumber dealer, Hamilton, has secured the order for the lumber to be used in the construction of a large factory and warehouse for the Paris Plough Company, Paris, Ont. The order calls for 150,000 feet of pine and hemlock.

The Sprague Lumber Company, of Winnipeg, have secured the order to supply 1,500,000 feet of British Columbia fir lumber for the Eaton departmental store building now in course of construction in Winnipeg. There will be 12,000 pieces 3 x 14 and 18.

A dispatch from Fredericton, N.B., dated September 15th, says : "The corporation drive left Perth yesterday, and as the water above the city has risen considerably in consequence of the heavy rain, the logs are expected down very soon. Prominent lumbermen express the opinion that they will all be down in the course of a few days."

Messrs. S. P. Musson, Son & Company, of Barbadoes, write as follows under date of August 27th : "The fortnight has been quite barren of arrivals and the lumber market shows some signs of improvement. We have sold a cargo of white pine to arrive at $26 for merchantable and $20 for second quality, and we value next arrivals of this at about same prices. Spruce is in light stock, and although this is not the season when there is much enquiry for this class of lumber, yet a small cargo would probably do well. There has not been any arrival of shingles since our last. Long Cedar and Dimension shingles are wanted. Cedar Laying are in fair supply, but would probably realize in the neighborhood of $2 to $2.10 according to quality."

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., September 15, 1904.—The lumber trade has shown no great activity in this vicinity during the last month. Shipments from this port of all kinds of lumber have been very light. This means, of course, an increase in stocks, which are not yet, however, large enough to cause their owners any inconvenience or uneasiness. The market for short lumber has shown no improvement since last writing. Shipments during August and so far during September have been very light compared with the same period last year.

Laths are quite plentiful and promise to continue so. Sales are only fairly brisk and enquiries are fewer than they have been. It is generally felt by dealers here that a rise in price is about due, but the chances are that it will be late in the fall before any increase in demand will affect prices, owing to the stocks which must be got rid of. Provincial laths are worth at present about $1.85 per M, and American $2.15 per M, f.o.b. St. John. Freights to New York on laths are quoted at 65 cents per M.

Cedar shingles are moving quite briskly, although prices have shown weakness during the past two months. Stocks of high grades are only moderate, while the lower grades are practically cleaned up. It is generally felt by those interested that shingles have now reached the rock-bottom figure, and that the next change will certainly be in favor of the manufacturers. This expectation is based on the fact that shipments of shingles have been light and also that the supplies at the lumber yards throughout the Eastern States must be accordingly small. American cedar shingles are worth f.o.b. St. John: Extras, from $2.85 to $2.95; clears, $2.40 to $2.45; 2nd clears, $1.90; No. 1, 90 cents. Freight rates on shingles to Boston are quoted at 22½ cents per M.

Spruce boards are moving slowing. The demand for them is less than has been the case for several seasons past. They are plentiful at $9.75 to $10 for Provincial and $11.50 to $12 for American, all on wharf at St. John.

The outlook is now that large quantities of all kinds of lumber will be wintered at this port, and in some cases it may mean that a cessation of operations will be necessary before the winter sets in, owing to lack of wharf room. With one or two exceptions, the mills on the St. John usually close down about the middle of December, resuming again early in March, but, owing to the conditions mentioned above, the chances are that many mills in this vicinity will have ceased sawing by mid-November.

The barquentine Lovisa will load lumber at Weymouth, N.S., for Buenos Ayres or Rosaria at $9.

NOTES.

The saw mill of the Kamloops Saw Mills, Limited, Kamloops, B. C., was destroyed by fire on September 9th. The loss is estimated at $50,000, confined to the mill plant, 40,000 feet of dressed lumber and a few logs. The loss is mostly covered by insurance.

Andre Villani, lumber merchant, of Villaniville, Labelle county, Que., has made an assignment. The list of liabilities is an unusually large one, amounting to about $300,000. The estate consists of 200,000 logs in the Rouge river and other business operations in Montreal and different parts of the province. W. H. Walsh, of Montreal, has been appointed provisional guardian of the estate. A meeting of the creditors will be held about the 28th inst.

New Orleans, La.

A NEW COMPANY.

We are advised of the formation of the Export Lumber and Shingle Company, Limited, of Vancouver, B.C., to carry on business as wholesale dealers and shippers of British Columbia lumber products. The promoter of this company is Mr. H. H. Spicer, who recently retired from the management of Woods & Spicer, Limited, Vancouver. Mr. Spicer has had over fifteen years' experience in connection with the manufacture and sale of British Columbia lumber and shingles, and is particularly well informed as to the requirements of the lumber dealers in Canada and the United States. Customers may, therefore, feel assured that the company will intelligently supply their needs with such lumber products as are manufactured in British Columbia. The other incorporators and first directors are: Thomas Kirkpatrick, shingle manufacturer; J. W. Hackett, of Robertson & Hackett, lumber manufacturers; J. G. Scott, manager Pacific Coast Lumber Company; T. E. Atkins, president Red Cedar Lumber Company, all of Vancouver. Mr. Kirkpatrick is president and Mr. Spicer manager and secretary.

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, SEPTEMBER 28, 1904 No. 35

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

Rift Sawn, Planed and Butted. Six Grades. Write us for prices.

TTACADIE LUMBER CO.,
Sheila, N. B.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber is moving more briskly than last week. Dealers who have been running along for some time with light supplies are now stocking up to some extent, and invariably request that the lumber be shipped immediately. The need of the stock and the fear of an inadequate supply of cars for transportation are responsible for this urgency. The most activity is confined to the cities, where the requirement for building purposes is quite large. Common boards in pine are meeting with a ready sale, while hemlock in boards and dimension timber is in steady request. The general hardwood trade is showing more life under the lead of oak and birch. The former is slightly firmer in price, as the supply is by no means large. Basswood still lags, the substitution of other woods last year owing to its abnormal scarcity having affected the demand this season. Interior finishing stock is active, as buildings have now advanced to the point where they are ready for this work.

There is an enlarged demand for pine lath and higher prices are predicted. It is believed that the supply will not last until the mills resume operations next spring, as there is not a large stock at the mills in Ontario and a decided shortage has developed in the Lake Superior district.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber prices are being maintained, but trade is still on the quiet side. There is a fairly active movement of stock in a retail way in Montreal, where building operations are being pushed with some vigor. In the country districts, however, there is not much doing and stocks at the mills are accumulating. The supply of inch lumber in both spruce and hemlock is large and prices of this size are easier. There has been a further decline in the price of square and waney pine timber, the best price obtainable at Quebec for 19 to 20-inch waney being about 65 cents. Square birch is also a shade weaker.

UNITED STATES.

The lumber business in the United States is proceeding along very satisfactory lines. Business in July was better than in August, and September so far has shown a substantial improvement over last month. Evidence develops almost every day that stocks at the producing points are not large and are in strong hands, and there is little doubt as to the maintenance of prices. Wholesale dealers report an increased enquiry for white pine and a larger movement is looked for next month. Eastern retail dealers are finding that it is impossible to secure lumber by making an offer lower than the prices asked by the wholesalers, who in turn have been prevented from lowering their quotations owing to the firm attitude of the manufacturers. The box business is for the first time in many months showing signs of an unsettled condition, and consequently box lumber is not quite as firm as it was. Pennsylvania producers have advanced the base price of hemlock $1 per thousand to $16.50, but the basis at Buffalo continues at $15.50. The advance in the price of yellow pine lumber has been helpful to hemlock. Spruce prices are being well maintained; from the manufacturers' standpoint spruce has not looked so promising for some months as it does now, and as the mills will soon cease operating for the season, prices are not likely to be lower this year.

The demand for hardwood lumber is steadily expanding. Plain oak is said to be selling $2 per thousand higher than it did one month ago, with some doubt as to the ability of the manufacturers to meet the requirement. All other kinds are steady with the exception of basswood, which is being offered occasionally at lower prices. The Wisconsin Hardwood Lumbermen's Association have adopted a new price list which shows that there is the strongest confidence in the future and that prices are expected to be considerably higher before January.

GREAT BRITAIN.

Reports lately received of the British lumber market have a more optimistic hue than for some time past. There is undoubtedly a better feeling and more disposition to purchase, but the heavy stocks that are carried at many of the ports keep the trade in a depressed condition and prevent any marked recovery in prices. These stocks have accumulated during the past year, when the consumption of lumber was unusually light. For the thirty-six weeks ending September 10th, this year's consumption of deals, etc., at London is some ten thousands standards less than for the corresponding period of 1903. There is still slight danger of further weakness as a result of consignment cargoes, but if no large quantity of stock is forced upon the market in this way, the near future should witness some improvement both in demand and prices. The feeling is gaining ground even among importers that prices have seen their worst. The Timber News states that spruce deals are decidedly firmer and that there is a distinct advance in values. The volume offering is less than usual at this season of the year and there are no indications so far of an excessive supply. Birch planks continue to be asked for, and as the supply is smaller than usual, prices will probably be fully maintained. Birch logs are not in much demand. Hemlock is readily saleable, but shippers have restricted their output and will not now take orders at the figures which have prevailed.

STOCKS AND PRICES.

The Forster Lumber Company is reported to have purchased the output of the McRae Company's mill at Hosmer, B.C.

The W. & A. McArthur Company, of Little Current, Ont., will take out about 20,000,000 feet of logs during the coming winter.

At St. John, N.B., last week, about 1,000,000 feet of spruce logs belonging to the R. A. Estey Estate were sold to Henry Miller, of St. John, at $9.50 a thousand.

C. H. LaBillois, Commissioner of Public Works, Fredericton, N. B., is asking for tenders up to November 7th for the supply of lumber required for flooring the Marysville steel highway bridge.

The Scott Lumber Company, of Fredericton, N. B., have been notified that the schooner Annie Harper, loaded by them with lumber for the Boston market, has been wrecked in the Bay of Fundy. It is understood that the cargo was well insured.

The logs belonging to the St. John Lumber Company which broke away at Van Buren during the late freshet, are being rafted at the Mitchell boom at Fredericton, N.B., and will be towed to St. John. They are mostly small logs, averaging only about 1,200 feet to the joint.

The head of the corporation drive on the St. John river was at Bristol, N.B., on September 22nd. There is about 4,000,000 feet in the drive. Although operations at the booms are progressing satisfactorily, it is not believed that the work will be finished this fall, and about 10,000,000 feet of logs may have to be stored for the winter.

Messrs. S. P. Musson, Son & Company, in their report of September 10th, state: "There have been no arrivals in either white pine or spruce during the fortnight, but, as mentioned in our last, we placed a cargo of former for this month's shipment at $26 for shippers and $20 for second quality. In spruce two cargoes have been placed—one for September shipment at $22.50 and $18.50 for shippers and second quality, and one for October shipment at $21.50 and $16.50. There is not much enquiry for white pine just now, but spruce is inquired for, most of the dealers' yards being here, and we think a prompt arrival would do well. The only receipt of shingles to note is 65,000 Long Cedar by the steamer "Ocamo," which were sold at $5.66; both these and Dimension are wanted. The "Success" is looked for with principally Long, which should bring full prices. For Cedar Laying, of usual description, there is not much enquiry, but we understand some Clears and Second Clears have been placed for future delivery at $3.85 and $4 for the former, and $3.45 and $3.50 for the latter. We could not venture a higher valuation than $2.10 for the usual Laying, as dealers always have some."

WISCONSIN HARDWOOD PRICES.

The ninth annual meeting of the Wisconsin Hardwood Lumbermen's Association was held at Oshkosh, Wis., on September 20th. In discussing the price list, Mr. E. P. Arpin, chairman of the Price List Committee, stated that there did not seem to be any trouble in selling log run elm, 2 inch, at $24. No. 3 Common was in good demand and No. 2 was holding up well. A new list was adopted fixing the following prices f.o.b. Wausau freight rate, effective September 20th, 1904.

ASH.—1 inch long run (No. 3 Common out), $22; 1st and 2nd, 1 in., $33; 1 1/4 and 11/2 in., $35; 2 in., $36; 21/2 in. and thicker, $41. No. 1 Common, 1 in., $23; 1 1/4 and 1 1/2 in., $24; 2 in., $25; 2 1/2 in. and thicker, $27. No. 2 Common, 1 in., $12; 1 1/4 in. and thicker $13. No. 3 Common, $10.

BIRCH.—1 in. log run (No. 3 Common out), $20; 1st and 2nd, 1 in. (red out), $30; 1¼ and 1½ in., $32; 2 in., $34; 1 in. red, $40; 1¼ to 2 in. red, $42. No. 1 Common, 1 in. (red out), $19; 1¼ and 1½ in., $21; 2 in., $23; 1 in. red, $29; 1¼ to 2 in. red, $31.

BASSWOOD.—1st and 2nd, 1, 5, 11 in., 8 to 16 ft., $31; 12 in., $34; 13 in. and wider, $37; 1¼ and 1½ in., $34; 2 in., $36. No. 1 Common, 1, 5, 11 in., 8 to 16 ft., $21; 1¼ and 1½ in., $23; 2 in., 26. No. 2 Common, $15 to $16. Box Common, 1 in., $13.50.

SOFT ELM.—1 in. log run (No. 3 Common out), $20; 1¼ to 2 in. log run, $21. 1st and 2nd, 1 in, $29; 1¼ to 2 in., $31; 2½ in. and thicker, $34. No. 1 Common, 1 in., $19; 1¼ to 2 in., $21; 2½ in. and thicker, $24. No. 2 Common, $13. No. 3 Common, $10.

ROCK ELM.—1 in. long run, $18; 1¼ to 2 in. long run, $20. 1st and 2nd, 1 in., $30; 1¼ to 2 in., $32; 2½ in. and thicker, $36. No. 1 Common, 1 in., $18; 1¼ to 2 in., $20; 2½ in. and thicker, $26. No. 2 Common, 1 in., $12; 1 1/4 in. and thicker, $14. No. 3 Common, $8.

SOFT MAPLE.—1 in. to 2 in. long run, $16.

HARD MAPLE.—1 in. to 2 in. log run, $15; 1st and 2nd, 1 in., $24; 1¼ to 2 in., $26; 2½ in. and thicker, $30. No. 1 Common, 1 in., $14; 1¼ to 2 in., $16; 2½ in. and thicker, $20. No. 2 Common, 1 to 2 in., $10; 2½ in. and thicker, $15; No. 3 Common, 1 to 2 in., $7; 2½ in. and thicker, $10.

WHITE OAK.—1st and 2nd, 1 in., $36; 1¼ in. and 1½ in., $40; 2 in., $42; 2½ in. and thicker, $46. No. 1 Common, 1 in., $26; 1¼ and 1½ in., $30; 2 in., $32; 2½ in. and thicker, $36. No. 2 Common, 1 in., $16; 1¼ and 1½ in., $20; 2 in., $22. No. 3 Common, 1 in., $9; 1¼ to 2 in., $10.

RED OAK.—1st and 2nd, 1 in., $38; 1¼ and 1½ in., $41; 2 in., $43; 2½ in. and thicker, $48. No. 1 Common, 1 in., $28; 1¼ and 1½ in., $31; 2 in., $33; 2½ in. and thicker, $38. No. 2 Common, 1 in., $18; 1¼ and ½ in., $21; 2 in., $23; 2½ in. and thicker, $28. No. 3 Common, 1 in., $9; 1¼ in. and thicker, $10.

Official weights as follows, in pounds: Ash, 3,500; birch, 4,000; soft maple, 3,500; hard maple, 4,000; basswood, 2,500; soft elm, 3,000; rock elm, 4,000; oak, 4,000.

IMPORTANT DEAL IN LUMBER PROPERTY.

A large transaction in lumber property was closed last week, when C. M. Bostwick, of St. John, N.B., transferred to the Pejepscot Paper Company, of Brunswick, Maine, all his extensive holdings at Great Slamon River, Kings County, and Martin's Head, St. John County, N.B. The property comprises 100,000 acres of timber limits, chiefly spruce, the Great Salmon river mill, a store, two schooners and several buildings. The price paid is said to have been in the vicinity of $300,000. The property was purchased fourteen years ago by Mr. Bostwick from the Davidson Estate, since which time it has been greatly improved.

It is understood to be the purpose of the new owners to cut logs during the coming winter and to operate under the name of the Bay Shore Lumber Company.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, OCTOBER 5, 1904 No. 36

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

LUMBER—Fine established business in good Manitoba town, carrying a six thousand stock, making a fine profit; buildings complete, small amount of cash handles. THE LOCATORS, 55 Merchants' Bank Building, Winnipeg, Man.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade has lost no ground during the past week, as there has been an average movement and prices have been well maintained. There are no signs of weakness, and it is believed that when the elections in this country and the United States are over there will be a revival in the demand for lumber and a stiffening of prices. While the quantity of unsold lumber at the mills will be larger than at the close of navigation last year, it will not be more than enough to supply the demand until the new cut is ready next year. Several of the largest firms will operate conservatively in the woods this winter and will figure upon stocking their mills for days runs only next season. In the face of a restricted production, there is no good reason for a decline in pine lumber prices.

The factory demand for hardwoods is more lively, which is taken to indicate that consumers have been running along with light stocks and are now willing to purchase for their winter requirements at present prices. Interior finish stock is experiencing a good movement, and there has been some improvement in the call for basswood.

QUEBEC AND NEW BRUNSWICK.

Increased activity is reported from some of the spruce districts, although the volume of trade is still small for this season of the year. There is a better feeling in respect to British business, the general opinion being that prices are likely to improve between now and the end of the year. Merchantable spruce deals are worth about $12 at St. John. Dullness prevails in logging circles on account of the contemplated contraction in operations. It is estimated that the coming winter's cut on the Upper St. John river will not be more than 65,000,000 feet, as compared with an average cut of about 120,000,000 feet. Operations on the Miramichi and Restigouche rivers will also be restricted, and in Nova Scotia a policy of curtailment will be followed to a lesser extent. There is an improved demand for lath, but shingles are still weak, with a larger number of sales of Extras at $3.10 for Boston delivery.

UNITED STATES.

Reports from the United States are not so universally favorable as last week, trade in the east in particular being somewhat dull. In Philadelphia and New York the volume of business is by no means satisfactory. In Chicago and district there is a vast amount of building under way and lumber dealers are doing a steady trade, with prices well maintained. The manufacturers in the Lake Superior district make no complaint as to business. The bulk of their output has been disposed of and the small balance is almost certain to be held at firm prices. Dealers are buying southern pine quite liberally and prices have advanced from $1 to $2 per thousand. There is less strength shown by spruce, random cargoes at Boston having sold at slightly lower prices. Hardwoods generally are in good demand. Much of the northern production has passed into the hands of dealers, who are endeavoring to keep up prices. It is predicted that there will be a liberal production of Wisconsin and Michigan hardwood logs the coming winter and

there is consequently some hesitancy on the part of eastern buyers. Plain white and red oak are in fair demand and light supply, soft elm is scarce and basswood is plentiful.

There has been a recovery of about ten cents in the price of red cedar shingles. Reports from Washington state that wholesalers are eager to buy and that the situation shows a distinct improvement. This has been reflected in other kinds of shingles, although no advance in the east has taken place.

GREAT BRITAIN.

Indications are more numerous that the British lumber market is gaining strength. Business in London is brisker and importers are beginning to speculate. If the market were removed from the influence of Baltic shipments, there would probably be a surprisingly quick recovery in prices, but as this is out of the question the improvement promises to be very gradual. Stocks are changing hands more freely between merchant and consumer than has been the case for many months, and prices at the recent public sales have maintained a fairly steady level. Spruce deals are showing unusual strength. One report states: "There has been a much better demand for spruce during the week, and if this were only to continue for a few weeks at the same rate, there would be a substantial rise in prices to record. Stocks of 3x9 unassorted spruce have been cleared by the principal agents at £9 per standard, and many lines of unassorted that sold at £8 5s at the auctions a short time ago have been resold by the buyers at £9 per standards." Importers are beginning to feel that there are not likely to be heavy consignments from Canada, which is doing much towards restoring confidence.

STOCKS AND PRICES.

E. B. Foss & Company, of Bay City, Mich., have imported from the Georgian Bay district about 5,000,000 feet of lumber a month during the season.

Crate & Sparham, of Smith's Falls, Ont., have just bought 400 acres in Beckwith Township, near Franktown, on which there is a considerable quantity of timber.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., last week sold 3,000,000 feet of white pine lumber to the Detroit Lumber Company and Lowrie & Robinson.

The Spanish River Boom Company handled approximately 160,000,000 feet of logs this season. Last year the output was 200,000,000 feet and next year it is likely to be still smaller.

Robert Potts, of Fredericton, N.B., has entered into a contract with the St. John Lumber Company, of Van Buren, Maine, to cut 3,000,000 feet of logs for them during the coming season.

The Pigeon River Lumber Company, of Port Arthur, Ont., will have five camps in operation this winter, three on the Canadian side and two on the American side. It is expected that from 30,000,000 to 35,000,000 feet of logs will be cut.

Hon. E. J. Davis, Commissioner of Crown Lands for Ontario, is asking for tenders by November 15th for the right to cut the red and white pine timber on a number of small parcels of cut-over and burnt-over lands situated in the Townships of Burleigh and Johnson and district of Algoma. The berths in Algoma district include No. 108, on the north shore of Lake Huron, and Berth A, on Dog Lake, 64 miles west of Chapleau.

There is now about 18,250,000 feet of last season's log cut of the provincial operators hung up in the upper St. John river, divided as follows:

	Feet
Randolph & Baker	6,000,000
Cunliffe	1,000,000
Kilburn	1,000,000
Chouinard	1,000,000
Edgecombe & Eaton (McConnell's)	5,000,000
Doucett Landry	1,500,000
Scott Bros	1,500,000
R. A. Estey estate	1,000,000
Hallett	750,000
	18,750,000

In addition to this the St. John Lumber Company at Van Buren were held up for 7,500,000 feet. This company, however, will operate quite extensively this winter. They will get out about 15,000,000 feet. The Van Buren Lumber Company will also operate on a fairly large scale, their estimate being about 10,000,000 feet.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., Sept. 30th, 1904.—Things are somewhat brisker in lumber circles than they have been for some months past. All the mills in this vicinity are running at their full capacity and the annual output of this year promises to be about the average. Logs are coming along very freely and the indications are that there will be perhaps 20,000,000 feet piled and wintered at this port alone. As far as is known at present there have been very few large contracts made with loggers. This is a sure indication of a small cut this winter, as under ordinary conditions the choppers are in the woods by this time.

Many manufacturers are in a position this year where they have to run their mills at a loss or cease sawing altogether, owing to the high price they paid for their logs. As it means a heavy sum of money being tied up for a year at least unless they did so, those who were in that position have preferred to do the former. It may be depended upon that they will not be in a similar condition next year. This means that they will be more cautious in buying and contracting and already the reaction is being felt in logging circles, which fact is indicated in a lack of demand for woodsmen and a consequent falling off in wages in that line ranging from 10 to 15 per cent.

While shingles have not shown any increased activity during the last fortnight, laths appear to be considerably more in demand and those who have any to sell are very hopeful of what the next month will bring forth. Shipments of laths have been fairly heavy since last writing, but the quantity of shingles on the different wharves has increased perceptibly.

The English market looks somewhat brighter than was the case at this time last month. Enquiries are more frequent and the demand has increased to such an extent that those interested are just now feeling very optimistic. Of course, this demand is not by any means heavy, but, compared with the depression of the last few months, it is decidedly encouraging to the manufacturers.

Shipments have been sufficiently heavy to make considerable wharf-room and charters are booked that will relieve any inconvenience from this source for the next two months even if no further sales were made.

Prices have rallied and the indications seem to be, according to the opinions of men who are in a position to judge, that they will be higher yet before the closing in of winter.

Some large lots have been disposed of at prices ranging from $11.75 to $12.00 per M's. ft. for Merchantable (usual percentages of widths) 2/3 price for Fourths and Ends, f.o.b. steamer at New Brunswick port.

Charters to the West Coast of England are plentiful at 35s. per standard.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN)

VANCOUVER, B.C., September 26, 1904. —The depression in the lumber business has been the cause of a cut in prices of lumber in this city, and the war has been carried on by the millmen until now figures are in many instances as much as 35 per cent. off the list price. It all started in one firm giving a price below the schedule agreed upon by the B C. Lumber and Shingle Manufacturers' Association, and to which all the members subscribed, and of another when hearing it going it still lower. Shingles are being sold for $1.35 and $1.50. "There are times," one of the prominent manufacturers said on Saturday, "when most of us feel we should be put in an asylum until this irrational feeling has worn off. We know we are hurting ourselves and the trade, but still we go ahead."

A feature of the depression in the logging industry is the cornering of the available supply. Especially is this the case in cedar. Most of the independent loggers are in financial difficulties, and since the government has refused to allow export, they have to wait until conditions brighten. They have stopped cutting, and those who have the money are now quietly buying up all the cedar and the fir. By spring logs may take a big jump and will be very high if the winter is as unfavorable as last in getting out timber.

Export of lumber is small. The fleet now loading is only three vessels, the fewest on record. They are the Harold and Halewood at Hastings mill, and the Olivebank at Chemainus. Three charters only are reported, the William H. Talbot, the Admiral Tegethoff and the Balboa. A record was made in loading the Olivebank. She took on 2,5 7,000 feet, the largest cargo ever shipped at Chemainus, and this was put on through one hatch by the Victoria & Vancouver Stevedoring Company in 22 lay-days, an average of 114,000 feet per day.

Several mill fires have taken place during the month. The mill at Kamloops of the Kamloops Lumber Company, of which George McCormick, M.P., is president, was burned, with a loss of $20,000. Some lumber was also burned. Mr. G. F. Fowler, M.P., is on his way west, and when he arrives it will be decided whether the mill will be rebuilt at Kamloops or Savano. Messrs. Braden & Johnston, who have a mill at Salmon Arm, lost the plant and all their lumber. The loss will be about $2,500, with no insurance. Mr. McCormick, when he heard of the misfortune, kindly offered to supply them with a boiler. They will rebuild so as to be ready to cut early in the spring. A watchman slept at the No. 1 mill of the King Lumber Company, near Cranbrook, and the mill was burned, he escaping with difficulty from the burning building. No lumber or logs were burned. Loss $25,000, with some insurance. The Capilano Lumber Company, operating about seven miles from the mouth of the Capilano river, from which Vancouver gets its water supply, has suffered the loss of its saw mill.

Mr. J. Taylor, principal owner of the Arrowhead Lumber Company, has gone

east after the disposal of the company's interests to McMillan Brothers, the Great Northern contractors. The price paid for the property was between $275,000 and $300,000.

It is understood that the Canadian Timber and Sawmills Co., Limited, the mill of which was seized at Trout Lake, will be reorganized, and that it will be operating shortly. The investment there is a large one.

Timber Inspector John Murray returned last evening after making one of the largest seizures in the history of the province, and, in fact, of Canada. Americans were cutting timber on provincial lands in the southern portion of the Fraser delta and shipping it to the other side, contrary to the law forbidding export, except under heavy tax. He found several large camps in full operation, and it is estimated that they must already have shipped several millions of feet of fine timber. A number of booms of logs were ready for shipment

and were seized. In all, the value of the camps and timber will amount easily to $100,000. The logs were being purchased by the Monarch Lumber Company and the Erie Lumber Company, of Blaine. The steal is one of the most audacious in the history of the west, it being only about 20 miles from New Westminster, and had been going on for six or eight months. Large donkey engines were being used, and the owner of one of the camps stated that had the seizure been made a day or two later, he would have been out $6,000 more, as relying upon the success of operations to date, he had completed a deal to buy private timber, and was to have paid $6,000 cash to-day.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, OCTOBER 12, 1904 No. 37

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

Staves, Hoops and Heading

WE HAVE A LARGE QUANTITY OF TIMBER, suitable for Staves, Hoops and Heading. R. F. HOUSTON & SON, Tweed, Ont.

OPENING FOR A SAW MILL

ADVERTISER DESIRES TO ARRANGE with an owner of a saw mill to cut out a hardwood limit on the Ottawa river. The limit would furnish about four years' sawing for a mill of 10,000 feet capacity daily. Good opening for an energetic man with mill. Address "Hardwood," care of CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The present condition of the lumber trade is not very different from that which prevailed one week ago. The volume of business is about normal, and there is practically no change in prices. Country shipments are not as heavy as might be expected, but on the other hand there is a more active demand in Toronto, where building operations continue brisk. Attempts to break prices of white pine, on the ground that manufacturers are carrying larger stocks than one year ago, have not been very successful, which leads to the conclusion that white pine is upon a stable foundation. There is no doubt that the percentage of this year's cut still in the hands of producers is considerably larger than at the corresponding time last year, but this is offset by the contemplated curtailment in logging operations the coming winter. Camps were put into the woods later than usual, the general disposition being to curtail the output by about 25 per cent.

Dealers are contracting quite liberally for hardwoods, but have found no difficulty in fulfilling their wants. Prices are quite firm, however, and an active fall demand may bring about an advance in some lines. Basswood is showing more life.

MANITOBA AND BRITISH COLUMBIA.

The lumber market of Western Canada does not show much improvement, prices still being somewhat demoralized. The demand in Winnipeg continues active, as the building permits issued during the present year have reached in value $8,000,000. Many other buildings are contemplated this fall and it is expected that the expenditure for the year will be about $10,000,000. The competition from American lumber is less severe than during the summer period, though considerable of the trade is still going across the line. The recent report concerning the withdrawal of the Mountain Lumber Manufacturers' Association from the honorary list of the Western Retail Lumbermen's Association is true in part only. While it has been decided to discontinue the relationship which has existed between the two associations, it is not the intention of the manufacturers to sell directly to consumers, unless, perhaps, in some exceptional cases.

British Columbia shingles are in good demand, the low prices having stimulated buying to some extent. No. 1 are quoted in Winnipeg at $2.10 wholesale, and No. 2 at $1.80. There has been an advance ranging from 15 to 25 cents in the price of lath, which are not plentiful.

UNITED STATES.

The lumber market of the United States as a whole is exhibiting a strength that is encouraging to producers. There is the usual fall movement of northern pine, as there has lately been considerable buying of stock for shipment before the close of navigation. There is very little lumber for sale in the Lake Superior district, which, considered in connection with the moderate demand which has prevailed during the year, is but additional evidence that the supply of white pine timber is becoming exhausted. There has been an advance of 50 cents in the price of No. 1 boards. No. 3 and 4 boards are moving rapidly to supply the box demand, which is more active. Buffalo and Tonawanda dealers are booking larger orders for New York. Spruce prices are steady and dealers appear satisfied with the outlook. Some of the eastern mills have already shut down.

The hardwood trade is each day getting into better condition, both inquiries and orders being more numerous. There is a fair stock of hardwoods remaining in the hands of manufacturers, but no greater than is likely to be required before the new cut is ready next year, and if the demand should revive as many predict, a shortage may result. It is estimated that there are 30,000,000 feet of inch maple held by Michigan manufacturers. Thick maple, however, is in light demand and

prices are quite stiff. Maple flooring has also improved. Basswood is looking up and promises to recover from its recent lethargy.

The scarcity of white pine lath in the Lake Superior district, of which previous mention was made, continues, and prices are slightly higher. Mixed lath are more plentiful and proportionately easier in price. Red cedar shingles have recovered in a remarkable manner. Dealers now fear a shortage in the supply and are paying a premium of 10 to 15 cents for prompt delivery. This is partly due to the difficulty in securing transportation, the railroads being overwhelmed by the wheat traffic.

GREAT BRITAIN.

We do not care to state emphatically that the corner has been turned in the depression which has characterized the British lumber market for the past year, but indications undoubtedly point in that direction. On account of the near approach of the close of the importing season, buyers are disposed to close contracts whenever they are offered any inducement. Up to the present time consignment cargoes have been feared, but as freight rates have advanced, the market is not likely to suffer much from this cause. Notwithstanding the present inactivity, the opinion is almost universally held that buyers of deals at present prices will be enabled to realize considerable profit before another importing season is reached. Pine is steady, as practically no stock is being thrown upon the market unreservedly, and there is an increasing demand for the regular lines of spruce. The latest sales of spruce have ranged from £6 5s to £6 12s 6d c. i. f. London, according to specifications and stock. A small carge of Halifax spruce is reported to have been sold for Manchester delivery at £6 10s c. i. f.

At an auction sale held by Churchill & Sim, London, Eng., on September 28th, what was termed first quality pine, from Montreal, sold at £16 10s for 10-16 feet, 1½x7 inch, to £18 15s for 2x11 inch, while second quality 3x9 inch brought £13 10s. A small quantity of unassorted spruce from West Bay, N. S., brought from £6 to £6 10s.

STOCKS AND PRICES.

The barque Ilos has finished loading lumber at Windsor, N. S., for Buenos Ayres.

The John Harrison & Sons Company, of Owen Sound, Ont., are supplying 450,000 square feet of timber for the new breakwater at Meaford.

Graham & Horne, of Fort William, Ont., have contracted with X. St. Jaques, a contractor from West Superior, to put in 15,000 pieces of piling at Black Bay.

The Temiskaming and Northern Ontario Railway Commission are asking for tenders up to November 4th for the delivery of 225,000 ties along the right of way north of New Liskeard of the Temiskaming and Northern Ontario Railway. Information may be obtained at the office of the chief engineer at North Bay, and tenders are to be addressed to J. W. Pearson, secretary-treasurer, Toronto.

Following is a comparative statement of timber, etc., measured and culled at Quebec up to October 5th, as reported by the Supervisor of Cullers:

	1902 Cu. Ft.	1903 Cu. Ft.	1904 Cu. Ft.
Waney White Pine..	1,815,920	1,618,920	2,020,160
White Pine.....	383,600	390,720	225,160
Red Pine.....	71,160	56,520	15,920
Oak.....	618,680	835,920	247,560
Elm.....	561,880	417,800	254,120
Ash.....	79,920	57,200	14,640
Basswood.....		160	
Butternut.....			40
Tamarac.....		40	40
Birch and Maple....	164,800	196,760	114,680

The following report of the Barbados lumber market is furnished by Messrs. S. P. Musson, Son & Company: "There have been no receipts of either white pine or spruce since our last fortnightly report, neither have we heard of any further transactions. The cargo of white pine which we advised as having sold to arrive should be here shortly. A prompt arrival of spruce would probably bring $22, as dealers are partly bare. The "Success" has arrived from Paspebiac, Que., bringing 1,300,000; of these 969,000 were Long Gaspe cedar, which were placed at $5.76 to $6.27; a small quantity of Dimension brought $4.25, $6.35, $7.35 and $7.50 for 4, 5, 6 and 7 inch respectively. A lot of 113,000 Cedar Laying were sold at $2.20; this sale cannot be considered as a criterion of the market, as it was made to an outsider and could not be repeated."

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

OTTAWA, October 7, 1904.—The summer lassitude in Ottawa district lumber circles promises to be followed by a fall and winter activity. While trade is quiet as yet, prices are holding firm. There seems to be but little surplus stock, and holders are not willing to shade. There is a considerable movement of lumber, but it is confined to the American market. The dullness in the English market continues, and the high-priced Canadian stuff is being displaced by the cheaper Baltic production. The Ottawa district operators are of the opinion that the depression in the Old Country market has about reached its height, and that an improvement must soon follow.

Already manufacturers and dealers are talking next year's prices, and one expressed the opinion that the present season's prices would hold firm, although there might be some shading from the extra high prices. Any break that may occur will, it is believed, be confined to the Georgian Bay district.

Everything points to a shortage in the lumber cut of the present season. While it may not be much less than last season, it certainly will be considerably short of previous seasons.

There is certain to be a large shortage in the output of logs in the Ottawa district this fall and winter, and consequently a corresponding shortage in the lumber cut next summer. Both the Hull Lumber Company and the Estate of Robert Hurdman have decided not to manufacture logs, and other firms will reduce their cut. The freedom with which the logs came down stream this summer promises a big supply for early sawing next summer.

While the Ottawa river is full of logs, there is seemingly great difficulty in getting them down stream. On account of scarcity of logs, the Shepard & Morse Company has found it necessary to shut down its mill at Ottawa.

McLachlan Bros., Arnprior, W. C. Edwards Company, Rockland, and the Hawkesbury Lumber Company, Hawkesbury, all gave their employees their annual treat this year by a visit to the Ottawa Exhibition. The expenses were all borne by the companies.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.

New Orleans, La.

LUMBER DEMAND IN AUSTRALIA.

Mr. J. S. Larke, Canadian Trade Commissioner at Sydney, Australia, writes as follows under date of August 9th, 1904:

"The timber market is still depressed and as customarily accompanies such a state of trade the timber merchants are taking exception to the quality of the cargoes. In most instances this is done to secure rebates. So far as I am informed the timber now coming in is fully equal to that received without question when the demand was good. Some years ago I suggested that the Pacific coast exporters should take steps to counteract the unjust methods of some buyers, which are liable to become a common practice. The otherwise fair dealer is induced to make a claim because a rival has received an allowance, on the ground that he cannot compete unless he secures equally good terms. The combination of the mills put an end to this evil for a time, but the breaking up of combination has produced a renewal of it.'

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, OCTOBER 19, 1904 No. 38

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

FOR SALE—ONE CYLINDER STAVE SAW, 24" diameter, will cut slack or tight staves; it is in No. 1 running shape, and a profitable investment for any mill man. I advance satisfactory reasons for selling. Box 4, Bothwell, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

This week finds the lumber trade more active than for a long time, the fine weather being responsible for the increased business. "If this kind of weather continues for a month," remarked a local dealer, "we will have little stock left in our yard." There are practically no complaints of slow trade, while prices are exhibiting considerable strength. Reports from the northern mill districts are universally to the effect that there are no signs of weakness, but on the other hand there is a feeling that there will be no necessity to lower prices in order to market all the lumber that is now in the hands of manufacturers. Compared with a month or six weeks ago, a marked increase of confidence is shown. Some dealers are picking up considerable stock in advance of the Presidential election, as it is thought that prices will stiffen when that event is out of the way. The demand for low grade pine is still a feature, with the upper grades relatively weaker. Of the hardwoods, elm and birch are about the best sellers, but there is a little more inquiry for basswood. Lath prices are stronger and one or two large sales have recently been placed. A manufacturer who has carrried his lath, about six million pieces, all season, because he could not obtain a satisfactory price, recently disposed of the entire quantity at the figure which he had been asking, which is evidence of the improved tone of the market.

QUEBEC AND NEW BRUNSWICK.

The Eastern Canada lumber market is showing more activity as the result of an increased domestic demand. The Dominion Government has under way harbor improvements at several points for which considerable lumber will be required, and the many new buildings and other works about to be undertaken by the Intercolonial Railway is expected to influence the lumber market. Shipments to the United States have also increased and a more hopeful feeling is entertained in respect to British trade. Although considerable lumber will of necessity be carried over the winter, manufacturers show no disposition to reduce prices below their present low basis. Cedar shingles are no more than holding their own and it is still possible to buy good Extras at $3.15 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Lumber conditions in the West are not improving very rapidly. In Winnipeg there is a good demand for stock and prices are steady at the lower range which has prevailed for some time, but country business is rather disappointing. Many of the retail dealers, anticipating a greater demand than has yet materialized, are now carrying fairly heavy stocks and will need to buy but little during the winter months. Considerable American lumber is still being sold in Winnipeg and Southern Manitoba, although we are informed that the quality of the lumber brought in does not compare with the home product. The final estimate of the North-West wheat crop is 60,000,000 bushels, which is a larger production than last year, and, considering the present market value of wheat, the buying power of the farmer will be considerably above the average, and he should be in a good financial position to undertake needed improvements to buildings.

UNITED STATES.

There has been a marked improvement in the northern pine trade of the United States, and it now appears that the mills will carry a very light stock into the winter. Notwithstanding that the East has bought sparingly, the bulk of this year's production has passed into the hands of dealers and consumers. Prices have stiffened in some districts to the extent of $1 per thousand, although there is no change at Buffalo, Tonawanda and other Eastern wholesale distributing centres. Buffalo dealers report a shortage of certain sizes of barn boards, and some of the higher grades are moving more actively. Southern pine is also firm and the base price of hemlock at New York has been marked up to $17. The spruce market is steady, with indications of firmness during the winter months. The demand for hardwoods has been stimulated by the starting up of furniture and implement factories. Basswood is being inquired for more generally and soft elm sells readily. The oak situation is rather peculiar, there being a decided scarcity of plain stock, while quartered oak is very plentiful and in little demand.

Difficulty in obtaining red cedar shingles owing to a car shortage has caused

more liberal buying of the other kinds, which are firm in price. Lath are still strong, with some dealers holding for a further advance.

GREAT BRITAIN.

The British lumber market continues to show improvement of a moderate character and there has been a slight increase in consumption. Consumers are more inclined now to do a little speculative buying than has been the case for some months past. The mahogany market at London has taken a decided turn for the better, and at Liverpool there is an improved demand for all kinds of lumber. Considerable business is being done in pine and spruce, with an upward tendency in prices. Shippers are asking £6 10s per standard for St. John spruce cargoes for delivery on the east coast and are refusing offers five shillings below that figure. A West Bay cargo is reported to have been sold on the Mersey at £6 10s c.i.f. There are some enquiries for square and waney timber, but the consumption is not active and stocks are ample to meet requirements. There is a good demand for rock elm, and as stocks are low prices could be easily advanced.

The feature of the month of September was the small importation of lumber from the wood-producing countries. It is now quite certain that the imports this year will be on a moderate scale compared with last season, and when this is taken into consideration, stocks cannot be considered heavy.

A statement of the London dock stocks on September 30th shows that the supply of pine and spruce is considerably lighter than one year ago. Of pine deals there were 422,488 pieces, as compared with 532,834 pieces one year ago. The stock of red pine deals was 45,892 pieces, as against 81,545 pieces, and the stock of spruce deals 359,260 pieces and 490,029 pieces respectively for the two years. It will be seen that a considerable decrease is shown in each instance.

STOCKS AND PRICES.

The last of the St. John river corporation log drive reached the boom limits at Fredericton, N. B., last week.

The Scott Lumber Company, of Fredericton, N. B., expect to hold over until next season between 8,000,000 and 10,000,000 feet of logs.

Keenan Bros., of Owen Sound, Ont., are offering one and a half million cedar shingles, 10 inch clear butts and better, at $2.35 per M, also one million second class shingles at $1.50.

A two mile timber berth, situated at the head of Canaan river, was sold at the Crown Land office, Fredericton, N. B., last week to George McSweeney and John Crandall for $51 per mile. James Gastro was the applicant.

During the past season about 50,000,000 feet of logs came through the south-west branch of the Miramichi river, in New Brunswick, and about 22,000,000 ft. from the north-west branch. Of this amount at least 15,000,000 feet will be wintered, divided as follows : Richards, 4,500,000 feet ; Lynch, 3,500,000 feet ; Birchall, 2,000,000 feet ; Hutchison, 1,500,000 feet ; Welch, 2,000,000 feet ; Hickson, 1,500,000 feet. Snowball & Company will also winter some logs. Very little preparation has as yet been made for the coming winter's operations, and the cut on the Miramichi is not likely to be much more than half that of last season.

THE GLASGOW MARKET.

Edmiston & Mitchell's Monthly Timber Circular of September 30th, 1904, contains the following particulars concerning Canadian lumber :

WHITE PINE.—The import of the month amounts to 3,000 loads of waney and 150 loads of square pine. Business is quiet, and there have been no transactions of any importance. Stocks are heavy.

OAK.—The import consists of about 350 loads. The stock of both Quebec and Southern States wood is still heavy and enquiries are few.

ELM.—There is a good demand for rock elm, and a fair business is being done at firm prices. The stock is moderate, and while there is still too much soft wood on hand, it is being gradually worked off.

QUEBEC BIRCH.—The import for September has been trifling and was disposed of from the ships' side. There are a few enquiries in the market from time to time but no special activity in the demand, and moderate though the import has been this year, it has been ample for all requirements. In birch planks, the stock is now considerably less than it has been for some time past, and we shall soon see some improvement in values.

ASH.—Although the stock on hand is small, there is no anxiety on buyers' part to pick it up, and only occasional trifling retail sales are being made at prices which are by no means encouraging, from a shipper's point of view. For American ash logs there is not much demand, and there are several lots in the market unsold.

PINE DEALS.—Business has been rather better during the month, and sales "ex quay" have been more numerous. The import continues light and stocks are moderate. Current values are as under :—Broad First Pine Deals—£32 to £34 ; 11-inch, £29 to £31 ; Ends and Non-Dimensions, £22 to £24. Second Pine Deals— 11-inch and up, £17 to £19 ; Ends and Non-Dimensions, £13 to £14 10s. Third Pine Deals—11-inch and up, £11 to £14 ; Ends and Non-Dimensions, £9 10s to £10 10s. Red Pine Deals—9 and 11 inch, £10 to £11 ; Narrows, £7 to £8 10s. First Pine Sidings and Strips—9 to 10 inch, £23 to £24 ; 11 to 12 inch, £25 to £26 ; 13 to 14 inch, £27 to £28.

SPRUCE DEALS. —9-inch and up, £8 to £8 10s. ; 7 and 8 inch, £6 15s. to £7 10s. Lower Port Spruce.—9-inch and up, £7 10s. to £8 ; 7 and 8 inch, £6 5s to £7.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B. C., Oct. 10th, 1904.—It looks as if there will be low prices for lumber all this winter. Since the price war they have not regained, and to-day lumber is selling in some instances as much as $5 lower than the former figure. The result of this is seen in the greater amount of building which is now about to be done. Towards the winter months building generally falls off considerably, as the rainy weather is not favorable. This summer and fall, however, have been unusually fine, and last week the office of the building inspector was besieged with applicants for permits. Most were for residences, but there is a large number of business blocks being erected in the city.

One of the features at the annual provincial exhibition held at New Westminster last week was the display of three "knock-down" houses by the B. C. Mills, Timber and Trading Company. They attracted considerable attention, and were the subject of much favorable comment. They can be erected for at least $200 cheaper than the ordinarily made house, and in appearance and style equal the best. They are made in several styles and sizes, from the two or four roomed house up to eight, and from $150 to $600. The prices are delivered at the mills. A comprehensive catalogue is being issued by the company. The houses are the patent of Mr. E. C. Mahoney, manager of the Royal City Mills, Vancouver, a branch of the company. Mr. Mahoney was formerly of Hamilton.

W. W. Wardrope, of Fernie, whose mill was destroyed by fire a short time ago, having been set by a spark from a C. P. R. locomotive, will probably rebuild at Crow's Nest, where the railway has promised him a siding. Winnipeg men will also be interested.

It is reported that Senator McLaren, of

Office and Yard—571 Dorchester Street, MONTREAL, P.Q.
Telephone Main 368. Correspondence Solicited

Perth, Ont., who is stated to have entered suit against the C.P.R. for $125,000 damages to his limits in the Crow's Nest, caused by fire started by sparks from locomotives, has had an amicable settlement with the C.P.R.

H. J. Haskamp, of St. Cloud, Minn., who has large interests in North Dakota, is president of the Great Northern Lumber Company, which will do business in Canada on a large scale, establishing branch offices throughout the Territories. H. N. Clausene, of Northwood, Manitoba, is secretary.

John Hanbury, of Brandon, purposes erecting at Elko, on the Crow's Nest branch of the C.P.R., a large planing mill and finishing factory, purchasing the rough material from the numerous small mills in the Kootenay.

Mr. H. J. Gilbert, president and manager of the Saginaw Manufacturing Company, of Saginaw, Mich., is on the coast looking for spruce ends, which are generally burned. He says he can use them in the manufacture of woodenware, even after paying the duty. He is greatly surprised at the wastefulness of millmen.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, OCTOBER 26, 1904 No. 39

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

PRACTICAL SHINGLE MAKER WITH small capital can get partnership. Timber supply inexhaustible; market first-class. Address Box 79, Thessalon, Ont.

FOR SALE.

RED PINE DIMENSION CUT TO REQUIRED sizes. Also two parcels of standing Timber, nearly all White Pine, good quality. PINE LUMBER CO., Pine Ont., near Cartier.

FOR SALE

2,000 acres of Hardwood Land in Antigonish County, N. S., close to railway sidings. The James River runs through the centre of 1,250 acres. Apply to

J. S. O'BRIEN,
Antigonish, N. S.

FOR SALE

In Province of Ontario

Steam Saw - Mill

Capacity 12,000 daily; Shingle and Lath Machinery and Planer, also the right to cut Timber on 4800 acres, part of which is under license and part deeded lands. The timber consists of pine (original), 2nd growth pine, elm, basswood, oak, hemlock, ash, birch and maple. There is also hundreds of thousands cords of maple wood on this property. This is a going concern, having cut 1,200,000 ft. lumber this year. Everything required in way of horses, waggons, and sleighs. Have men in bush now taking out logs for next season. There is also 2500 pieces at mill ready for next spring's run. There is no compulsion in making this sale and the owner can give satisfactory reasons for selling. This is a good proposition for any experienced man in the lumber business who has the necessary capital. Address Box No. 174, CANADA LUMBERMAN, Toronto, Ont.

FOR SALE—DRY 6/4", 2", 3" AND 4" SOFT Elm. R. E. KINSMAN, Hamilton, Ont.

WANTED — POSITION AS BUSINESS Assistant, by young man with thorough knowledge of lumbering and lumber manufacturing, competent lumber inspector, log scaler and general office man. Address Box 171, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber situation in Ontario calls for no lengthy review, as in few respects does it differ from last week. Business is of an average volume. In Toronto trade is keeping up remarkably well and all the dealers are busy, but some dissatisfaction is expressed with the country demand. The approach of the time for cold weather is operating to curtail the consumption of lumber in the country, and, remembering the cold winter experienced a year ago, dealers are taking every precaution against having to carry a burdensome stock through the winter. Ottawa prices have been shaded in a few instances, but the strong undertone has not been impaired. The stocks at the mills are larger than might be desired, but there are no evidences of more than ordinary anxiety to realize.

Lath prices at the mills are now firmly established at $2.60 for No. 1 white pine and $2.10 for No. 2, this being an advance of 10 cents as compared with the prices at which lath could be purchased one month ago. Shingles are unchanged, although a few of the smaller manufacturers are offering B. C. red cedars a little below $2.60 for XXX. At this price there is no profit, and it is only a matter of time until higher prices will rule.

QUEBEC AND NEW BRUNSWICK.

Lumber market conditions in the Eastern Provinces are gradually getting into better shape. Prices are firmer than they have been for some time and on all sides there is shown a remarkable degree of confidence and a feeling that the bottom has been reached in spruce values. Local and United States trade is improving and there is more inquiry for British specifications. For the American market all of the larger sizes are in strong demand and many of the mills will go into the winter season with a comparatively small amount of unsold stock. No doubt the intention of the operators to greatly curtail work in the woods this winter has had a strengthening effect upon the market. Following the action of the New Brunswick lumbermen, the Maritime Lumbermen's Association of Nova Scotia, at a meeting held at Truro last week, passed a resolution agreeing to reduce the cut this winter by at least one-half, while some of the members announced their intention to suspend operations entirely until prices improve.

New Brunswick cedar shingles are more active but are still selling on the basis of $3.15 for Extras and $2.65 for Clears, Boston delivery. Stocks are not large and some manufacturers are inclined to hold for an advance of 5 to 10 cents.

MANITOBA AND BRITISH COLUMBIA.

The recent fire in Winnipeg has further increased the demand for lumber, which was previously of large proportions in that city. All the dealers are busy and are anticipating a continuation of activity well into the winter months. There has of late been very little change in values, although there is less complaint of price-cutting than was the case a few weeks ago. The situation in British Columbia has not improved to any extent, and most of the interior mills are still carrying heavy stocks. Foreign shipments, however, have been fairly good, as during the first nine months of this year forty-seven cargoes were loaded at Vancouver and Chemainus. Exports to Japan have been larger than usual.

UNITED STATES.

The developments of the past week have been favorable to a stable market and to a gradual enhancement of values. From almost every district comes the report of a steady trade at firm prices, while in some instances sharp advances have taken place. White pine lumber is from $1 to $2 higher at the mills than during the summer months, and this is expected to lead to some advance at least by retailers, who up to the present time have been slow to profit by the improved conditions. At Buffalo and Tonawanda cuts and better are selling more actively than at any time this season and the lower grades continue to be in urgent request. Yellow

pine lumber is decidedly stronger. At Kansas City a new list took effect on October 14, which made a general advance of about $1 a thousand over the August list. Uppers were advanced from $1 to $2, Nos. 1 and 2 dimension $1, and all common lumber 50 cents. Similar action has been taken by the manufacturers in the vicinity of St. Louis. Hardwoods have likewise improved as the result of an increased volume of business. Plain white and red oak is still in very light supply and it is predicted that there will be no surplus of this class of lumber at least before next summer. There is a larger movement of basswood, but so far prices have not improved on account of a comparatively heavy stock. Soft elm is much enquired for.

Practically all varieties of shingles are exhibiting a stronger tone. Red cedars have advanced in the eastern markets from 10 to 15 cents, and white cedars have been benefitted slightly by an increased demand. The firm tone of the lath market has not been broken. There is a scarcity of white pine at Chicago as well as in the Lake Superior district. Eastern dealers have taken advantage of the situation and have advanced prices 10 cents during the past week. No. 2 are now selling in the Tonawanda market at $2.85.

GREAT BRITAIN.

It is the general opinion that the next move in the British lumber market will be upward, but whether the improvement that has recently taken place will extend further at the present time is questionable. There is, therefore, a feeling against heavy purchases of lumber lest the expense of carrying the stock should be greater than the recovery in prices. In other words, buyers feel reasonably certain that prices will not be materially higher during the winter months. The past season has been so unsatisfactory that it is likely to influence buyers in their action towards the market next season. The tone at the present time is better than one month ago. A number of transactions in pine are taking place and holders seem satisfied that they will have no difficulty in disposing of their stocks at a profit. Spruce is again reported to be firmer. A sale was recently made at £6 10s c.i.f. Liverpool for a cargo with about 60 per cent. narrows and only a small percentage of 11 inch. From the shippers' stocks 3x9 inch third spruce is selling at £8 5s. c.i.f. London, and from the dock stock at £9 per standard.

STOCKS AND PRICES.

The Seaman-Kent Company, of Meaford, Ont., are reported to have purchased 2,000,000 feet of maple lumber in Michigan, to be delivered at once.

J. D. McLean, Secretary of the Department of Indian Affairs, is asking for tenders until Friday, November 11th, for 25,000 cedar railway ties and 10,000 cedar posts which the Indians of Manitoulin Island are taking out during the coming winter, to be delivered on the shore of Lake Huron, also for 5,000 cedar ties and 10,000 cedar posts to be made by the Indians of Shesheguaning Band.

Messrs. S. P. Musson, Son & Company's market report of October 8th contains the following particulars of B rbados lumber conditions: "We have to report the arrival of the schooner F. B. Wade, with 24,000 feet of merchantable and 67,000 feet of second quality white pine to our neighbors, which they placed to some dealers who were very bare of this at $26.77 for former and $21.77 for latter, but we do not think next arrival will do so well. The brigatine Dixon Rice from Weymouth, N.S., arrived on the 6th with 176,000 feet of shipping spruce, 17,000 feet second quality and 14,000 feet hemlock, for which we obtained $22, $19 and $19 respectively. This has supplied present requirements, and with two cargoes which we advised in a previous issue as expected in a few weeks, we expect next arrival will meet with lower values. The steamer Oruro brought 1,698 bundles Laying shingles, principally clears and second clears, which had been previously contracted for. These with recent arrivals by the Success have supplied dealers, and the Bravo about due will bring further supplies of both Long Gaspe and Cedar Laying."

LUMBER PRICES AT LONDON.

Messrs. Churchill & Sim, London, England, held an auction sale of lumber on October 12th, at which the following prices were realized for Canadian pine and spruce:

PINE.—Ex. Romford, from Quebec—9-14 ft. 3x10 in. 4th quality, £8 10s. per standard; 9-16 ft. 3x9 in., £8 10s.; 9-16 ft. 3x8 in., £8 5s.; 9-16 ft. 3x7 in., £8; 9-14 ft. 3x6 in., £7 5s. Ex. Everingham, from Miramichi, N. B.—14 ft. 3x9 in. 4th quality, dry, £6 15s. Ex. Milwaukee, from Quebec—6-16 ft. 3x11 in. unassorted red, £8 5s.; 9-16 ft. 3x7-8, £7 10s; 12-15 ft. 3x7 in., £7 10s.; 12-15 ft. 3x8 in., £7 10s. Ex. Milwaukee, from Montreal—12 ft. 3x11 in. 2nd quality, £17 10s. Ex. Mount Temple, from Montreal—10-13 ft. 3x9-10 in., 2nd quality, £15 5s.; 9-13 ft. 3x7-8 in, £13 15s. Ex. Montezuma, from Qnebec, 12 ft. 3x9 in. 2nd quality, £9. Ex. Obi, from Quebec—13 ft. 3x11 in. 3rd quality, £12 5s.

SPRUCE — Ex. Loughrigg Holme, from Quebec—9-13 ft. 3x9 in. 1st quality, £9 10s. Ex. Evangeline, from St. John, N. B.—11 ft. 3x9 in. 1st, 2nd and 3rd quality, £7 5s. Ex. NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., Oct. 19th, 1904.—The lumber market is slowly but surely recovering from the effects of the depression which existed in so marked a degree earlier in the season. While the results of the improvement have scarcely begun to be felt in the volume of shipments, the prospects are that the estimates of the stocks of manufactured lumber to be wintered at this port will now have to be materially reduced.

An air of optimism is plainly apparent in all those who have lumber of any kind to sell, and that this cheerfulness is justified is indicated by a change in the demeanor of buyers in the United Kingdom and their representatives on this side of the water; enquiries are plentiful and instead of the indifferent attitude of a few months ago, the brokers now show a readiness to do business. This is so especially in regard to the American markets. Contrary to all expectations, the trade in the Eastern States in all lines is very brisk, has improved materially during the last month and is still improving. This being a Presidential election year, a quietness was confidently expected, but this expectation, in spite of all precedents, has proven unfounded.

The probabilities of the market for lath as mentioned in last letter have been fully borne out. Lath are now selling in New York at $3.50 per M. as against $3.00 two months ago. This would mean $2.35 at St. John for the American product and $2.10 for the Provincial. The demand during the last month has been exceptionally heavy and the receipts were far short of supplying it.

The market for boards in United States has not shown any improvement, but is at least holding its own, and the demand for spruce scantling is only moderately brisk.

The demand for spruce deals in the Eastern States is decidedly strong and promises to continue so for the balance of the season. Receipts have been light and stocks on the other end are reported to be greatly depleted.

Wide deals are particularly good and their scarcity causes an anxiety to obtain them that is having a corresponding effect on prices.

Stocks of American lumber at this port and on the St. John River are comparatively light and will continue so for the next six or seven months at least, as several American manufacturers are making English sizes and have no American logs in stock. Merchantable spruce lumber can be sold in New York at prices that will leave the following figures at St. John:

Boards: American spruce, $12 per M.; Provincial spruce, $10.

Scantling: American spruce random, $11.25 to $11.75 per M.; Provincial spruce random, $9.25 to $9 75.

Deals: 20 per cent. 6's, 80 per cent. 8's, $14.50 to $17.50 per M.; 25 per cent. 9's, 65 per cent. 10's, 10 per cent. 12's, $17 to $17.50; all tens and twelves, $18 to $18.50.

Since last writing freight rates have advanced 25 cents per M. They are now quoted at $3 on deals to New York and there is a prospect of their being advanced to $3.25 in the next week or two.

Mr. John E. Moore, lumber manufacturer of this city, was advised on Friday last of the wreck at Gloucester, Mass., of one of his fleet of three-masted schooners, namely, the "Annie M. Allan." She was on her way to New York with a cargo of plaster. The vessel was only partially insured.

MARITIME LUMBERMEN'S ASSOCIATION.

The Nova Scotia Lumbermen's Association held a special meeting at Truro on October 19th, Mr. Alfred Dickie, of Lower Stewiacke, presiding. It was decided to change the name to the Maritime Lumbermen's Association. Amongst other discussions, the subject of the log output for this year was considered and the following resolution adopted:

"Resolved, that in view of the depressed condition of the foreign market, and in the endeavor so far as we are concerned to permit it to return to a living basis, we hereby, as members of the Maritime Lumbermen's Association, agree to reduce our cutting this winter by at least one-half. Some of us agree to suspend operations entirely until markets recover."

The above motion was presented by Mr. Dickie and copies of same were ordered to be forwarded to all members. It was decided to take up the matter of railway freights at the annual meeting in December.

E. R. Thomas, logger, Courtney, B.C., is reported to have assigned to J. McPhee.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, NOVEMBER 2, 1904 No. 40

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

PRACTICAL SHINGLE MAKER WITH small capital can get partnership. Timber supply inexhaustible; market first-class. Address Box 70, Thessalon, Ont.

FOR SALE.

RED PINE DIMENSION CUT TO REQUIRED sizes. Also two parcels of standing Timber, nearly all White Pine, good quality. PINE LUMBER CO., Pine Ont., near Cartier.

FOR SALE

2,000 acres of Hardwood Land in Antigonish County, N. S., close to railway sidings. The James River runs through the centre of 1,250 acres. Apply to

J. S. O'BRIEN,
Antigonish, N. S.

FOR SALE

In Province of Ontario

Steam Saw - Mill

Capacity 12,000 daily; Shingle and Lath Machinery and Planer, also the right to cut Timber on 4800 acres, part of which is under license and part deeded lands. The timber consists of pine (original), and growth pine, elm, basswood, oak, hemlock, ash, birch and maple. There is also hundreds of thousands cords of maple wood on this property. This is a going concern, having cut 1,200,000 ft. lumber this year. Everything required in way of horses, waggons, and sleighs. Have men in bush now taking out logs for next season. There is also 2500 pieces at mill ready for next spring's run. There is no compulsion in making this sale and the owner can give satisfactory reasons for selling. This is a good proposition for any experienced man in the lumber business who has the necessary capital. Address Box No. 174, CANADA LUMBERMAN, Toronto, Ont.

FOR SALE—DRY 6/4", 2", 3" AND 4" SOFT Elm. R. E. KINSMAN, Hamilton, Ont.

WANTED—WHITE ASH, 1", 1¼", 1½" AND 2" thick. THE LACHUTE SHUTTLE CO., Lachute, Que.

EXCELSIOR WOOD WANTED — PEELED basswood or clear spruce. RANKIN AND CO., Dundas street, Toronto. Telephone.

FOR SALE—FOR IMMEDIATE SHIPMENT, 200 Tamarac Piles, 30 ft. long, 9 inches and over, tops evened. Box 208, Burk's Falls, Ont.

WANTED — WHITE ASH STRIPS, 2¼x7⅝, 36 in. long, for delivery through the following winter and spring. Box 73, Dunnville.

FOR SALE — THE MACHINERY OF A first-class Veneer Mill, complete including engine and boilers. Address ECHO BAY LUMBER CO., Echo Bay, Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED — TO MAKE CONTRACT FOR 2x2x30" turned table legs. Maple, Birch or Beech. Bound Brook N. J., delivery. W. H. FULTON, 160 11th Ave., New York, N Y.

FOR SALE—DIRECT SAW-MILL, ABOUT six to eight M capacity; brick set boiler, engine and carriage saw; price only $400 F. O. B. here if taken at once. Address Box 4, Bothwell, Ont.

ONE 7 FOOT FAN, STURTEVANT blower, with 6 h. p. engine and 3,000 feet pipe; good as new; suitable for dry kilns or heating factories; also a sixty light dynamo. GOLD MEDAL FURNITURE CO., Toronto.

WANTED — POSITION AS BUSINESS Assistant, by Young Man with thorough knowledge of lumbering and lumber manufacturing, experienced lumber inspector, log scaler and general office man. Address Box No. 173, CANADA LUMBERMAN, Toronto, Ont.

TO LUMBERMEN OR ANYONE LOOKING for big business opening in the West.—At sacrifice, Timber Limit, new Sawmill Machinery, thoroughly up-to-date all necessary buildings, etc., ready for operation. Actual value about one hundred thousand dollars. Can be had under mortgage sale, for less than half. Apply first instance Box 177, CANADA LUMBERMAN, Toronto.

FOR SALE

A SAW AND SHINGLE MILL, CAPACITY 25 M of lumber or 40 M or over of shingles, with 2,000 acres of timber lands. Particulars on application to the proprietors. T. WHITE & SONS, Muskoka Falls, Ont.

TIMBER LIMIT FOR SALE

BERTH NO. 3 SITUATED ON THE SOUTH WEST corner of the township of Creelman comprising lots number 7, 8, 9, 10, 11 and 12 in the first, second and third concessions; good location, Vermillion river running through centre. For terms and particulars apply to W. RYAN, North Bay.

FOR SALE

WHITE PINE CLAPBOARDS

Rift Sawn, Planed and Butted. Six Grades. Write us for prices.

TRACADIE LUMBER CO.,
Sheila, N. B.

TIMBERED LAND WANTED — ADDRESS Box 176, CANADA LUMBERMAN, Toronto, Ont.

WANTED—SAW MILL IN GOOD CONDITION, 10 h.p., cheap. Address Box 59, Hawkestone, Ont.

FOR SALE — ONE DOUBLE SURFACER, Endless Bed, 26"x10". LAKING, PATTERSON & CO., Hamilton, Ont.

WANTED — GOOD LIVE REPRESENTATION in Ontario for the sale of British Columbia lumber and shingles on commission basis. For particulars write THE MENZ LUMBER Co., Winnipeg, Man.

FOR SALE—ONE CYLINDER STAVE SAW, 24" diameter, will cut slack or tight staves; it is in No. 1 running shape, and a profitable investment for any mill man. I advance satisfactory reasons for selling. Box 4, Bothwell, Ont.

WANTED — PARTY WITH PORTABLE saw mill to contract to saw from 300M to 500M Hemlock and Hardwood each season for this and two following seasons in Muskoka. Address Box 175, CANADA LUMBERMAN.

FOR SALE—SASH AND DOOR FACTORY, including 2 31 acres excellent timber. In first-class running order—complete and up-to-date machinery. In centre of large and growing market. For further particulars apply to G. G. MOFFATT, Fernie, British Columbia.

CURRENT TRADE CONDITIONS.

ONTARIO.

So long as the weather continues favorable for outdoor work there will be activity in lumber circles. Building operations are being carried on with exceptional rapidity, and the stocks of retail dealers have become somewhat broken. Many of the latter deferred the buying of lumber too long and now find that the concessions which they were offered in the summer months have been cancelled. It may not be a rising market, but it is evident that stocks are more firmly held than at the beginning of October. Importations of American lumber into Western Ontario are increasing and are serving to check any advance which manufacturers might consider was warranted by other conditions. There is not much buying either of pine or hardwoods for speculation, as the disposition seems to be to watch the trade development after the Presidential election in the United States and act accordingly. It is predicted in some quarters that pine lath is destined for higher prices. There has been liberal buying of that commodity, as also of shingles, which are exhibiting a stronger tone.

QUEBEC AND NEW BRUNSWICK.

Those who anticipated an improvement in the demand for spruce lumber in the Fall have not been disappointed. The market is stronger than at any time for months, and it is not improbable that prices will be higher at the end of the year than now. The manufacturers are handling the situation in a masterly way; very little stock is being thrown upon the market at a sacrifice and operations in the woods are being arranged for on a reduced scale. These factors are favorably influencing the market. Clapboards are one of the dullest lines among the American exports. Shingles are unchanged at $3.15 for Boston delivery, while lath are if anything a little firmer.

UNITED STATES.

Activity in lumber has subsided during the week, and the cause may be found in the approach of the election. More attention is being given to political matters than to business. The strength of the market, however, has not been impaired, but on the other hand white and yellow pine are even stronger than last week. Stocks of the latter are broken and the supply is scarcely equal to the demand. There is a larger stock, comparatively, of white pine lumber, but it is mostly in the hands of wholesalers. Dealers and consumers have been pursuing a hand-to-mouth policy and are therefore not well equipped for the winter trade. After the Presidental election there will doubtless be liberal buying for stocking up purposes. Barn grades are very scarce at Buffalo and Tonawanda, with not much hope of materially increasing the supply before the close of navigation. There is a fairly good movement of common pine. Cargo spruce is said to be a little easier, with 2x3, 2x4 and 2x6 offered somewhat liberally. Clapboards are very quiet.

It is now admitted that the input of hardwood logs during the coming winter is likely to be large, but it has as yet had no effect upon lumber prices. Basswood is selling more freely than earlier in the season and birch and soft elm are experiencing a lively demand. There is practically no change in prices.

GREAT BRITAIN.

The British lumber market is still irregular, and as the importing season is nearing an end, it is a foregone conclusion that dullness will continue until the close of the year. In London, Hull, and East Coast ports there has been a slight improvement, but in the west of England generally conditions are no better than one week ago. There have been heavy losses in the building trade at Bristol, which has accentuated the depression. Business during the past week has also been disturbed by the North Sea incident, and at time of writing the situation between England and Russia is regarded as somewhat critical. The disposition on all sides is to pursue a very conservative policy in respect to lumber buying. Some of the dealers, however, who have been running along on very light stocks for some time, now find it

necessary to increase their supplies so as to be in a position to meet the wants of their customers during the winter months, and this has made a show of activity. Canadian pine and spruce deals are firm and the business is considered to be on a satisfactory basis. Some reports state that there has been a further advance in spruce, and that several sales have taken place on the basis of £6 10s. per standard c.i.f.

STOCKS AND PRICES.

Loveland & Stone, of Cutler, Ont., will put in about 60 per cent. of their last winter's stock of logs. At Byng Inlet, Holland & Graves have camps in operation and are figuring on putting in at least 35,000,000 feet this winter.

P. G. Keyes, Secretary of the Department of the Interior, Ottawa, will receive tenders up to Wednesday, November 30th, for a permit to cut timber on Berth No. 1187, in the Province of Manitoba, containing an area of 6¼ square miles.

The Saginaw Lumber & Salt Company, of Sandwich, Ont., recently sold 2,000,000 feet of pine lumber at within 50 cents a thousand of what was offered last spring. This company will carry over 6,000,000 feet of logs and put in about 15,000,000 feet.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

OTTAWA, October 26, 1904.—Activity is reported from all sides in the lumber business of the Ottawa Valley. The railway people report an increased movement of lumber to New York and other points in the Eastern States. The movement of lumber for export to England also shows an improvement, but it is not so marked as in the case of the American trade. The early approach of the close of navigation on the Hudson canals is one of the reasons for the fall rush of lumber. American dealers have considerable stock standing in the Ottawa district yards, and they are desirous of getting this out before the close of navigation advances the transportation rates.

It is the general impression that the American market is in better shape for business, but local dealers do not hope for much beyond a general sorting up for the Fall.

Reference to the market page will show several changes in the quotations from the Ottawa district, good sidings, strips and shorts all being easier in price.

From the limits come reports of activity in the log and square timber manufacture. Labor is easier to obtain than last year, and the men are working with a better will, and it is believed will stick closer to their jobs than in previous seasons, when, strange to say, high wages made them discontented. It is generally thought that there will be a reduction of fully a third in the log cut and two-thirds in the cut of square and waney timber. Wet weather has interfered to some extent with operations.

From all reports spruce is firmer than it has been for several seasons back.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., October 31st, 1904.—The lumber trade has shown no marked change since last writing, and it is unlikely that there will be any during the remaining months of 1904 that will affect the local manufacturers so far as the cut for November and December is concerned. The 10th of December will probably see all save two or three of the mills in St. John and on the St. John River closed down for the season, to resume operations on or about the 1st of March.

Several important logging contracts have been made during the last fortnight. Compared with those of last year a reduction in the price of from 50 cents to $1 per M is the rule. The quantity will not equal that of last year's operations by at least 25 per cent., and the difference will probably be as great as 35 per cent. The wages being paid to woodsmen is from $2 to $4 per man lower than was the case last winter. Owing to the reduction in demand, men are quite plentiful. Horse-flesh is scarce and dear, good horses ranging from $190 to $225 each in price.

This winter, like last, the contracts for American logs are very small compared with what was the rule for many years prior to 1903, several American manufacturers have contracted for Provincial logs only.

Shipments of short lumber have been lighter during the latter half of the month than was the case during the first half. Stocks of cedar shingles are fairly heavy in the high grades ; six to six and one-half millions would probably cover the amount. Orders are booked for immediate delivery that will dispose of at least one-third and very probably one-half of these. Within the last fortnight the shingle trade has shown a considerable stimulus in the New England States. This stimulus has not as yet resulted in any advance in price, which has been uniform and practically stationery during the last two months.

The manifestations of an improvement in the English market, as mentioned a fortnight ago, continue, and the general impression is that the first of the year will find prices and demand equal in every way to the conditions which existed before the slump which took place early in 1904.

The shipments of English deals have been rather light during the last month.

Stocks are slowly multiplying, but it is an assured fact that sufficient will go forward during November to cover at least what will be manufactured between now and the time for closing down. In that case, taking into consideration the sales which are certain to be made during the winter months to go forward by the winter port steamers, the 1st of March will in all probability find the localwharvesentirely cleaned up so far as English deals are concerned.

The improvement in conditions in the English market has taken place so late in the year that it will probably have little effect on manufacturers' prices or on the volume of shipments during the balance of 1904, but it is confidently expected that when the time comes to resume operations, conditions will be much more favorable.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., October 24th, 1904. —It does not require any person particularly gifted with the powers of observation to see that the lumber industry of British Columbia, from the eastern boundary of the Kootenay to the Pacific Coast, is in a very depressed condition, yet Mr. Robert Kerr, passenger traffic manager of the Canadian Pacific Railway, who has just returned to the east after a trip to the west, has declared that it is flourishing. In Winnipeg, Montreal and other papers have appeared interviews with him, and all state that the lumber industry was never better. British Columbia lumbermen do not know what particular reason Mr. Kerr may have for thus misrepresenting conditions, for if he kept his eyes shut altogether while in the west he would have heard sufficient to make him aware that the lumber industry is in bad shape. In fact, some disasters may result. If so, he will no doubt affect considerable surprise. The industry could very easily be put in a flourishing condition, for at the present time about 12,000,000 feet of lumber per month comes in from Washington state. The argument has been advanced that if a duty were put on the price of lumber would be increased, but, if so, the government has the remedy in its own hands, and may repeal the duty. On the other hand, the millmen claim the price will be reduced, for with a greater volume of business lesser profits would be satis factory.

Fernie is to have another large mill, which will be erected by those already interested in the Elk Lumber and Manufacturing Company, which has one large mill there now. O. A. Robertson, of St. Paul, F. B. Lynch and O. L. Boynter, of the same city, and G. F. Ditbinner, of Minneapolis, are at Fernie this week looking after the commencement of the construction. They state the machinery will be the finest obtainable, and the capacity will be 100,000 feet in ten hours, with a cost of at least $75,000. These people are reported to have exceedingly large capital behind them, and the enterprises in which they have engaged in the west lead to the belief that this is correct. Besides the Elk Lumber and Manufacturing Company, which is a large concern, they have established a very modern mill on Red Deer Lake, in the Saskatchewan district, establishing the town of Barrows.

Local conditions are unchanged. Lumber is still cheaper than usual, remaining almost at the figure to which it was brought by the rate war, and it is expected that it will be low all winter. Many who had building operations in prospect are taking advantage of the opportunity, which means considerable in the construction of a dwelling.

Lumbermen and mill owners at Edmonton and Strathcona have arranged a new scale of prices which is much below that which has hitherto prevailed.

The Canadian Timber & Sawmills, Limited, whose property at Trout Lake has been in possession of the sheriff, has been reorganized, with three directors in Revelstoke and two in London. W. Cowan, of Revelstoke, who is heavily interested, having taken shares in payment for timber, is the new manager.

G. B. Campbell, of Glencoe, Ont., J. McGregor, Enderby, B.C., P. D. McKellar and H. Healey, of Bellingham, Wash., are cruising about the headwaters of the Tulameen river, in the Similkameen district, looking for timber suitable for ties.

TIMBER SALE.

The State of Minnesota had a timber sale in St. Paul October 21. The sale was successful as far as it went, but only 28 tracts out of 114 offered for sale were taken. On the other tracts the lumbermen declared that the appraised price was too high and declined to bid. The timber sold was nearly all good pine. In all about 40,000,000 feet were sold, at prices ranging from $3.50 to $9 per thousand, but for the most part ranging from $7 to $8.50.

The Cloquet Lumber Company was the heaviest bnyer and took 8,500,000 feet in one block at a bid of $8.50 a thousand. The highest price paid, $9 a thousand, was by the Shevlin-Carpenter Lumber Company, of Minneapolis, who are also operating in the Lake-of-the-Woods district in Ontario.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, NOVEMBER 9, 1904 No. 41

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue

FIRES.

Ford & Greer's saw mill at Stoneleigh, Ont., has been burned, and it is understood that there was no insurance.

The planing mill of E. H. Mann at Peterboro, Ont., was burned a few days ago. The loss is about $7,000 and the insurance $4,500.

The saw mill of the Laurie Lumber Company at Marysville, B.C., was destroyed by fire on October 22. A small quantity of lumber was also burned. The loss is estimated at $5,000.

CURRENT TRADE CONDITIONS.

ONTARIO.

Fine weather has permitted the continuation of out-door work, a condition which has been reflected in the lumber business. There is a liberal demand for white pine and hardwoods for building purposes, with every indication that this will continue until checked by winter weather. Export boards are a little easier on account of the slackness in the British demand, and prices generally are somewhat irregular owing to the usual desire at this season of the year to reduce stocks. The lower grades of pine are exhibiting the most firmness, 10 and 12 inch mill culls being worth from $12.50 to $13.50 at the mill. One or two sizes of hemlock are also being offered at slight concessions. The feeling is quite general, however, that the present range of prices will be maintained during the winter months. It is reported that next season's production of one of the large Ottawa Valley mills has been purchased by a Quebec shipper at the same price as was paid last year. If this report should be confirmed it would be regarded as a very favorable indication.

As with lumber, lath prices are irregular. A considerable quantity of hemlock and spruce lath is being offered at reduced prices, whereas standard 4-foo pine lath is even firmer than last week, some of the mills now asking $2.70 for No. 1.

MANITOBA AND BRITISH COLUMBIA.

There is a noticeable falling off in the demand for lumber for building purposes, as much of the work is nearing completion and the season is now too late to commence new buildings. Buying by retailers is also light, the disposition being to reduce stocks before the winter sets in. The manufacturing situation has not improved, although the mills are not cutting prices as severely as a few weeks ago, and it is said that some are holding their lumber rather than sell it at the prevailing low prices.

UNITED STATES.

The current lumber demand is remarkably good for an election week. Retail dealers and consumers are stocking up for the winter trade with some liberality, probably on the conviction that there will be a steady enhancement in values. At any rate, business is good and there are no complaints. Accounts are being well met, which is an indication of the healthy conditions prevailing in the lumber trade. The northern pine movement is quite as large as last week, although the scarcity of cars is retarding business to some extent. Chicago wholesale dealers are reported to have placed several large contracts for stock for next season's trade at an advance over the present list. Some items of pine are becoming scarce, particularly in the common grades such as No. 4 and 5 boards. Buffalo and Tonawanda report an increased demand for high grade white pine, which has been comparatively dull for some months past. Box and coarse lumber is wanted as much as ever, some good sized orders having recently been placed by box manufacturers. The condition of the hardwood market is very satisfactory. Prices are well maintained and orders are more numerous. Elm has advanced at the mills more than any other of the low priced hardwoods. Plain oak, both red and white, is still commanding a great deal of attention, while quartered oak shows indications of sharing in the improvement. There is a good call for birch, but nothing very favorable can be said of basswood, of which there are considerable stocks in first hands. The high price of basswood has caused consumers to adopt substitutes wherever possible.

The shingle market is stronger. Red cedar Perfections have been advanced ten cents at Buffalo and are now quoted at $3 60. Lath are scarce and selling freely at good prices.

GREAT BRITAIN.

The late auction sales of umber in London and Liverpool have shown a distinctly better tone, and prices in some instances have hardened. Considerable attention is now being given to the stock on hand at the close of the shipping season, and it appears that it is likely to be less than was anticipated earlier in the year. If it should be found to be no more than sufficient to meet the requirements of the winter and early spring trade, some heavy buying by those who have kept out of the market may result. In London there is a greater tendency to be optimistic and consequently business is more actve. Sales at Liverpool are also more numerous. In pine and spruce the tone is still good. Regular stocks demand fair prices and there is a feeling that the entire supply will be required. Third quality pine deals are by no means plentiful.

The question of the opening prices for next season is being discussed, and it would appear that values are likely to be somewhat higher than those now ruling. Shippers are showing a determination to raise prices to a basis which will give a fair margin of profit.

The schooner Invictus sailed last week from Weymouth, N.S., for Cuba, with lumber.

STOCKS AND PRICES.

The Taplin, Anderson Company, Limited, Novar, Ont., have sold their past season's cut of hemlock to M. S. M. Long, of Hamilton. The stock comprises about 800,000 feet.

Receipts of lumber at Bay City, Mich., during the month of October were 17,123,714 feet, and at Saginaw 3,761,524 feet. The total receipts of lumber at Bay City from the opening of navigation to November 1st were approximately 87,000,000 feet.

The prices of slack cooperage stock are none too firm, with heading lower. Quotations at Buffalo are : First-class elm flour barrel staves, $10.25 to $10.75; 2nd class, $7.50 to $8; 1st class heading, 7 to 7½ cents ; 2nd class, 5 to 5½ cents ; 6-foot coiled hoops, $9.50 to $10.

Since the opening of navigation a total of 335,211,849 feet of lumber has arrived at the Tonawandas by vessel, as against 350,076,725 feet for the corresponding period last year. While the receipts during the current month may be large, it is a foregone conclusion that this season will not equal last year in respect to the amount of stock received by vessel. Shipments of lumber from the Tonawandas over the Erie canal last month were 24,554,051 feet, the largest for any month of the season.

Logging operations throughout Northern Minnesota are seriously menaced by a scarcity of labor. The logging this winter will be conducted over an extensive area and there will be many exceptionally large camps. The operations on the Indian reservations will be greater this season than they were a year ago. The companies who own timber along the northern boundary line are reported to be contemplating an extensive cut and they are already sending out orders to the employment agencies for men. Along with this there is a desire among the logging companies to get their operations under way at an early day and they are therefore pressing in their demands for men. At no point in northern Minnesota are there very many men desirous of going to work and the condition is working a serious interruption with logging plans. The present scarcity of men has already raised the rate of wages, and from $30 to $35 per month is freely offered. Free transportation is readily granted. The employment agencies in the northern towns have been striving hard to secure men to fill their orders but thus far they have found it an impossible undertaking.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S. : Steamer Florence, for London, 56,121 ft. hemlock deals, value $505 ; 27,964 ft. spruce deals, value $344, by Furness, Withy & Co., agents. Schooner Leah A. Widden, for New York, 40,373 ft. spruce scantling, value $400 ; 780,000 ft. spruce lath, value $1,600.

Cuza, for New York, 714,200 ft. laths. Schooner G. H. Perry, for Boston, 147,282 ft. spruce plank, 4,730 ft. spruce scantling. Barque Actæon, for Tralee, Ireland, 452,888 ft. spruce deals, 21,439 ft. spruce deal ends. Schooner Romeo, for Westerly, R.I., 44,685 ft. plank, 5,082 ft. scantling, 5,278 ft. pine boards, 984,000 cedar shingles. Schooner Ida May, for Weymouth, Mass., 92,532 ft. boards, 16,000 ft. clapboards, 450 ft. shingles. Steamer Cunaxa, for Cardiff and Barry, 1,801,309 deals and battens, 474,925 ft. scantling, 69,414 ft. ends.

WHITE PINE STOCKS AT THE MILLS.

Mr. F. H. Ruger, of the Rogers-Ruger Company, Superior, Wis., gives the AMERICAN LUMBERMAN his views of the white pine stocks at the head of the lakes, which we reproduce below :

"At the end of the sawing season this year lumbermen at the head of the lakes find themselves with very light stocks. No 5 boards have all been sold to within thirty days of the saw and the green lumber is too heavy to ship out on any rate of freight, as when green No. 5 boards weigh in the neighborhood of 5,000 pounds to the thousand feet. Stocks of No. 4 and No. 3 boards are practically all sold and the same is true of No. 1 boards. No. 2 stock is about the only item in which there is a surplus. As stated, this is the condition at the end of the sawing season with only a few of the mills to run during the winter. The outlook for stocks next spring is not encouraging and there cannot but be a scarcity of every grade of white pine boards. Supplies of uppers and siding grades are as low as they ever were in my experience, though there is a better supply of the lower grades of siding material than in the better qualities. Supplies of shop lumber also are light. There is a fairly good stock of the lower grades of selects, also No. 2 common.

"It has been so wet in the woods that comparatively little has been done so far, as the heavy rains of late have made it impossible to start up the camps. It is difficult to even approximate the quantity of logs that will be put in this winter, but in view of the number of mills that finished their timber this year it will scarcely be possible to bring the total production of next year up to a point equal to that of 1904."

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

ORDER AGAINST FREIGHT RATE DISCRIMINATION.

A dispatch to the Toronto Globe from Ottawa, dated November 3, says : " The Railway Commission to-morrow will make an order upon the C. P. R. to stop its discrimination against cedar lumber in British Columbia and fix the same rate for it as for pine, spruce and other kinds of lumber. The complaint against discrimination was made by the British Columbia Lumber and Shingle Manufacturers' Association."

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Company, under date of October 22nd, furnish the following particulars of the Barbados lumber market :

"We have to report the arrival of the schooner Harry Troop to ourselves with a cargo of 75,000 feet merchantable, 130,000 feet second quality, and 25,000 feet third quality white pine, which we had previously sold to arrive at $26, $20 and $16 respectively. With one cargo on the way, which has been contracted for, and two small cargoes which we are expecting, we look for lower rates, as after dealers' pressing requirements are supplied, they will only buy at reduced values. There has not been any further arrival of spruce, and the position of our market for this is as last advised. There are no transactions to note in shingles. The Bravo from Gaspe, Que., is overdue, and as stocks meantime are getting used up, her cargo should meet with a fairly good market, especially for Long Gaspe. Prices of Cedar Laying may probably be somewhat affected in consequence of a reported large cargo on the way."

THE HARDWOOD DEMAND.

Reviewing the hardwood lumber situation the, Mississippi Valley Lumberman says : During last year the demand for hardwood lumber was better than it has been during the larger part of the current year, and the manufacturers and jobbers were able to put prices at a rather high figure. During this year they have lowered the lists some, and the prices more. Last year basswood was strong, but the competition with poplar and cottonwood from the south has weakened it to some extent, so that it is not now bringing the high figures it commanded in 1903. In Wisconsin and Minnesota the oaks are staples and have usually commanded prices that made them the best property of all the hardwoods. That is true to-day. Northern maple has been sacrificed unnecessarily. It has been sold at prices that did not represent its intrinsic value nor its comparative value, and which were not warranted by the conditions of supply and demand. Elm is scarce and the market is good from the seller's point of view. Birch is about the most plentiful of the northern hardwoods, but the demand has been large. For interior finish and as a veneer it has attained a place that will not be lost to it for some time, if indeed it is ever lost.

The principal, and perhaps the only, reason why hardwood lumber on the whole has not been as strong this year, aside from the condition that always prevails—that of the production being in the hands of small mill and timber owners—is the same as that which has affected all lines of business during the year. It is the natural conservatism that comes in the presidential year. Fortunately, the election is less than a week away, and with every prospect that there will not be enough of a change in the general attitude of the government toward business enterprise, even though there might be a change of party, to affect it seriously. The prospect for the new year presents a most hopeful outlook, and hardwood should share it with other kinds of lumber and all lines of business. The market has been weaker during the year, but it has not approached anything like demoralization.

LONDON LUMBER PRICES.

Canadian pine and spruce brought the following prices at an auction sale held by Churchill & Sim, London, England, on October 27th :

PINE. — Ex. Loughrigg Holme, from Quebec — 9-11 ft. 3x0-14 in. 3rd quality, £9 5s per standard of 1,980 feet; 14-15 ft. 3x8 in., £8 10s. Ex. Hirundo, from Quebec—12-13 ft. 3x8 in. unassorted red, £7 5s. Ex. Hermes, from Quebec — 9-11 ft. 3x11 in. 3rd quality, £9 10s. Ex. Verdandi, from Quebec—6-8 ft. 3x7-11 in. 3rd quality, £8. Ex. Lobelia, from Quebec—10-15 ft. 3x9 in. unassorted red, £8 10s. Ex. Montezuma, from Quebec —6-18 ft. 2x6 in. unassorted red, £7 5s; 6-18 ft. 2x5, £7; 6-18 ft. 2x4, £7 10s.

SPRUCE.—Ex. Atbera, from Saguenay, Que.— 16 ft. 3x9 in. unassorted, £8 15s; 12-16 ft. 3x11, £8 5s. Ex. Brantingham, from Quebec — 13 ft. 3x7 in. 4th quality, £7 10s. Ex. Cunaxa, from West Bay, N. S.—3-21 ft. 4x5 in. 1st, 2nd, and 3rd quality, £5 5s; 5-24 ft. 4x4, £5 5s; 4-20 ft. 2x4, £6 15s. Ex. Heros, from Quebec—9-12 ft. 2x6-10 in. unassorted, £6 15s; 9-12 ft. 2x5, £6 15s; 6-8 ft. 2x4-8, £6. Ex. Verdandi, from Quebec—10-15 ft. 3x4 in. 5th quality, £5 10s.

A quantity of birch timber, from Quebec, sold as follows : 16-24 in., 57s 6d per load of 50 cubic feet; 14-18 in., 52 6d; 13-16 in.,47s 6d.

COOPERAGE STOCK SITUATION.

Messrs. Sutherland, Innes & Company, of Chatham, Ont., report upon cooperage stock conditions as follows :

There has been quite a lull in the demand for cooperage stock for the last month, especially in the apple-barrel trade, the rush which was expected not having materialized, although trade has opened up this month very much better, and during the last few days orders have been coming in freely for apple-barrel material.

The flour-barrel trade is also opening up, and millers are beginning to store up their stock for use during the winter months. This is going to make quite a rush in flour-barrel stock for some little time to come. The general demand for cooperage stock throughout the country, however, has been comparatively light, although no lighter than is usual during the month of September, and an improvement has already set in in the general demand, which is more than likely to be maintained for the balance of the year.

No. 1 elm staves are comparatively scarce, but there are quite a few No. 1 mixed wood staves coming up from the South, and also manufactured in the North, which are being used considerably by the coopers, on account of the cheapness in comparison with elm staves.

Mill-run staves, especially apple-barrel stock, appear to be quite plentiful, and prices are such that coopers are able to sell their barrels freely. The buyers of apples held off for a considerable time in purchasing their barrels, but are now getting in with a rush, and this and next month should be a very busy time for the apple-barrel coopers.

The beet-sugar season has also opened up, and there is a good demand for sugar-barrel stock from the sugar-beet factories. The lime and cement trades have been comparatively quiet, but even these trades are looking up and using more barrels during the last two weeks than they have for some time. On the whole, the outlook for a good demand for stock is very bright, and, from present appearances, there is going to be enough stock to meet the demand. The only shortage which is likely to occur will be in No. 1 elm staves. Hoops and heading are fairly plentiful, and can be obtained at reasonable prices.

The tight-barrel stock situation is somewhat different. The demand is heavy and the supply is limited. While prices sagged off somewhat during the month of September, they are now stiffening up again, and tight-barrel stock is not only in good demand, but prices are advancing. It looks at present as if there is going to be a general clean-up of tight-barrel stock by the end of the season.

BUSINESS NOTES.

DeLaplante & McBurney have opened an office in the Manning Arcade, Toronto.

A. E. Adam, general store and lumber, D'Israeli, Que., is offering to compromise at 60 cents on the dollar.

The Canada Lumber Manufacturing Company, of North Tonawanda, N. Y., are reported to be in financial difficulties, DeLaplante & McBurney having issued a writ of attachment against them.

The Cascade Lumber Company, of Vancouver, B. C., is apparently temporarily embarrassed, their mill premises and property on False Creek having been placed under seizure at the orders of R. J. Skinner, Provincial Timber Inspector. It is stated that the company is indebted to the Department of Lands and Works for timber royalties. The company was organized less than three years ago, the present partners being Messrs. Tait and McTavish.

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, NOVEMBER 16, 1904 No.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

720-721 UNION BANK BUILDING, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

WANTED—SAW MILL IN GOOD CONDITION, 50 h. p., cheap. Address Box 59, Hawkestone, Ont.

FOR SALE — ONE DOUBLE SURFACER, Endless Bed, 26"x10". LAKING, PATTERSON & Co., Hamilton, Ont.

WANTED — GOOD LIVE REPRESENTATION in Ontario for the sale of British Columbia lumber and shingles on commission basis. For particulars write THE MENZ LUMBER Co., Winnipeg, Man.

Planing Mill—North of Calgary, in splendid running order. Five thousand is ample capital to secure this and make from eight to ten thousand yearly. LOCATORS.

Mention this publication, and write us for above or any other business, and address THE LOCATORS, Winnipeg, Manitoba.

The assignment is announced of C. Gingras & Fils, manufacturers of doors, sashes, etc., Shawinigan Falls, Que.

CURRENT TRADE CONDITIONS.

ONTARIO.

City trade in lumber continues to be quite brisk, as there is no abating in building operations. Were it not for the near approach of the winter season retail dealers would be heavy buyers of lumber, as in most instances their stocks are badly broken, but they are taking every precaution against carrying a large supply through what may prove to be a severe winter. There is, therefore, quick buying of small lots to meet immediate requirements, which gives the market a lively appearance. The country demand for pine is a little dull, but there is a very satisfactory trade in hardwoods, which are going into the hands of the furniture and implement factories and other consumers. Nevertheless, there is no dearth of stock, nor is the demand more than sufficient to sustain prices. The seller meets the argument that the prices of hardwoods are higher in Ontario than in Michigan and Wisconsin, from which districts some maple and birch have recently been imported into the western part of the province. Birch is in good demand, but the supply is quite plentiful.

The strength of pine lath has been maintained. Two or three dealers have lately been large buyers, and if we can judge from present indications, higher prices are likely to rule in the near future. The range of No. 1 in Toronto is from $3.15 to $3.25.

QUEBEC AND NEW BRUNSWICK.

The position of the manufacturer of spruce lumber is doubtless improving. The fall demand has made inroads upon the supply, and the quantity to be carried through the winter is not likely to be exceptionally large. But it is in respect to next season's operations that the outlook is the most favorable. Logging operations were commenced much later than usual and the cut of logs will be considerably curtailed. The total cut on the St. John river this year is not likely to be over 70,000,000 feet, which is little more than half that of last season. Owing to lower wages the cost of logs will not be excessive, and if the price of lumber should advance, as now seems probable, the manufacturers should realize a fair profit on next year's output. Buyers are willing to close contracts at current prices for next season's production.

New Brunswick cedar shingles have stiffened slightly. Extras are now selling at $3.20 on Boston rate of freight, Clears at $2.80, and Second Clears at $2.25. Clears are showing the most strength.

UNITED STATES.

A few days always elapse after a Presidential election before business settles down, and it is yet too early to know definitely the effects upon the industrial enterprises of the country of the return of the Republican administration. It may be said, however, that some revival in trade has already taken place. The near approach of winter is likely to confine the improvement in conditions to narrow limits, but it is almost certain that the foundation will be laid for a healthy revival next spring. The lumber movement during the past week has been quite satisfactory, the railroad demand being a more important factor than for many months past. Yellow pine is very strong, the demand being equal to the supply. The northern pine trade is proceeding along the lines which we have previously outlined; the lower grades are active, while uppers are little more than holding their own. There is some weakness in a few of the middle grades, which have not received a great deal of attention of late. The strength of the lower grades has been reflected in Norway, which is exhibiting a stronger tone. The closing down of some of the eastern mills has had a good effect upon spruce, and at Boston prices on a number of items have been advanced. For spruce boards, 6 inch and up wide, 10 feet and up long, $17 is being obtained.

The demand for oak, birch, and maple lumber is on the increase, while basswood is still a slow seller. Maple flooring is regarded with favor at present prices and a further advance would seem to be in order.

GREAT BRITAIN.

The reports of the British lumber market received this week are almost universally favorable. The feeling is quite general that prices have touched bottom and that a gradual improvement is likely to take place during the winter months. The stocks in many instances are considerably lighter than one year ago, while it is not anticipated that much lumber will be sent over on consignment by the regular winter liners. A rather sharp advance in the price of Swedish lumber is reported. The demand for pine and spruce is not particularly active, but prices are holding their own and some sizes are finding a market at an advance. Whereas a few weeks ago £6 10s per standard c. i. f. London and Liverpool for an ordinary St. John specification was almost unattainable, sellers are now talking £6 15s as the price which will be obtained before the close of this month. Quebec 3x9 third spruce brought £9 at a recent auction sale. Of the hardwoods rock elm is par-

ticularly strong. The ock is light and it has been found comparatively easy to advance prices, which now stand at 3s 6d to 3s 7d per cubic foot. Birch planks have also stiffened on account of diminished stocks.

STOCKS AND PRICES.

McLachlin Bros., of Arnprior, recently received the first boom of logs from their new Petewawa limits.

At Buffalo No. 1 pine lath is held at $3 75 and No. 2 at $3.25. Red cedar shingles are quoted at $3.90 for Perfections, $3.60 for Eurekas, $3.25 for Extra Clears, and $2.85 for Stars.

About half a million logs will remain unsawn at Three Rivers, Que., when the mills close down shortly. This is due to the lateness of the drive this season and to the unsatisfactory arrangement of the Upper St. Maurice booms.

A. F. & D. Mackay, of Liverpool, England, sold a quantity of spruce and hemlock deals, boards and ends by auction on November 7, which realized the following prices: 3x11 9 ft. and up, £7 12s 6d; 3x9 13 ft. £7 2s 6d; 3x9 12 ft., £7 5s; 3x9 9/11 fts., £6 15s; 3x7 15 ft. and up, £6 5s; 3x7 12/14 fts. £6; 3x7 9/11 fts, £6 5s; 2½x7 9 ft. and up, £6 2s 6d; 4x7 and up, 9 ft. and up £6 10s; 3x12 and up, 9 ft. and up, £6 7s 6d; 3x10 9 ft. and up, £6 7s 6d; 3x8 9 ft. and up, £6; 6 in. scantlings, £5 5s; 5 in. scantlings, £5; 4 in. and under scantlings, £4 15s; spruce boards. £5 10s; spruce ends, £4 17s 6d; hemlock deals and scantlings, £5 5s; pine, £5 15s.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., November 7th, 1904.—Lumbermen in British Columbia have gained a point by the decision of the Railway Commission in regard to the rate on cedar. There is a forty cent rate on fir, hemlock and spruce to points as far east as the eastern boundary of Manitoba, but it was fifty cents for cedar. The contention of the company was that cedar is lighter, but the commission does not, evidently, consider this argument good, for it has ordered that the rates shall be identical. It should be the means of stimulating trade to the Northwest.

Trade generally does not show any features, and there has been nothing happening locally of particular interest in a commercial way. The cut price of lumber forced a month or so ago by the opposition of dealers has remained, and it is likely that lumber will be much cheaper all winter than it has been during the summer. Generally 10 per cent. is allowed off the list price, but this is being increased to 25 per cent.

The export trade is quiet. Were it better the E. K. Wood Company, of San Francisco, which has large timber limits on Vancouver island, and which is waiting its chance to build, would erect mills. F. J. Wood, the vice-president, was over last week from Bellingham, and stated that the company will build when conditions warrant. The British ship Halewood cleared with 1,737,472 feet of lumber last week for Callao, having loaded at the Hastings mill. The American schooner Balboa, 651 tons, is now loading for Chili, and the German barque Pallas, 1,351 tons, for Callao.

To further show how people with money to invest view the situation, the directors of the Ontario-Slocan Company, who were out here from Orillia, Ont., have decided that the present is an inopportune time to enlarge their facilities, and have postponed the improvement indefinitely. E. F. Ferris, of Traverse City, says he represents people of Michigan who will spend half a million dollars in an enterprise at Kamloops if the Government will reserve the limited Canadian market for Canadian timber. He has located 10,000 acres of limits in the valley of the North Thompson river, which will be developed when conditions improve.

Depression was the cause of the sheriff taking charge of the property of the Canadian Timber and Sawmills, Limited, Trout Lake, and last week the same official seized the assets of the Cascades Lumber Company, of this city. They were put up at auction on Saturday last, but the amount of the indebtedness could not be realized, so the sale was left over for a week. Two other small companies are also reported to be in financial difficulties.

S. C. Smith, of Vernon, finds business good for his sash and door factory. He has made extensions and improvements of late, and for a week or so has been working the plant night and day to fill orders for the Territories.

Mills in the eastern portion of the province are getting along fairly well. Some have shut down for the season. There is considerable home demand for lumber, and the surplus is being shipped to the Northwest. It was feared in the beginning of the year when so many mills were starting up that there would be an overproduction, but this was prevented by the shutting down of large mills at the coast.

Messrs. Bryden & Johnstone, whose mill at Salmon Arm, near Kamloops, was burned some time ago, will rebuild. The new plant will have a daily capacity of between 15,000 and 20,000 feet.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

THE HARDWOOD SITUATION IN THE EAST.

The American Lumberman thus reviews the hardwood lumber trade situation in the Eastern States :

Under normal conditions the great consuming demand for hardwoods in this country lies between Chicago and Boston, although, in recent years, there is a widening of the field in which hardwood factories are busily employed—the extension of the territory being south and west and the growth of a substantial and varied character.

With respect to the character of the trade at this time all advices are favorable. The trade of the first half of the year was not eminently satisfactory in either volume of business or in prices attained in the hardwood trade of this great section, but within the last few weeks a marked revival of demand all over this territory has been noted. Every wholesale and manufacturing lumber concern is now overwhelmed with inquiries which are being followed up to a marked extent with orders. It is rare that any hardwood institution's order books are not well supplied with orders for hardwoods to go east.

With the increased demand price conditions also are showing manifest improvement. Poplar, which has been frequently referred to during the year as being a "dead cock in the pit," is once more assuming its just place in esteem and demand and its price has already recovered to a normal and commensurate value. Plain oak, both red and white, is scarce and high, and there is at this time a vigorous search in progress for supplies of the commoner varieties of oak. The same may be said of chestnut ; there is at all times a steady demand for low grade chestnut and with the increased call for poplar and oak there comes with it a more lusty inquiry for chestnut. As to cherry, which is something of a luxury at all times, the Pennsylvania and West Virginia holders of the precious wood are firm in their views. Maple is occupying an excellent postion at present in the east, in both volume of demand and price. The only two hardwood items that seem to be in the least dragging are birch and basswood. They are rapidly recovering, however. Neither of these woods is in excessive quantity in the hands of the producers and next spring will surely bring as great a shortage and as high a range of values as were seen last spring.

On the whole the hardwood situation in the east is most promising, and in addition to this favorable condition in that section the export trade is showing a considerable revival and the conditions abroad are much better than they have been at any former time in the year. All signs point to a very prosperous immediate future for the hardwood industry of the nation.

THE GLASGOW MARKET.

Edmiston & Mitchell's monthly timber circular furnishes the following particulars of the Glasgow market:

The tendency of the market during the past month has been on the whole rather more favorable than for some time, and while there has been no inflation of prices, still they may be said to have been fairly well maintained. At the same time it has by no means been an active market, and it only admits of a favorable comparison with the extremely dull times which have existed recently. The imports from Canada have been for some time very moderate, and this has had a steadying effect on values, so that there seems every hope of the common anticipation as to a slump in prices towards the end of the year being on this occasion falsified.

The Clyde shipbuilding returns for October show that 27 vessels, aggregating 43,495 tons, were launched, compared with 23 vessels of 45,819 in the corresponding month last year. A fair number of orders have been placed recently, and the work on hand is considerably more than at this period last year, so that prospects for the future are looking better than they were.

Housebuilding is dull and likely to continue so for some time, as it has been overdone of late, with the inevitable result of a great many unlet houses in the city and neighborhood.

WHITE PINE.—The import consists of about 350 loads waney pine. There have been a few small sales of waney and square pine, but business continues quiet. Prices are firm, but stocks are heavy.

OAK.—There has been no import during the month and no sales of any importance. Stocks are heavy and more than sufficient for prospective requirements.

ELM.—The demand for good rock continues, and the stock is very rapidly taken up. Prices are firm. Stock of soft wood is still large and moving off slowly.

QUEBEC BIRCH.—There was no import during October, and the last transaction reported is a shipment of 16 inch, which came in at the end of September, and was disposed of at 1s 10d. There are several enquiries in the market, and a shipment of nice logs would meet with a ready sale.

N. B. BIRCH.—There was an import of 210 logs from St. John this month, averaging 13½ inches, which is reported to have been sold at 16d "ex quay." Of planks the stock is now considerably reduced and there is rather more enquiry.

ASH.—The demand is reduced to the very smallest dimensions nowadays, and although the stock on hand is small, there is no anxiety on buyers' part to secure it. Values are unchanged at round about 2s for 15 inch average.

DEALS, ETC.—There has been a fairly active business during the month, and imports have been coming in a little more freely. Stocks of all kinds, with the exception of red deals, are of normal dimensions and prices are firm. Current values are as under: Broad First Pine Deals—£32 to £34; 11 inch, £29 to £31; ends and non-dimensions, £22 to £24. Second Pine Deals—11 in. and up, £17 to £19; ends and non-dimensions, £13 to £14 10s. Third Pine Deals—11 in. and up, £11 to £14; ends and non-dimensions, £9 10s to £10 10s. Red Pine Deals—9 and 11 in., £10 to £11; narrows, £7 to £8 10s. First Pine Srdings and Strips—9 to 10 in., £23 to £24; 11 to 12 in., £25 to £26; 13 to 14 inch, £27 to £28. Spruce Deals—9 inch and up, £8 10s; 7 and 8 in., £6 15s to £7 10s. N. B. Spruce—9 inch and up, £7 10s to £8; 7 and 8 in., £6 5s to £7.

The hoop and stave mill of W. M. Drader at Chatham, Ont., was completely destroyed by fire on November 10, the loss being about $20,000.

In the "Wanted and For Sale Department" of this issue, The Locators, of Winnipeg, Man., offer for sale some splendid lamber properties in the west.

The mill of the Cascade Lumber Company, Vancouver, B. C., was put up at auction last week. The highest bid obtained was $1,600, which the sheriff refused to accept, and the mill will again be offered for sale this week.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, NOVEMBER 23, 1904 No. 43

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING. MONTREAL.

720-721 UNION BANK BUILDING, WINNIPEG.

31 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

WANTED—SAW MILL IN GOOD CONDITION, 50 h. p., cheap. Address Box 59, Hawkestone, Ont.

FOR SALE — ONE DOUBLE SURFACER, Endless Bed, 26"x10". LAKING, PATTERSON & Co., Hamilton, Ont.

WANTED — GOOD LIVE REPRESENTATION in Ontario for the sale of British Columbia lumber and shingles on commission basis. For particulars write THE MENZ LUMBER Co., Winnipeg, Man.

WANTED — PARTY WITH PORTABLE saw mill to contract to saw from 300M to 500M Hemlock and Hardwood each season for this and two following seasons in Muskoka. Address Box 175, CANADA LUMBERMAN.

WANTED — TO MAKE CONTRACT FOR 2x2x30" turned table legs. Maple, Birch or Beech. Bound Brook, N. J., delivery. W. H. FULTON. 160 11th Ave., New York, N Y.

FOR SALE.

Send for our free book "Business Opportunities." LOCATORS.

WANTED — A HOT AIR OR GASOLINE engine (preferably hot air) of from ½ to one horse power, either new or second hand. Address "Pine," care CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is not possible to discern any material change in the lumber situation. Conditions governing the market are favorable, the fine weather being responsible for a liberal demand for building material. The number of permits obtained in Toronto during the past week shows that building operations are likely to continue active well into the winter months, the demand for residential and factory accommodation being responsible for unusual energy towards the completion of buildings under construction. The demand for low grade boards is slightly less urgent than of late but prices remain firm. Hardwoods are a little quieter and the trade is gradually settling down to a winter level.

Many of the large pine mills are closed for the season, but a few will continue in operation until the end of the month or later. The mill man would be better satisfied if the stocks were lighter, but he feels that there is no necessity to reduce prices, for the lumber is likely to be worth more money next year. Indications favor a gradual hardening of prices during the winter months.

QUEBEC AND NEW BRUNSWICK.

The pine timber market is slightly stronger, the reduced operations of the coming winter having had a stimulating effect upon prices. Square pine ranges from 35 to 45 cents per cubic foot, and Ottawa waney, 18 to 20 inch average, 60 to 70 cents. No red pine timber of any account is being made this season and prices are therefore nominal. Sellers and buyers for the British market have not yet closed any transactions, but a slight advance upon last year's figures seems to be expected. The position of spruce lumber continues to steadily improve as the result of lighter logging operations and more favorable reports from the British market. It is now reasonably certain that not more than 10,000,000 feet of deals will be carried over at St. John, which is a much smaller quantity than was anticipated earlier in the season. Extra cedar shingles are still being sold at $3.20 for Boston delivery.

MANITOBA AND BRITISH COLUMBIA.

Building operations in Winnipeg are much less active and the demand for lumber is showing a corresponding decrease. Finishing material is in good enquiry, as many of the buildings have only reached the point where this class of lumber is required. Country orders are falling off, and although many of the retail dealers are carrying light stocks, they are not buying above immediate requirements. For the first time there appears to be a disposition to prevent the further cutting of lumber prices on the Coast. It is rumored that a new price list for both lumber and shingles will be adopted in the near future, and that some of the largest manufacturers are hopeful of devising a plan which will improve the situation.

The improvement in the log market has no doubt influenced sentiment in favor of higher prices for lumber and shingles. The stock of logs is said to be reduced to 10,000,000 feet, whereas prices have advanced fully $2 and now range from $5 to $7 per thousand feet.

UNITED STATES.

The position of the lumber market of the United States is distinctly one of strength. There is very little evidence that buyers are curtailing purchases, for many of the dealers report a more active movement than for many weeks past. Southern pine is receiving the heaviest call, for the reason that the prices had been lowered to a point which encouraged consumption, whereas white pine prices were held comparatively firm on account of the limited production. We are told that stocks in the Lake Superior district are lower than for years, one estimate placing the amount of unsold white pine lumber at 20,000,000 feet. There is more uniformity in the demand for white pine than has been the case at any previous time this fall. The lower grades have been active all season, but now uppers and selects, and even the middle grades, are moving with some freedom. Prices at manufacturing points have stiffened, but dealers have not followed the advance, probably owing to the fact that they are carrying comparatively larger stocks than are the manufacturers. The supply at Buffalo and Tonawanda is about the same as one year ago. Our Buffalo list this week shows a slight advance in a few grades, 2 inch dressing being marked up to $38, 1 x 12 inch box to $21, and mill culls to $17.

Hardwoods have fallen back a little and business is only moderately active. Plain oak in 1¼ inch is the best seller, followed by birch, maple and elm. Hemlock is holding its own, prices in the Saginaw Valley being $12.50 to $14.

The advancing tendency in lath is still in evidence. Buffalo and Tonawanda dealers report a low stock and a good consumption, with prospects of higher prices in the near future. Hemlock lath has been advanced 25 cents in Wisconsin.

GREAT BRITAIN.

Sentiment concerning the British lumber market has greatly improved, but there has not been a corresponding improvement in the consumption. The outlook is hopeful, however, and if the quantity of lumber received during the months of November and December should be small it would greatly assist towards the restoration of prices to a more satisfactory basis. The imports into London this year have been upwards of 150,000,000 feet less than last year, and consequently the stock on hand is not excessive. Many importers are now holding their pine lumber for higher prices, as they fear that the shippers on this side may considerably advance their selling prices before next season's production is marketed. There is a distinctly better feeling in the spruce market, £7 per standard c. i. f. Liverpool being the price for which shippers are now holding. It appears, therefore, that instead of prices declining towards the close of the year, there is likely to be a steady appreciation in pine and spruce values.

STOCKS AND PRICES.

Pork barrel staves are quoted in Chicago at $22 to $23, and tierce staves at $26 to $27.

About half the usual number of men are now in the woods along the Miramichi river, in New Brunswick, and it is certain that the cut of logs will be greatly curtailed.

The car scarcity having been relieved, prices of Washington red cedar shingles at Chicago and Minneapolis are easier. The current quotation on Clears is $2.60, and on Stars $2.20.

The Northern Land & Lumber Company, of Port Arthur Ont., have entered into a contract with the Canadian Northern Railway to supply 200,000 ties during the coming winter.

The Gull River Lumber Company, of Coboconk, Ont., have on hand 1,000,000 feet of pine and hemlock lumber and 7,000 cords of wood. As their entire stock of logs was not cut out this year, they will be in a position to start their mill early next spring.

The Scott Lumber Company, of Fredericton, N. B., have purchased from F. B. Edgecombe and George H. Eaton the McConnell logs which were hung up last spring. There are about 4,000,000 feet, mostly located on the Wild Cat and Little Black and Smoky rivers, in Quebec. The company have also leased from Mr. Eaton a large tract of land in Quebec, and will operate it during the coming winter.

A dispatch from Vancouver, B.C., dated November 14th, says: William Shannon sold to-day to three millionaire lumber men of Michigan six hundred million feet of standing timber on Toba river, B.C. The timber is ideally situated, being penetrated in several places by waterways, one channel leading to its centre. The purchasers, who are well known in the lumber world, asked to have their names withheld from publication at present. They have heavy contracts in connection with the Panama canal construction. They will erect a mill on Toba river, cut the lumber there and ship direct to the isthmus. Operations on the construction of the mill will be commenced on the first of the year. Cash was paid for the timber, which the purchasers say will log absolutely clean.

Messrs. S. P. Musson, Son & Company, of Barbados, report as follows: "The schooners Coronia and Pilgrim have arrived, with 193,000 feet of white pine, which we placed at $26 for merchantable and $20 for second quality. The schooner Clarence Shafner brought 220,000 feet of white pine, which had been contracted for some time ago. Following these, the Ida M. Shafner brought 103,000 feet of white pine and 13,000 feet of spruce to our neighbors, for which they could obtain only $25 for merchantable and $19 for second quality white pine, and $16.60 for spruce, which was all second quality. The Mercedes has arrived to ourselves with 150,000 feet of spruce and hemlock. For the spruce we obtained $21.87 for shippers and $18.57 for second quality, and for the hemlock, $18.39; while for a small lot of spruce plank by this vessel we secured $20.37 as customary. Our market is now well supplied for the present with white pine, and with two cargoes of spruce contracted for and on their way, the same can be said for this kind of lumber as well, and we expect lower values for next arrivals. The Bravo arrived on 28th ultimo with 467,000 Laying Cedar shingles and 285,000 Long to ourselves, the balance of her cargo consisting of Long Cedar to our neighbors. Of the Laying Cedar we placed 140,000 Clear Whites at $2.91, and the extra No. 1 and No. 1 at a round price of $2; but in view of two large lots which are coming down, we had some difficulty in selling at this price. For the Long description we obtained $5.17, while we understand our neighbors had to accept $5.05 to $5.10 for their various lots. There does not appear to be much demand for shingles at the moment and we expect to see lower prices, especially for Laying, of which, as previously mentioned, large shipments are reported to be on the way."

WANTED.

A copy of the monthly CANADA LUMBERMAN for March, 1903. Fifteen cents will be paid for the first copy received at the publication office, 106 Confederation Life Building, Toronto.

BRITISH LUMBER PRICES.

Canadian lumber brought the following prices at an auction sale held by Chu chill and Sim, London, England, on November 10th:

PINE.—Ex Belgian, from Quebec, 20-22 ft. 1 xii in. 1st quality red, £12 15s. per standard. Ex. Truma, from Quebec, 12-20 ft. 3 × 9 in. 3rd quality red, £12 15s.; 17-18 ft. 2 × 11, £7 15s.

SPRUCE.—Ex Nordhabet, from Quebec, 12 ft. 3 × 9 in. 3rd quality, £9. Ex Oxonian, from Quebec, 9-13 ft. 3 × 7-15 in. 1st quality, £11 10s. Ex Theodore Willie, from Quebec, 12 ft. 3 × 9 inch, £6 5s. Ex Atbara, from Saguenay, 12-16 ft. 3 × 11 in. unassorted, £8 15s.

BIRCH TIMBER.—Ex American, from Quebec, 14 logs, 20 in. and up, 55s. per load of 50 cubic feet; 20 logs 18 in. and under 20, 55s. Ex Obi, from Quebec, 20 logs 18 in. and under 20, 52s. 6d.; 18 logs 18 in. and under 20, 50s.

FREIGHT RATES ON CEDAR.

A protest has been received by the Railway Commissioners from the Canadian Pacific Railway against the decision that cedar shall be carried at the same rate as other lumber. The C. P. R. claims that its rates cannot be interfered with until the profit is one per cent. of construction cost. The commissioners contend that, while they may not be able to interfere with the rates, they can prevent discrimination. It is likely the matter will be referred to the Supreme Court.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

BUSINESS NOTES.

W. S. Tait, of Vancouver, B. C., has purchased, at a sheriff sale, the property of the Cascade Lumber Company, of that city, for $3,200. The property is valued at about $5,000.

John Murray, timber inspector, acting for the Department of Lands and Works, has seized a shingle mill at Roche Point, on Burrard Inlet, B.C., on account of timber dues. It is understood that the Department had been looking to W. T. Farrell, of Vancouver, for the settlement of the account, and no money being forthcoming, the seizure was decided upon. The mill has a capacity of about 40,000 shingles per day and is equipped with a Clipper machine.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

OTTAWA, November 21st, 1904. — The outlook as viewed by Ottawa lumbermen is improving. For the past couple of years a levelling has been going on in the United States, and now that field is in better shape than it has been for some time for the reception of Canadian lumber. The settlement of the Presidential question has also cleared the air. The advance in iron, looked on hereabouts as the barometer, is a third sign which is taken as indicating an improvement in the lumber market.

The Ottawa operators do not look for any boom, but they confidentially expect that there will be a marked improvement in the market.

As far as the English market is concerned, there has been little or no change. November is the month when the contracts for deals, etc., are usually made, but there has been little doing in this direction this month. It is stated that one small cut sold at prices below those paid a year ago.

Discussing the situation, an exporter said the other day that the Canadian white pine has to meet the Baltic red pine in the English market now. Formerly the English manufacturer gave the Canadian lumber the preference, but now the lower priced Baltic product has the call. The market and yards are overcrowded with Canadian stock, and it is highly improbable that any contracts for future cutting will be made for a month or two yet.

The fine open weather of the present Fall has been conducive to active operations on the timber limits, but in the Ottawa district there will be a shortage of at least thirty per cent. in the log cut. In the Temiskaming district Klock & Company will not take out any logs or square timber whatever, and other firms will curtail their operations. The Saginaw Lumber and Salt Company that operated north of Chelmsford, in the Georgian Bay district, have also decided to take an "off" year, and have sold their equipment.

The James MacLaren Company, of Buckingham, have closed their mills down for the season. The cut was not as large as in former seasons, for the reason that the mills were two months later than usual in starting owing to the high water.

Reference to the price list shows but few changes this week. Cedar shingles are easier, but other lines remain unchanged.

CANADIAN LUMBER SHIPMENTS.

From Annapolis, N. S. : Schooner Foster Rice, for West Indies, cargo lumber, by Clarke Bros.

From Halifax, N. S. : Steamer Almora, for Glasgow, 1,219,240 ft. spruce deals, value $12,195. NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., Nov. 16th, 1904.—The lumber trade has shown no marked change in this district during the last two weeks. The English market is, of course, attracting most attention from the local manufacturers and developments in that direction are being eagerly awaited. Taken on the whole, the year 1904 has been unsatisfactory so far as the trade in the United Kingdom is concerned; in fact, it has shown less activity by far than has been the case for many years past. The effects of this lack of stimulus have been various and far-reaching. Perhaps the most important from the Canadian point of view has been the curtailment of logging operations, which has been mentioned in previous letters, and the cutting of logging contract prices.

The manufacturers show much caution and apparently do not intend to tie themselves up in any way until they are fairly sure as to what conditions will rule the trade next year, but in spite of this fact on all sides the impression seems to be gaining strength that the end of the next three months will find vastly improved conditions in the English markets.

According to information received they base this conclusion on the following facts:

(1) The conditions of the English market during the last ten months have been unnatural; the prices received have not been in keeping with the cost of the raw material and of the manufacturing.

(2) The demand has been a long way below the average and it is reasonable enough to suppose that this condition cannot last much longer.

(3) Shipments with which the market was being flooded at the time of the slump have been greatly curtailed in volume and there is not sufficient lumber in sight at present or available during the next few months to cause any important excess of supply.

(4) The output of Eastern Canada for next season will probably be smaller than for many years past and it is almost sure that the causes which led to this curtailment will have an exactly similar effect in all lumbering countries and districts which depend largely or altogether upon the markets of the United Kingdom.

There has been no general change in prices of spruce in the English market as far as is known at present writing, but it is an assured fact that the situation looks decidedly better from the standpoint of those who wish to sell and that a recovery in prices is about due.

A specification of merchantable spruce deals containing say 45 per cent. 7's and 8's, 45 per cent. 9's, and 10 per cent. 11's and wides, would be worth from $12 to $12.25 per M s. ft., f.o.b. steamer at New Burnswick port, 2/3 price fourths and ends.

Freight rates to the West Coast are offered freely at 35s. per standard.

Stocks of English deals are not nearly so heavy as it was thought earlier in the season would be the case. The manufacturing season is now practically ended so far as Eastern Canada is concerned, save for a few mills which are situated on the sea-coast and can therefore be operated all through the winter, although there are many mills thus located that close down for two or three months at this season of the year. Shipments from this port have been rather light during the last six weeks and stocks have increased somewhat during that time, but in spite of this fact it is doubtful if there are any more than 8,000,000 feet of English deals in stock and for sale at this port, certainly not more than 10,000,000 feet.

Alfred Mitchell and Daniel McRae, operating a saw mill at Powassan, Ont., have dissolved partnership.

THE MOUNTAIN LUMBER MANUFACTURERS' ASSOCIATION.

A meeting of the Mountain Lumber Manufacturers' Association was held at Nelson, B.C., on November 13. Among those present were: A. Leitch, C. D. McNabb, M. B. King, W. F. Gurd, Cranbrook; J. A. Dewar, Ymir; W. C. Wells, M.L.A., Palliser; F. W. Jones, Golden; Joseph Deschamps, Rossland; T. Ludgate, Arrowhead; J. J. Billings, J. Genelle, Nakusp; I. C. Schermerhorn and C. I. Archibald, Nelson.

A. Leitch, president of the association, occupied the chair, and W. F. Gurd was secretary. A large portion of the time was taken up in discussing the internal affairs of the association, special rates and other matters. The principal matter decided on was to again approach the Dominion Government on the importation into Canada from the United States of rough lumber free of duty, and to press for a tariff of $2 per thousand feet. A carefully drawn up petition will be sent to Ottawa setting forth the views of the association, and a special committee was appointed to visit the coast cities in connection with the movement and with other matters of interest to the association.

The dry kiln of the Hazelmere Lumber Company at Hazelmere, B.C., was burned a few days ago, the loss being about $2,000.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, NOVEMBER 30, 1904 No. 44

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

720-721 UNION BANK BUILDING, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

WANTED — GOOD LIVE REPRESENTATION in Ontario for the sale of British Columbia lumber and shingles on commission basis. For particulars write THE MENZ LUMBER CO., Winnipeg, Man.

We are at your service for above and all other Businesses. Write at once for our book of "Business Opportunities." Address THE LOCATORS, Merchants' Bank Building, Winnipeg, Manitoba.

CURRENT TRADE CONDITIONS.

ONTARIO.

The close of the month of November finds the lumber trade of this province in a healthy condition. There is a seasonable volume of white pine moving from the yards to consumers, as the weather has been favorable for outdoor work. This is not the season when the demand is likely to increase, as there is always a disposition to curtail obligations towards the close of the year. Manufacturers are receiving a number of inquiries from United States dealers, but many of these are believed to be for the purpose of ascertaining the feeling of the trade as to prices rather than with a view to placing orders. The ready buyer has no difficulty in finding plenty of pine lumber of the common and higher grades, but mill culls and box are less plentiful. Notwithstanding that these latter grades have declined but little in comparison with the better qualities, they are likely, if present indications count for anything, to be the first to be advanced in price.

The lath situation has become interesting. No. 1 pine has been bought up quite heavily and there is very little in the hands of manufacturers. The mill price in Western Ontario is now about $2.70, and predictions have been made that this figure will appear very low when compared with the price which is likely to be reached before next spring.

QUEBEC AND NEW BRUNSWICK.

While the spruce lumber market is quiet, the tone continues strong when compared with the conditions which prevailed during the summer months. There is a good demand for specifications suitable for the American market, where certain kinds of narrow dimension stuff are commanding a premium. Clapboards, which have been dragging all season, are now holding their own a little better, and it would not take a very active buying movement to advance prices.

New Brunswick cedar shingles are gradually getting into a stronger position. The product is sold up pretty close to the saws on every grade except Extras, which are now firm at $3.20 to $3.25 for Boston delivery. Clears are very scarce and easily bring $2.80. It is estimated that the cut of the winter mills will be below the average and the tendency of prices during the next three months should be towards a higher basis.

UNITED STATES.

A moderate degree of strength continues to pervade the lumber market of the United States. Last week the Mississippi Valley Lumbermen's Association adopted a new price list making an advance on several items, including piece stuff and timbers, No. 1, No. 2 and No. 4 boards and lath. The quantity of lumber on hand is comparatively small, notwithstanding that the season has been favorable for manufacturing. The bulk of the white pine lumber is now in the hands of wholesale dealers, and they are not likely to make any price concessions. The Eastern States retail dealers are stocking up in some quantity. Box grades continue to have the call, while shop and better is reported slow. At Buffalo and Tonawanda prices are slightly irregular, the entire range of the leading grades of pine being given as follows: Uppers, $80 to $90; selects, $68 to $85; fine common, $53 to $80; No. 1 cuts, $38 to $72; No. 2 cuts, $25 to $55; No. 3 cuts, $21 to $27; No. 1 mouldings, $50 to $52; No. 1 dressing, $28 to $45; No. 1 barn, $24.50 to $33; No. 2 barn, $21 to $27; No. 3 barn, $18 to $24; box, $16 to $25; No. 2 box, $17.

The price of spruce frames are stronger and only a few mills are selling as low as the list, which is $19 for 9 inch and under

and $21 for over. Random is still offering at Boston at $17 for 2 x 3 to 2 x 7, and $18 for 2 x 8 and 9. Hardwoods are not much changed since last writing. Basswood is moving a little more freely, but prices are still easy. Birch is in good request.

GREAT BRITAIN.

Confidence in the British lumber market is gradually being restored. Business is improving and prices in most instances are hardening. Dealers who have held off buying are coming to the conclusion that they allowed their opportunity to pass and are now coming into the market at current prices. The improvement is very gradual, as might be expected, but before next spring there is likely to be a considerable advance in most lines. Spruce prices are firm at about £6 15s. per standard for St. John parcels. The results at the late auction sales have been more satisfactory. A quantity of 3 × 9 first, second and third quality Wolfe River spruce, in long lengths, brought £8 10s. per standard and some 3 x 8 unassorted Quebec regulars £7 10s., 2½ × 7 from the same port bringing £7 15s. Hardwood planks and deals sold at £7 10s., which is considered an excellent result and due to the small stock on hand. Shippers should remember that this is a retail quotation. Nevertheless, there has been a substantial recovery in birch planks, as is shown by the following extract from the Timber News, London, England: We have advised in our report from time to time that hardwood planks were bound to increase in price. The proof of the correctness of the advice is that about three months ago the ex quay price of Halifax stock was about £6 15s. to £7. The latest sale for similar stock is over £8, and shippers are asking higher prices, for early shipment and will no doubt realize their anticipations, as the advices from the other side are to the effect that stock for immediate shipment is very scarce.

STOCKS AND PRICES.

The St. Anthony Lumber Company, of Whitney, Ont., will take out about 40,000,000 feet of logs during the coming winter.

Cameron & Company, wholesale lumber dealers, Ottawa, have on hand for immediate shipment a large block of good white pine sidings and shorts, also a quantity of birch and basswood in all thicknesses.

During the past month 2,000,000 feet of deals for the Liverpool market were shipped from R. & T. Ritchie's yards at Aylmer, Que. They have a quantity of logs in their pond and will operate their mill as late as possible. They carried on logging operations all summer on their Mountain limits.

J. A. Cody has decided to clear up his bush about two miles from Newmarket, Ont. He expects to have 150,000 feet of maple, beech, and elm, which has been contracted for, and 70,000 feet of hemlock, which will be cut into inch boards for sale.

The saw mills at Three Rivers, Que., cut about 75,000,000 feet of lumber during the past season. The mills located at this point are owned by Alex. Baptiste, Great Falls Lumber Company, Burrill Lumber Company and Union Bag & Paper Company.

Buffalo quotations for slack cooperage stock remain at $10.25 to $10.75 for first-class flour barrel staves, 7 to 7½ cents for first-class basswood heading, and $9.50 to $10 for 6-foot coiled hoops.

Hemlock is selling in Michigan at $12 for piece stuff and $13 for boards.

G. Keddy and Albert Zwicker, of Mahone, N.S., have purchased the timber of the Cook property near Bridgewater, and will establish a saw mill there.

The first steamer ever loaded with lumber at Portland for the Argentine Republic is about to sail. It is the Osceola and will carry 700,000 feet of Canadian spruce.

Some millmen figure that 25 per cent. of the No. 3 and better pine to be cut at Duluth next season has been contracted for. The lower grades for next year are astonishingly well sold out.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, etc. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," care CANADA LUMBERMAN.

LATH PRODUCTION AND DEMAND.

At the present time the demand for white pine lath exceeds the supply and prices are largely controlled by the seller. The supply of lath at the Lake Superior mills, throughout Michigan and in the Georgian Bay district has almost entirely passed out of first hands. Commenting on the situation, the American Lumberman says:

All the manufacturers along the lakes have sold out their stocks of lath. The wholesale and retail dealers now have all the lath in sight and they hold but a small percentage of the demand. In such a situation where is the supply to come from for the residue of the season? and where are the stocks for the late winter and early spring trade?

Prices of lath are now a consideration of less importance than is the ability to obtain lath at all. Holders of what lath there are can about make their own prices and the response will be prompt.

The interesting question arises, What has caused this season's scarcity of lath in the Michigan markets as well as in the entire middle west and eastward? Undoubtedly the decline of northern pine manufacture and the demand for box and crating lumber which has induced the use of as much of the log as possible for such purposes. To these causes must be added the extraordinary consumption of lath this year as a result of extensive building operations.

As the production of strictly white pine, as distinct from norway pine, diminishes, white pine lath become also a diminishing quantity. This shrinkage in volume is accentuated by economies in manufacture, which results in the use of all possible material in the log for purposes other than conversion into lath. Time was when the log was literally slabbed and the slabs were converted into lath to a large extent. Now the slabs are made as thin as possible and these slabs are resawed into box and crate stuff, or into any form that renders it usable. This reduces the percentage of lath that results from the conversion of the log. What is true of white pine is equally so of norway. Hemlock production has increased within recent years, and hemlock lath are in high favor wherever their merit is known. But there are wide sections in the prairie states in which hemlock lath are in disfavor simply because consumers are unused to them. Prices of good hemlock lath are about on a par with those of white pine. The production of hemlock lath has not yet attained sufficient magnitude to make good for the decline in the output of pine lath, nor is it likely to.

It should be observed that the scarcity of lath has arisen in the face of the use of a variety of metal and other kinds of lath. For ordinary building purposes nothing seems to have displaced the lath that is turned out by the saw mills. This is because wood lath is the cheapest ceiling material that can be found, no matter how high prices may go. So it seems that so long as the saw mills shall run and their lath machine adjuncts shall continue in operation there will be a demand for their product, even at prices that would have been deemed excessive a few years ago.

In view of the fact that lath stocks this fall are about cleaned up, and stocks during the winter cannot much accumulate, it looks as if the lucky holder of good supplies at present stands to make a good profit on them.

Redwood	24	1,400
Gumwood	14	960
Spruce	3	120
Total	66,764	3,258,448

ROCK ELM PRICES.

TORONTO, November 29, 1904.

Editor CANADA LUMBERMAN :

DEAR SIR,—In your issue of November 16th, referring to trade in Great Britain, you state, "Of the hardwoods Rock Elm is particularly strong. The stock is light and it has been found comparatively easy to advance prices, which now stand at 3s. 6d. to 3s. 7d. per cubic foot."

We are afraid that this will give millmen the idea that this can be obtained for the ordinary run of stock, whereas we find it difficult to secure more than $50.00 for 1sts and 2nds. Of course, we can readily understand that you refer to Rock Elm timber in long lengths.

Yours truly,
C. S. POWELL & Co.

LOGGING CONDITIONS IN NEW BRUNSWICK.

The fall rains on the Upper St. John river have worked against the lumbermen in their operations. They have made heavy muddy roads and the hauling of supplies has been done with difficulty and attended with unusual expense. The ground, however, is now frozen and covered with about two inches of snow, and the work is going along easily and more satisfactorily. The cut this year, as stated in an earlier issue, will not be more than one-half of that of last season. On the Upper St. John John Kilburn, for instance, will not get out more than 2,000,000 feet of spruce ; John Morrison will cut 3,000,000 of cedar ; W. J. Noble will take out 6,000,000 to 7,000,000 for Cushing ; Cunliffe will cut 5,000,000 for W. H. Murray on the Allegash. The Scott Bros. will take about 9,000,000 from the St. John. Four millions of this are J. McConnell's old logs now on the yards on the Wildcat, where they will cut another million and a half ; 1,600,000 will come from the New Brunswick Railway Co.'s lands and 600,000 from lands some miles above the city ; the balance from other districts along the St. John. On the Magaguadavic Scott Bros. will cut a million, bringing the total operations for the season up to 10,000,000.

On the Allegash the work will be pushed along with activity. On this section the cut will be proportionately larger than in other districts of the St. John area, the output being principally for the Van Buren mills. For this concern Potts will cut 2,000,000, Chainard 2,000,000, McChaine 5,000,000, and Robert Aiken, operating on the same river, will cut 3,000,000 for Stetson, Cutler & Co.

The lumber cut on the Miramichi will also be reduced to about half of last year's, which was between 85,000,000 and 90,000,000 on the North and the South West.

New Orleans, La.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.

VANCOUVER, B. C., November 21st, 1904.—Lumbermen in Vancouver are more hopeful in regard to conditions than they have been. The trade with the Northwest Territories has been better than was expected, and since the American mills have got rid of most of their surplus stock the dumping at slaughter prices may not continue much longer. Still there are evidences of depression, and the fourth of the smaller mills is in the hands of the sheriff for the satisfaction of creditors. Were conditions good, these could have pulled through.

There is talk of the federal member for Vancouver moving for the appointment of a commission to enquire into the conditions affecting the lumber industry in British Columbia. Anyway, he has promised to continue the fight for a duty of $2 per thousand feet of lumber imported from the United States.

American manufacturers dislike to acknowledge that British Columbia shingles are better in quality than those manufactured south of the line, and even state there is no foundation to such a statement. Notwithstanding, Mr. H. S. Stine, representing Barnes & Mauk, of Toledo, Ohio, who was in the city recently and who spent ten days investigating the shingle industry of the province, contracted for the output of two mills, besides securing a lot for immediate delivery. He said the timber was better, and while the shingles might not be better sawed, they were better packed.

Local millmen are strongly of the opinion now that price slashing should be stopped, and there is talk of a new price list being issued early in January. Twenty-five per cent. off the list price is the discount now obtaining, instead of 10 per cent. as formerly, and it is stated that in instances it is even lower. The owners of shingle mills are considering the adoption of some plan for their common welfare, the market in that line suffering from over-production.

Logs are beginning to get dearer, the figures having advanced from $3.50 to $5 per thousand to $5 to $8 per thousand. The small logger may again do business, and those who bought up large quantities some time ago will realize.

There is talk locally of Japanese capital being interested by Japaese for the manufacture of lumber for export to Corea and Manchuria as soon as the war is over. The market will be a virgin one, and the Japanese think they are in a better position than anyone else to engage in the trade. They do not think the depression will affect them.

Michigan capitalists, represented by Daniel F. Atland, have paid spot cash for 600,000,000 feet of fine timber, easily accessible, on Toba Inlet. They purpose erecting a large mill and engaging in the business with the eastern American cities which will follow the opening of the Panama canal. They also have contracts in connection with the construction. This deal had been ending since last spring.

The Kamloops Lumber Company are re-building their mill at a cost of $75,000.

The Mundy Lumber Company, of Bradford, Pa., will erect a large mill at Three Valley Lake, near Revelstoke.

The Canadian Timber and Sawmills, Limited, will pay 80 cents on the dollar. A public meeting held in Trout Lake City decided to ask the Government to cancel the licenses held by the company unless all wages were paid immediately.

CANADIAN LUMBER SHIPMENTS.

From St. John, N. B.: Schooner John C. Gregory, for Fort de France, 160,150 ft. pine boards. Schooner John C. Gregory, for St. Lucia, 190,470 ft. boards, 11 spruce spars. Branch Offices:

IMPERIAL BUILDING, MONTREAL.

720-721 UNION BANK BUILDING, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

FOR SALE—A QUANTITY OF TIMBER OF Ash, Cedar, Spruce and Tamrack, cut to order, for winter and spring delivery. Apply JAMES MCKEOWN, Vasey P. O., Ont.

WANTED — GOOD LIVE REPRESENTATION in Ontario for the sale of British Columbia lumber and shingles on commission basis. For particulars write THE MENZ LUMBER CO., Winnipeg, Man.

WANTED — PARTY WITH PORTABLE saw mill to contract to saw from 300M to 500M Hemlock and Hardwood each season for this and two following seasons in Muskoka. Address BOX 175, CANADA LUMBERMAN.

WANTED, POSITION BY GENERAL OFFICE man, age 31, having both mechanical and business experience in lumbering and lumber manufacturing, sawmill and railroad construction, A1. references.—Address with particulars BOX 180, CANADA LUMBERMAN, Toronto.

FOR SALE.

RED PINE DIMENSION CUT TO REQUIRED sizes. Also two parcels of standing Timber, nearly all White Pine, good quality. PINE LUMBER CO., Pine Ont., near Cartier.

FOR SALE—TWO CARS OF ELM LUMBER 1" to 4" thick, one car Red Oak 1" to 4" thick, also W. Ash and Bass wood lumber. We have about 60 large W. Ash trees besides a lot of smaller ones which we intend to get out and saw this winter, large trees would average in size from 15" to 25" square and 25' to 45' long Address BENJ. SHERK & SON, Sherkston, Ont.

FOR SALE

2,000 acres of Hardwood Land in Antigonish County, N. S., close to railway sidings. The James River runs through the centre of 1,250 acres. Apply to

J. S. O'BRIEN,
Antigonish, N. S.

WANTED—SECOND-HAND SWING HEADing Saw. Box 4 Bothwell, Ont.

FOR SALE—HEMLOCK BARK, ABOUT 60 cords. Address R. J. DOUGALL, Hallville, Ont.

FOR SALE.—Fifteen cars 1", 2" and 3" dry birch. — Address "BIRCH," c/o CANADA LUMBERMAN.

WANTED—WHITE ASH, 1", 1¼", 1½" AND 2" thick. THE LACHUTE SHUTTLE CO., Lachute, Que.

EXCELSIOR WOOD WANTED — PEELED basswood or clear spruce. RANKIN AND CO., Dundas street, Toronto. Telephone.

FOR SALE, FOUR CARS BASSWOOD, FIVE cars inch Birch, 10 cars heavy Birch. Address BOX 181, CANADA LUMBERMAN, Toronto

WANTED—TO BUY TWO TO FOUR MILlion feet Hemlock Sawlogs on Georgian Bay and Lake Huron. Address GODERICH LUMBER CO., Goderich, Ont.

FOR SALE—60 H.P. HORIZONTAL RETURN Tubular Boiler, good as new, bargain for quick turn-over. Address ALFRED RUSSEL, 22 Victoria Square, Montreal, Que.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

SPRUCE FOR SALE—FOR NEXT SPRING and summer delivery, cut to required sizes. Our logs are 12 feet long. Address THE CHARLEVOIX LUMBER CO., Quebec, Que.

Will contract to take it from stump, manufacture and put over rail, or give free use of mill and site to cut it up. Bargain if sold quick. Apply, MANAGER, 261 King Street West, Toronto. Telephone, Main 4533.

CURRENT TRADE CONDITIONS.

ONTARIO.

There is the usual tapering off in the lumber demand that comes with the approach of the end of the year, but favorable weather has kept business more active than usual at this season and consumption has been fairly heavy. Indications point to some buying in a retail way during the winter months, as very few dealers have on hand a sufficient stock of lumber to carry them through the winter. The feeling as to the spring trade is somewhat optimistic, although it is a little early to venture a prediction. The improvement in the British market is being felt on this side, prices for export stock having advanced slightly. Twelve inch boards in long lengths are being held about $1 higher than in the early fall. Very little contracting for next season's production has taken place, but the report comes from Ottawa that the manufacturers there are in favor of asking an advance upon the prices which were obtained one year ago. Hemlock prices are steady and would probably advance but for the competition from Southern pine.

Mill prices on pine shingles are from five to ten cents higher than two weeks ago, while lath is also firmer. No. 1 hemlock lath has followed the lead of pine and is now quoted at $2.10 at the mill.

NEW BRUNSWICK AND NOVA SCOTIA.

The spruce situation continues to show improvement, although trade is quiet. There is a great scarcity of certain sizes and grades in New York, and some of the Canadian mills have booked considerable orders for export to that city as well as to Boston. The water mills are mostly closed down and the steam winter mills will not be running much before January. Nothing is being done in respect to British trade, but the opinion prevails that there will be an advance in prices as soon as buyers begin to figure on their requirements for next season.

There is no change in New Brunswick shingles, but spruce lath has declined in price as the result of heavy shipments. The New Brunswick product is worth about $2.10 at St. John and American product, $2.35, which is a decline of about 15 cents.

UNITED STATES.

There are some indications that the lumber demand is settling down to a winter basis, but there are so many buildings still to be completed that the call for finishing material is considerable. The trade as a whole is in a very satisfactory condition and a heavy demand is anticipated after the turn of the year. With large crops of corn, oats and cotton, and little less than an average yield of wheat, the purchasing power of the farmer is greater than it has been for years, and this is expected to be the foundation for a period of industrial activity which will extend at least through the coming year.

Buffalo dealers report a material increase in the number of inquiries for white pine lumber. In many cases the buyers are anticipating their early spring requirements, as there is some probability of a shortage in the supply before the opening of navigation next spring. Some of the Chicago dealers have new lists making such advances as were necessary to bring their prices more in line with those at the producing centres. The new list issued by the Mississippi Valley Lumbermen's Association has stimulated rather than checked the demand, it being regarded as substantial evidence of the trend of the market.

From New York, Buffalo and Boston come reports of a liberal call for hardwoods. The strongest feature is plain oak, but there is also an excellent demand for birch. Rough maple and maple flooring are moving to some extent, the latter being in good demand for factory purposes.

The scarcity of lath is an indication of the amount of building which has been in progress. No. 1 white pine have been

sold in Chicago during the past week as high as $4. Spruce lath is much more plentiful and is selling in the Boston market at $3.25 for 1⅝ inch and $3 for 1½ inch.

GREAT BRITAIN.

This week we are advised that severe weather has interfered with trade in the United Kingdom, but notwithstanding business has been quite satisfactory. Confidence is gradually returning. The cotton industry has revived, manufacturers are now able to obtain their supply of raw cotton at a very reasonable price, and the outlook for that branch of trade is much brighter. This in turn has benefitted the lumber trade. Some wholesale dealers are showing a disposition to defer purchases of lumber for next season until after Christmas, but others are of the opinion that there will be an advantage in purchasing at present prices, as any change in quotations is likely to be in the direction of an improvement. The London pine market is showing a decided firmness. Retail dealers who have been holding off have thought it wise to begin to replenish their somewhat depleted stocks and all the good lots of lumber have been quickly taken. Spruce is also very strong, and as stocks are gradually becoming reduced, the tendency of prices seems likely to be upward.

STOCKS AND PRICES.

William Jamieson is again operating this winter near Bloomfield Station, N.B., and expects to take out about 700,000 feet of logs.

L. J. Howe, Acting Deputy Commissioner of Provincial Lands for Manitoba, has invited tenders for a permit to cut timber on Berths Nos. 21 and 23 in that province.

L. J. Tweedie, Acting Surveyor General, Fredericton, N.B., will offer for sale on December 14 a two square mile timber berth, situate on the Albert Settlement road, Westmoreland County.

The Department of the Interior, Ottawa, are asking for tenders up to January 4th, 1905, for a permit to cut timber on Berth No. 1195, in the Province of Manitoba. The limit contains about six square miles.

The Sprague Lumber Company, of Winnipeg, have closed down their mill for the winter, after having cut about 9,000,000 feet of lumber. The company are operating quite extensively in the woods this winter.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Company report as follows regarding the Barbados lumber market :

The schooner "Clara" from Mahone Bay, N. S., arrived during the fortnight with 106,000 feet of Spruce, which had been placed some time ago at $21.50 for shipping, and $16.50 for second quality, but we understand that this is rather short of the quantity sold, and although there is still another cargo on the way which is also provided for, we can report our market as slightly stronger, and value next arrival at about $21.50 for shipping. In white pine, we note a sale of 129,000 feet ex "Virginia" via Martinique, which being represented to be a very a fine cargo of all merchantable, secured a purchaser at $26.13, but proving on delivery to have a large portion of refuse, an allowance of $5, instead of the customary $4, was made on this. Dealers are now fairly well supplied, and we must look for lower prices for next receipts.

The only arrival of shingles consists of 757 bundles of Red Cedar Laying ex "Orinoco," which failed to secure a purchaser, and have been stored by consignees along with others of same description by previous steamers. Owing to the very dry weather the demand for all kinds of shingles has been very slack, and although there is only a very small stock of Gaspe in the market, we do not think better prices than those last advised would be obtained for next arrivals, unless quality was very superior. Cedar Laying are in fair supply and dealers' ideas have been much depressed by the report of two cargoes now on the way.

Since the above was compiled the "G. S. Troop" has arrived from Liverpool, N.S., with 75,000 feet of white pine, 18,000 spruce, and 9,000 hemlock, which has been sold at $25.66 merchantable and $20.06 second quality white pine, 22.06 for spruce, and $19.06 for hemlock.

BIRCH PLANKS.

Among the side lines of the timber trade, birch deals occupy a humble though useful place. The birch of New Brunswick and Nova Scotia takes kindly to stain, and some hundreds of standards are cut up annually by chair and couch manufacturers to masquerade as walnut or mahogany finished suites. To the tin-plate box trade birch deals are well-nigh indispensable, and the consumption from this source is also large. As a general rule there is no difficulty about supplies, and stocks are usually more of an incubus than otherwise. At the present time, however, buyers appear to have been caught napping, and, with short supplies, prices are up to close upon £8 c.i.f. At Liverpool the stock is within unusually small compass, and enquiries are numerous. In the Bristol Channel district, where these goods are largely bought, there is reported to be hardly a deal in first hands. The jump in the price of this—the cheapest hardwood—will be keenly felt by consumers, who have for so long been accustomed to cheap and regular supplies.—Timber Trades Journal, London, Eng.

BUSINESS NOTES.

W. F. Lawrence, planing mill, etc., Maple Creek, N.W.T., is asking for an extension of time.

The assignment is announced of Rohm & Strohm, carrying on business as lumber merchants at Caron, N.W.T. A meeting of the creditors will be held at the office of William Grayson, solicitor, Moose Jaw, on December 20.

The H. Herrmann Lumber Company, of New York, advise us that they have secured the property at East 125th street and Harlem river on a long leasehold, and will remove one of their down-town yards to the new premises on February 1, 1905. They will erect a modern factory and dry kilns for the manufacture of all kinds of woodwork, trim and dimension stock for the furniture and organ trade, etc. At their Broome street and East River yards they are at present carrying 5,000,000 feet of hardwoods.

You should have an advertisement in the Twenty-Fifth Anniversary Number.

FIRES.

The excelsior mill of Stephen Bros., at Windsor Junction, N S., was burned last week. The loss is $5,000, there being no insurance.

The Rat Portage Lumber Company have again suffered from fire, their sash and door warehouse at Brandon, Man., being completely destroyed last month. The loss will be upwards of $15,000.

The saw mill of J. D. Sowerby & Company at Oak Bay, Que., was destroyed by fire recently. The mill was being operated by John and Richard Sowerby, sons of the late J. D. Sowerby. It is understood they will rebuild.

MIRAMICHI LUMBER SHIPMENTS.

The barque Valona, loaded by D. & J. Ritchie & Company, sailed from Chatham, N.B., on November 26, being the last lumber laden vessel from Miramichi for this season. The total shipments from that port for 1904 are as follows:

	Vessels.	S. ft.
F. E. Neale.....	25	39,000,000
Snowball Co., Ltd	16	20,000,000
W. M. Mackay.....	8	11,000,000
D. & J. Ritchie & Co.	14	11,000,000
E. Hutchison.....	6	8,000,000
Geo. Burchill & Sons.	3	4,000,000
Damery & McDonald.	2	1,500,000

The total shipments of lumber for the season 1904 were about 94,000,000 sup. ft., as compared with about 100,000,000 last year.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., Dec. 1st, 1904.—The coming of winter has brought the beginning of a season of quiet in manufacturing circles in this section that will probably last at least until March 1st next, and it will be April 20th before the mills are all running at their full capacity. The freezing of the coves and booms wherein the logs are kept, which has taken place quite early this year, has already caused a cessation of operations at six mills and several others will close down during the next few days. To saw all winter a manufacturer must have logs piled in the Narrows (which does not freeze), but in only two or three cases has this been done this year, and then with no important quantity. In spite of the fact that such a large quantity of logs was cut last winter on the St. John, such difficulty was experienced in rafting at Fredericton and in driving farther up the river, that at no time during the season was there any surplus worth mentioning in the immediate vicinity of St. John and immediately available. There are now, it is estimated, in the vicinity of 30,000,000 feet of all marks of logs in or near the booms at Fredericton. The first of these will not be rafted to any great extent before mid-May. The stocks of logs in St. John are small and are nearly all frozen in and will not be available before mid-April, hence there will be comparatively little done in a manufacturing way before that time. This is very disappointing to the mill-owners generally, who, earlier this year, were looking forward to a long manufacturing season next year.

Reports from the camps in all districts tell of ideal logging weather and conditions. In up-river districts there has been just enough snow for yarding purposes. In the lower counties there has been no snow as yet, but the swamps have been frozen hard for several weeks past and all other conditions tend to make a successful season.

Since last writing the only change in price of New Brunswick products is in that of spruce lath, which has dropped from $2.30 to $2.10, f.o.b., St. John. American product laths are quoted at $2.35 as against $2.55 a few weeks ago. The improvement in price of a month ago caused a heavy increase in the volume of shipments. The market was too sensitive to bear up under these offerings, hence the slump mentioned above.

An advance in freight rates to American ports has occurred since last writing. Charters for long lumber are now being made to Boston at $2.50 per M and to New York at $3.50.

TIMBER LIMIT TRANSACTIONS.

W. H. Parsons, of New York, who owns the controlling interest in the Bay Shore Lumber Company, which recently bought the timber limits, mill and property of C. M. Bostwick & Company at Great Salmon River, N. B., is reported to have sold his interest in this property to David S. Cowles, of New York, and Hon. F. C. Whitehouse, of Topsham. The latter gentleman has for many years been the head of the Bowdoin Paper Company.

WANT REDUCTION IN STUMPAGE.

It is understood that a movement is on foot to petition the Ontario Government to reduce the stumpage charge on pine timber. It will be remembered that at the last sale of timber limits new regulations were imposed fixing the stumpage charge at $2 per thousand feet on saw logs and five cents per cubic foot on board timber, as compared with a former charge of $1.25 and 2½ cents. It is contended by many lumbermen that the new rate is too high, and the Government will be asked to lower it.

The McClure Lumber Co., of Detroit, are sending out a very artistic calendar showing excellent portraits of four celebrated actresses—Julia Marlowe, Maxine Elliot, Ethel Barrymore and Fritzi Scheff.

THE OUTLOOK FOR LUMBER.

In reviewing the white pine lumber market, the Mississippi Valley Lumberman comments on the outlook as follows :

The condition of lumber stocks everywhere and in all hands is one which assures strong prices at the very outset of the new year. The amount of lumber in the hands of the retailers was never so small as it is at the present time. This has been brought about through the conservative policy adhered to by the dealers. They have bought stock during the past season in small quantities to meet the current demands of their customers. There is, therefore, practically no lumber in the country. The manufacturers have succeeded in disposing of their cut unusually close to the saw and their stocks on hand at the present time are small and badly broken. There are some large individual stocks, but in the aggregate the amount of lumber now on hand is considerably below what it was a year ago. The mills have followed a policy of curtailment in their cut and the entire amount of white pine manufactured during 1904 is the lightest in many years. There is, therefore, a very limited supply of white pine on hand to meet the demand which is sure to come at the opening of the year.

The wealth of the country is perhaps the strongest feature in the present situation. Prices for farm produce have attained the highest average level in ten years. Among certain grains, they are higher than ever before. This era of high prices comes at a time when the crops are not small and when there is an abundant yield of everything except wheat. The corn crop is the largest in the history of the country and it is selling at prices indicative of scarcity rather than abundance. Live stock prices have been gaining ground. There is an advance in values for all the commodities which enter into commerce. In connection with the crop situation it must be noted that the aggregate crop this year is 7.7 per cent. greater than that of a year ago, and this crop will sell for higher prices than have been realized in many years. It is the most profitable crop the farmer ever harvested in the United States. Manufacturers who submitted their views of the situation at the recent meeting of the price list committee of the Mississippi Valley Lumbermen's Association all concurred in the belief that the present situation was strong upon the basis of the very high degree of prosperity throughout the country. On the conditions of the stocks, the light supply of lumber, and the wealth of the country they, without exception, regarded a higher plane of values for white pine to be a logical outcome of the situation. It is, therefore, quite probable that the early months of the new year will witness an advancing list in all items of white pine. One thing is certain, that the present list will be the unyielding basis of values after the first of the year.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S. : Steamer Dahome, for Antigua, 12,163 ft. pine boards, value $275, by Pickford & Black, agents. Also horses, harness, trucks, waggons, etc. For all particulars bona fide purchasers may apply to "Staves," in care of CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

There has been some falling off in the buying of lumber, for which the change to winter weather has no doubt been responsible. It is a settled fact that during the next two or three months business will be seasonably quiet, and attention is now being directed to inventories and to the prospects for the spring trade. Some of the largest manufacturers and dealers are of the opinion that there will be an early spring demand of considerable proportions, as the consuming industries are in a prosperous condition and likely to continue so throughout the coming year. Unusual activity in Toronto is anticipated as the result of increased building operations, for, although the value of buildings erected during the year now closing was upwards of $1,600,000 greater than the previous year, the demand for residences and for warehouse and factory accommodation is still considerable. Owing to the high price of white pine, there is almost certain to be a heavy demand for hemlock for construction purposes, and in some quarters the price is expected to advance. Some attention is being given to spruce lath owing to the scarcity of the white pine variety, but the quantity manufactured in Ontario does not seem to be sufficient to make it an important factor. Lath prices generally are firm at the advance recently noted.

QUEBEC AND NEW BRUNSWICK.

The most influential factor in the spruce lumber market is the demand for American specifications. For prompt delivery higher prices are being received. Spruce frames are very firmly held and clapboards are holding their own. So much depends upon the course of the British market, however, that no predictions as to the future can be made with confidence. The St. John mills have all closed down and there are light stocks in the yards. Dealers who purchased from manufacturers are holding their stock in anticipation of a better market. Deals for next year's shipment from West Bay and Pugwash are being bought at from $10.25 to $10.50 per thousand feet.

The cedar shingle market has not improved, there being plenty of Extras offering for Boston delivery at $2.20 to $2.25. Clears are showing much more strength than Extras, as the supply of that grade is not large.

UNITED STATES.

The early part of December has brought about no material change in the lumber situation. The demand, of course, is only moderate, but prices are firmly maintained. Eastern dealers are picking up special lots of white pine, which would seem to indicate that stocks are somewhat broken. Inquiries are also being made for stocks for delivery early next year, the feeling apparently being that prices are not likely to decline. The box grades are the most active, while shop lumber and better is a little slow. Spruce is very strong and difficulty is being experienced in getting either frames or random for prompt shipment. Dry hemlock is scarce and is held in the Saginaw Valley at $12 and upwards, boards being one dollar higher than piece stuff. Michigan maple is held at $22, $15 and $9 for inch. Quartered oak is plentiful, while plain oak is scarce. There is still a good call for birch and the supply is not particularly large.

Lath is from five to ten cents higher than last week, No. 1 white pine being quoted at $4.05 for delivery by car load in Chicago, and mixed at $3.55. Red cedar shingles have receded about five cents. The entire shingle market is uncertain, although white pine are stronger than cedars.

GREAT BRITAIN.

The statistical position of lumber in the United Kingdom is commencing to have an influence on prices and is responsible for an advancing tendency. Nearly all classes of lumber are in lighter supply at the importing centres than at the corresponding date one year ago. Taking the Surrey Commercial Docks at London, for example, it is found that pine deals show a decrease of 84,812 pieces, and spruce deals of 111,073 pieces. In prepared boards there is the marked decrease of 1,674,935 pieces. The total stock of deals on the public docks at London on December 1st last was 1,912,297 pieces, which, at the current rate of consumption, would provide a stock for 5.85 months. One year ago the supply was 2,223,624 pieces, and the duration of supply 6.41 months, whereas at the corresponding period in 1902 the duration of the supply was 6.70 months. The present position is in favor of holders of lumber, which fact promises to result in a steady appreciation of values.

That the situation is much improved cannot be disputed, but it is only natural that a tendency towards conservative operations should prevail. A few speculative purchases for next season have been made, but buying has not yet become general. Waney pine is in very light supply at London and promises to be very scarce before next year's imports are received. There is a fairly good demand for elm, while birch planks are almost out of stock and fresh arrivals will command better prices than have been obtained for a considerable time.

STOCKS AND PRICES.

Spruce lath are quoted in Boston at $3.10 for 1½ inch and $3.25 for 1⅝ inch, rail delivery.

The Miramichi Pulp & Paper Company, of Chatham, N. B., are contracting for large quantities of pulp wood.

Buffalo received by lake this season 189,671,000 feet of lumber and 170,118,000 shingles. The amount last season to date was 161,494,000 feet of lumber and 202,090,000 shingles.

From the opening of navigation to December 1st a total of 399,511,849 feet of lumber was received at the Tonawandas by vessel, as compared with 439,000,000 feet for the corresponding period of 1903.

During the month of November there was received at Bay City, Mich., by boat approximately 12,000,000 feet of lumber, of which 8,000,000 feet came from the Georgian Bay and the remainder from Lake Superior.

The American Lumberman says that several of the leading buyers from the eastern end of Lake Erie are at the head of the lakes and Ashland this week looking over the situation and stocks, but so far as is known have made no purchases as yet.

Notwithstanding the prevailing low price of lumber, it is probable that the cut of logs this winter in Cumberland County, Nova Scotia, will not be greatly reduced, as there is considerable burnt timber which must be cut. C. T. White, of Apple River, has four camps in the woods and will cut about 7,000,000 feet. E. I. White, of Sand River, has two camps and will cut about 2,000,000 feet. B. B. Barnhill, of Two Rivers, has one camp at work. Robertson, Wright & Company are conducting operations at Shulee about the same extent as usual.

The contract for the supply of lumber for the city of Toronto has been awarded as follows: Plank $18.69 per thousand feet, boards $17.96, to Reid & Company; cedar posts, 18¾ cents each, to Reid & Company; lumber, 1 to 6 inches thick, pine $22.79, hemlock $15.79, Reid & Company; hemlock timbers, 12 x 12 inches, 12 to 16 feet long, $16, Reid & Company; pine timbers, 12 x 12 inches, 12 to 16 feet long, $21; 20 feet long, $22; 24 feet long, $24, to Arthur Bryce; hemlock timbers, 12 x 12 inches, 20 feet long, $19; 24 feet long, $21, to Arthur Bryce.

CONFERENCE CONCERNING A LUMBER DUTY.

The business men of Vancouver, B.C., and vicinity, held a conference on December 4 with Senator Templeman, Mr. Ralph Smith, M.P. for Nanaimo, Mr. Wm. Sloan, M.P. for Comox-Atlin, and Mr. Duncan Ross, M.P. for Yale-Cariboo, the purpose being to discuss the question of protecting the lumber industry of British Columbia. Mr. H. McDowell, president of the Board of Trade, was chairman.

Mr. J. G. Scott, manager of the Pacific Coast Lumber Company, briefly reviewed the situation and pointed out that the imports of lumber into Canada are increasing. While in 1903 the total imports aggregated 60,000,000 feet, the statistics for 1904 show that the importations will reach 140,000,000 feet, and the increase was likely to be steady unless protection is afforded the Canadian industry.

Mr. C. M. Beecher, general manager of the British Columbia Mills, Timber & Trading Company, stated that where a mill could be constructed and equipped in the State of Washington for say $250,000, the same mill could not be duplicated in British Columbia for less than $300,000. On the other side of the line mill machinery was much cheaper than in Canada. British Columbia millmen who import American machinery have to pay a duty of 25 to 30 per cent. on same. He stated that if the machinery and supplies were bought in Canada it was the same thing in the long run as paying the duty, for the Canadian manufacturer added the duty to his prices. The Northwest farmer would be protected against high lumber prices by the productive capacity of existing Canadian mills, which was much greater than the possible home consumption. Mr. Beecher pointed out that under reciprocal trade relations with the United States the lumbermen of British Columbia would be benefitted by having a much larger market.

Other speakers were Mr. L. A. Lewis, of the Brunette Saw Mill Company, R. H. Alexander, of the British Columbia Mills, Timber & Trading Company, and W. C. Wells, of Palliser.

At the conclusion of the arguments advanced Senator Templeman strongly advised those interested to send a deputation to Ottawa to press the matter upon the Dominion Government.

LIVERPOOL STOCKS AND PRICES.

The stock of timber, deals, etc., in Liverpool, Birkenhead, Garston, etc., on November 30th for the last two years was as follows:

		1903.	1904.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchell's monthly timber circular of November 30th says:

Business during November has, on the whole, been quiet, and though values have been fairly well maintained there has been no great activity in the matter of buying. The import was again very moderate, and in nearly all cases was disposed of from the ship's side—an indication that buyers have come to believe in the stability of the market and the unlikelihood of a further fall in prices. The higher grades of Canadian pine have been in more demand of late, and values, if anything, are inclined to harden, but in the lower grades there is no evidence of such improvement. There is no advance either in the value of reds, but there is said to be some little indication of an upward tendency in spruce, though with a heavy stock and a declining consumption it is not easy to see any justification for this optimistic view.

Of American hardwoods, the chief enquiry has been for plain oak lumber; poplar lumber and quartered oak being slow of sale, and prices for both are easier. A similar report may be given of oak planks, the import of which has exceeded the demand.

The Scotch shipbuilding returns for the month show that 27 vessels of 28,270 tons were launched, against 21 vessels aggregating 29,219 for the corresponding month last year. A gratifying feature has been the amount of new work placed recently, amounting as it does to 66,000 tons, making a total of 463,000 tons of new contracts placed this year, which insures activity for some time to come in this important industry. Housebuilding, on the other hand, has been slacking off for some time past, and prospects of renewed activity in the near future are by no means reassuring, tenement building having been overdone in the district.

WHITE PINE.—The import consists of about 200 loads waney pine, per the liners, and was disposed of "ex-quay." One or two fair lines of waney deckwood were disposed of, but enquiries are few. Prices continue firm. Stock is ample.

OAK.—The demand continues limited, there having been only a few small sales during the month. Stocks are still heavy.

ELM.—Enquiries are fairly numerous for large-sized rock elm, and stock of this class is now low. Prices are high. Soft wood is moving off more freely, though stock is still large.

BIRCH (Quebec).—The report for November has been about 140 logs, all of which were disposed of from the quay at prices ranging from 1s. 4½d. for 13 to 14-inch up to 1s. 10½d. for 16-inch. There is more enquiry of late, and there is no Quebec birch in first hands for sale.

N. B. BIRCH.—There was one import of about 150 logs and 50 loads planks from St. John, which were disposed of "ex quay," but prices did not transpire. Values are round 1s. 5d. for 15-inch average. For planks there is more enquiry, and the stock is now considerably reduced.

ASH.—A few retail sales are reported of small logs at unsatisfactory prices, but in most cases it is old timber of indifferent quality, for which, it may be said, there is very little outlet nowadays. The stock, though small, is ample for the market's requirements.

DEALS, &C.—The import during the month has been exceedingly moderate, and most of the goods arriving have been disposed of "ex quay." First pine deals of all sizes, and second pine deals, 7/10-inch x 3-inch, are scarce. Lower qualities are plentiful and difficult to move. Prices are firm as under:—Broad First Pine Deals—£32 to £34; 11-inch, £29 to £31; Ends and Non-Dimensions, £22 to £24. Second Pine Deals—11-inch and up, £17 to £19; Ends and Non-Dimension, £13 to £14 10s. Third Pine Deals—11 inch and up, £11 to £14; Ends and Non-Dimensions, £9 10s to £10 10s. Red Pine Deals—9 and 11 inch, £10 to £11; Narrows, £7 to £8 10s. First Pine Sidings and Strips—9 and 10 inch, £23 to £24; 11 to 12 inch £25 to £26; 13 to 14 inch, £27 to £28. Spruce Deals—9-inch and up, £8 to £8 10s.; 7 and 8 inch, £6 15s. to £7 10s. Lower Port Spruce—9-inch and up, £7 10s. to £8; 7 and 8 inch, £6 5s. to £7.

During November over 17,000,000 feet of lumber was shipped from the port of Ashland, Wis.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., December 5th, 1904. —A gradual betterment of conditions may be noticed more perhaps outside the lumber industry than directly connected with it. The recent advance in logs is not because of larger demand for lumber and the consequent greater value of the raw material, but because for almost a year there has been a surplus of logs and the price has been very rock-bottom. Independent loggers went out of business, and the advance only indicates that at least some of the surplus has been utilized. Foreign shipments are slow, but in addition to the two ships now completing loading at the Hastings mill, and mentioned previously, two more charters are reported, one for South Africa and the other for South America. At the Chemainus mill, export is also slow. Yet it is announced that lumbermen from Ballard, Washington, are to erect a mill on Clayoquot Sound for the export trade exclusively. There is fine timber there, as good as the best in the province, and it can be comparatively easily logged. Their mill will be as large as either the Chemainus or the Hastings.

The Mundy Lumber Company, of Bradford, Pa., are commencing the construction of a mill at Three Valley Lake, near Revelstoke, which will have a capacity of 80,000 feet per day, and Mr. S. A. Mundy, head of the firm, was in the city this morning. He states that considerable timber has been bought up, but they are putting up a small mill so that the larger portion of the limits may be good for the time when lumber from British Columbia will be much higher in price. Eastern limits are cut out, he said, and timber from the west will be in big demand in a few years.

Notwithstanding the announcement of new mills, the sheriff is still busy with the small concerns. The assets of the Skeena River Lumber Company will be auctioned on the 12th instant. Mr. W. A. Galliher, M.P. elect for the Kootenay, came down on Thursday and states that the Arrowhead Lumber Company have shut down their saw mill for the winter, because of the large stock on hand, and will operate only their planer. The Moyie Lumber Company is doing the same thing.

The members of parliament of British Columbia, who are all supporters of the administration, are conferring with representatives of the coast and interior lumbermen and the local board of trade this morning in respect to the duty question. Every member is heartily in accord with the request, even if they are Liberals, as the survival and success of the lumber industry means even more to this province than does that of mining. A deputation will go east this afternoon to interview the Government at Ottawa.

There is much discrimination in Admiralty contracts in Great Britain against Canadian timber, and only Swedish wood is allowed to be used. The matter is occupying the attention of the Agent General of British Columbia at London and the High Commissioner. This particularly affects this province, where there is plenty of good timber especially suitable for these purposes.

The statement that a representative of the Loggers' Association of Puget Sound is to interview the Provincial Government to further prohibit the export of logs is hardly correct, for the prohibition is now about all it can be. It is a legal question still whether the export can be prohibited of logs from land crown granted prior to 1887, and what logs do go out of the province to Washington state are mostly from Dominion government lands, in connection with which there is little or no restriction.

720-721 UNION BANK BUILDING, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

WANTED

Beveled Siding. We want delivered prices in car lots on Beveled Siding in **Pine** and **Cedar.** Present or Spring delivery.

HALEY & SON St. Stephen, N. B.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber market does not lose any of its strength. Business is quieter, as might be expected, but there is a seasonable movement and every indication that present prices will be maintained. Several dealers report inquiries for low grade pine boards for shipment to Buffalo and Tonawanda, and there is a considerable demand for 4/4 and 5/4 mill culls for local consumption. Prices of these grades are, if anything, a little stiffer, while the upper grades are holding their own and have been benefitted by the more hopeful reports from the British market. The movement of hardwoods is keeping up remarkably well, which is probably due to the fact that prices of Ontario hardwoods are now on a parity with the American mill product, and in some cases, such as basswood, are said to be a little lower. The buyer finds plenty of stock offering for sale, but in few instances is the holder willing to make any concessions to close a transaction.

The weather has been favorable for logging operations, although the hauling season will be shorter than last winter, snow coming a month later. Good progress is now being made. The cut in the Georgian Bay district is expected to be two-thirds that of last year, while in the Ottawa Valley the curtailment will be only slight.

MANITOBA AND BRITISH COLUMBIA.

Mild weather throughout the Northwest has permitted building operations to be carried on later than usual, which has resulted in some activity in lumber circles. During the past week, however, orders have fallen off and dealers are anticipating a period of quietness during the next two months. As to the spring trade, the outlook at the present time is hopeful. The Dominion Government have just awarded a contract for the erection of a post office building in Winnipeg to cost upwards of half a million dollars, and it is expected that another busy building season will be experienced next year. The situation in British Columbia does not show much improvement. Failures among the small manufacturers are the rule, a condition which gives emphasis to the claim that lumber is being manufactured at a loss. The Government will once more be asked to impose a duty on American lumber, which, if obtained, will improve the business next year.

UNITED STATES.

The buying of lumber is not particularly active, but this is causing no disappointment to the trade. Dealers and consumers will not increase their obligations during the last two weeks of the year except when compelled to do so. Practically all classes of lumber are in a strong position and the outlook at present is that values will be maintained throughout the winter. Should this be the case, it is probable that a slight advance will be made in the early spring. In low grade pine, which is in comparatively light supply, a slight advance is anticipated in the near future. The position of high grade lumber is not equally as strong, although the demand will probably absorb the supply before next season's stock is in shipping condition. Inquiries from prospective buyers of the new cut indicate that a brisk trade is looked for next year.

A scarcity of spruce boards, 5 inches and up, 10 feet and longer, planed one side, is reported from Boston, where $17 is being obtained. Hardwoods are seasonably quiet, with a firm undertone. Plain oak is selling in Chicago at $40. A sale of one million feet of firsts and seconds inch was recently made at $40 f. o. b. New Orleans. Ash, elm, birch and maple are being bought in some quantity, but basswood continues dull. The price of maple flooring is unsatisfactory, although there is a better inquiry. Dry hemlock is scarce in the Saginaw Valley and prices are firm at $12 and upwards for piece stuff and boards.

The supply of white pine lath is still inadequate to meet the demand and substitutes are being used wherever possible. Spruce lath is also strong, 1½ inch selling in Boston at $3.10 to $3.15 and 1 5-8 inch at $3.25 to $3.35.

GREAT BRITAIN.

The light importation of lumber and the absence of consignment cargoes is greatly influencing the British lumber market. London will winter a smaller stock than for many years past. Business is still on a restricted basis, but if there should be any material improvement in the consumption in the near future, the statistical position of the market is such that prices might advance sharply. Holders of Canadian pine and spruce are showing a disposition to carry over their stocks until the spring, in the belief that shipments will be light owing to the large demand at home and in the United States, and that higher prices will then be obtained. The London import of pine deals from the St. Lawrence up to November 30th of this year was 970,000 pieces, as against 1,573,000 pieces for the corresponding period of 1903. Of spruce deals the import was 1,889,000 pieces, as compared with 2,148,000 pieces. The import of New Brunswick deals was 635,000 pieces this year and 909,000 pieces in 1903. Baltic whitewood has advanced in sympathy with spruce. Elm timber continues to show strength, the stock being light and in fair request. Birch planks are selling at from £7 15s. to £8 5s. per standard.

STOCKS AND PRICES.

L. K. Jones, Secretary Department of Railways and Canals, Ottawa, is asking for tenders up to January 3rd, 1905, for the supply of timber required for the Welland canal.

The Moulthrop Lumber Company, of John's Island, Ont., will take ont about 20,000,000 feet of logs this winter. S. O. Fisher is taking out about 12,000,000 feet near Blind River, Ont.

The members of the Mississippi Valley Lumbermen's Association shipped during the month of November 47,000,000 feet of lumber, being the largest shipments made in that month for five years. They also are the largest for any month with three exceptions for this year.

It is understood that Mason, Gordon & Company, of Montreal, are operating this winter two small camps, one in the Township of Osborne and the other in the District of Nipissing. They expect to take out about 100,000 cubic feet of waney white pine timber and 3,000,000 feet of white pine logs. Both the timber and the logs are of extra good quality and large size and are in the market for sale.

Messrs. Smith & Tyrer, Liverpool, Eng., say: "Values ruling to-day are the best since the summer and are firm for early shipment. They range from 10s. to 12s. 6d. per standard higher than they touched last summer. The stock in the district on the 1st inst. was about 3,000 standards less than a month previous. If the winter shipments are not large and the production is reduced as anticipated, we do not think there is any reason for alarm. The holders on the Canadian side will find that they will be wise not to sacrifice their stocks."

According to figures published in the American Lumberman, the cut of lumber at the head of the lakes this year, to the close of navigation, was 275,000,000 feet. There is on the docks 75,000,000 feet, of which 30,000,000 feet is unsold and 45,000,000 feet is sold awaiting delivery. These figures compare with a cut the previous year 100,000,000 feet larger and a total on docks of 30,000,000 feet more, of which 48,000,000 feet was unsold and 57,000,000 feet sold. In addition to the amount of lumber shipped from Duluth mills and which amounts to 310,000,000 feet for the season of navigation, 123,000,000 feet was shipped to Duluth from outside mills and 57,000,000 feet from Two Harbors.

The Bay City correspondent of the New York Lumber Trade Journal says that E. Germain is carrying a stock of 15,000,000 feet, Booth & Boyd must have about 16,000,000 in their yards, L. C. Slade is carrying 10,000,000 feet at least, A. C. White has several million in his yard, Bliss & Van Auken are carrying a good assortment, Mershon, Schuette, Parker & Co. have 40,000,000 feet, of which 25,000,000 feet is in their yards here and at Saginaw. E. B. Foss & Co. are carrying a very large and choice stock of white pine. Bradley, Miller & Co. have a good stock and usually get in a number of million feet by rail in addition to lake receipts and F. G. Eddy & Co., the Bay City Box and Lumber Company, the Vance and Briscoe Companies, and the Kern Manufacturing Company are all carrying stocks that run into the million feet each.

Under date of December 3rd, Messrs. S. P. Musson, Son & Company review the lumber market as follows: "The schooner Eduardo arrived during the fortnight with 162,000 feet of second quality white pine, but the consignees receiving a better offer from Antigua than they could elicit here, sent the cargo to that island. Our market in white pine is well supplied, and dealers are not prepared to increase holdings except at lower prices. In spruce the only transaction we have to report is the sale of two small lots ex. George R. Alston from Port Daniel from different consignees, one of whom had 46,000 feet and accepted an offer $22.50 for merchantable, $17 for second quality and $14 for inferior, but it turned out to be nearly all second quality. The other lot was sold at a round figure of $19 17. Stocks of this are not heavy and a small cargo of good quality would do well. The G. R. Alston brought 260,000 Long Gaspe shingles, of which 64,000 were sold by one consignee at $5.07½; but the consignees of the balance, failing to obtain a suitable offer, have stored them. The quality of late shipments of shingles from Gaspe have not been up to standard, and this has induced dealers who have had complaints from their customers as to the quality of Long Cedar, to turn their attention to Wallaba shingles, which are made in Demerara. A considerable quantity are now imported from there, which tends to check the consumption of Cedar. Laying Cedar are still in fair stock, and as there is a large quantity reported to be about due, our market promises to be oversupplied in the near future."

Speaking of lumber conditions, Mr. W. B. Mershon, of the firm of Mershon, Schuette, Parker & Company, Saginaw, Mich., says:

"In our business November is the only month in which our sales have exceeded the corresponding month of the year previous. We noticed life and activity entering into business about election time.

WANTED: Basswood, Birch, Hard Maple, Rock and Soft Elm Lumber
Office and Yard—571 Dorchester Street, MONTREAL, P.Q.
Telephone Main 368. Correspondence Solicited

Undoubtedly the open winter has helped to increase the consumption of building material, but there was certainly a big improvement in the volume of orders for white pine lumber and mill products in November and is still continuing. Prices, too, have been advancing, first on one item and then on another. Some kinds of white pine we find are in short supply; 1x12 No. 2 barn boards, for instance, no one seems to have. No. 3 shop has been picked up very fast and has advanced in price. The better grades of white pine have felt the impetus least. Door prices are too low. Export doors are selling for less money than for several years. Box business has increased in volume a little bit but has gone to the dogs so far as prices are concerned. The competition does not seem to be so much on account of other woods in boxes but our competitors are those using white pine and similarly situated. The cost of the raw material does not appear to cut any figure with the box man when he is bidding for business."

Steamer Corinthian, for Liverpool, 61,966 ft. deals, 8,084 ft. ends, 91,569 ft. birch plank, 1,459 ft. birch ends, 13 tons pine timber, 183 tons birch timber. Schooner J. L. Colwell, for Boston, 140,000 ft. spruce boards. Schooner Waccamaw, for City Island, 85,433 ft. scantling, 308,742 ft. deals. Schooner Harry Miller, for City Island, 344,951 ft. deals

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

MIRAMICHI LUMBER SHIPMENTS.

The shipments of lumber from Miramichi, N.B., during the season of 1904 were as follows:

	Sup. Ft.
F. E. Neale	39,000,000
Snowball Company	20,000,000
W. M. Mackay	11,000,000
D. & J. Ritchie & Company	11,000,000
E. Hutchison	8,000,000
G. Burchill & Sons	4,000,000
Damery & McDonald	1,500,000
	94,500,000

The Standard Lumber Company, Buffalo, has been succeeded by the Standard Hardwood Lumber Company, the management remaining the same.

NOTES.

The barque Lakeside has been chartered to carry lumber from Yarmouth, N. S., to Buenos Ayres at $8.

About a month ago Sheriff Richards seized the mill and plant of the Sidney Lumber Company at Sidney, B.C., on behalf of a judgment creditor, Mr. Whittaker, of Vancouver, who had supplied the company with logs. Subsequently Mr. Beattie, of Seattle, entered a claim, whereupon the Sheriff threw the matter into court, and the mill was to have been sold on December 17th. The principal shareholders in the concern are Messrs. Moore and Cudahee, of Seattle.

The Mississippi Valley Lumberman says of hardwoods: "There is the usual amount of business current during the closing weeks of the year. The factory trade is still the predominating feature of the market. This, however, just now is slow, as the different concerns will not take on stock until after the inventories heve been made and the policy of the new year decided upon. It is generally understood that the different manufacturing concerns are light in stocks. They will continue active operations close up to the holidays and the mid-winter close-down will not be of long duration. The furniture producers see an active year ahead of them. They say that production in their lines has not brought about an accumulation in any kind of stock. The present indications of business indicate that there is to be an inareased demand in all commodities, and that furniture will share in this prosperity."

What the "Wanted and For Sale Department" of this paper will do for others, it will do for you. Try it when you wish to purchase or sell lumber.

COOPERAGE STOCK.

Messrs. Sutherland, Innes & Company, of Chatham, Ont., says :

"There has been considerable changes in prices, especially in the lower grades of stock, which have gone down considerably. No 1 stock, however, keeps about the same as a month ago. There is very little difference, except in heading, which has gone off somewhat.

"Tight-barrel stock of all kinds continues in excellent demand. In fact, some of the consumers are complaining they cannot get enough stock. We, however, don't think there is going to be any shortage of tight-barrel stock this season, but there will be enough to go around to take care of the general trade.

"The general opinion is that trade will be good during the winter. The demand for high-grade stock will be very good."

The saw-mill, etc., of Authier & Charette, LaMacaza, Que., has been sold to Pariseau Frere.

The saw mill and property of the Lake of Bays Wood Manufacturing Company, Huntsville, Ont., was to have been sold by the liquidator on Tuesday last.

New Orleans, La.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.

ST. JOHN, N. B., Dec. 16th, 1904.—The lumber industry in this vicinity is undergoing a period of inaction both in manufacturing and shipping circles; the mills have practically all shut down and shipments have been very light during the last fortnight.

During the past month a large quantity of English deals has been bought up by a local dealer. This quantity covers more than half the available supply. The present owner apparently has faith in a more favorable market in the near future and the feeling in general is that his expectations will be fully realized. The exact figure paid is not at present obtainable.

Cedar shingles have been moving somewhat slowly during the past month, a condition which is quite usual at this particular time of the year owing to the lack of stimulus in building circles in the New England States. The resumption of activity in this direction will, in all probability, see a change in prices in this line. It is an almost absolute certainty that this change will be in favor of the manufacturers, as it is conceded on all sides that the prices now prevalent are too low to stand much longer.

The past season has not been nearly so productive to the manufacturers and sellers of shingles as was the case for the several preceding years. To-day there is a difference in the price of Extra Cedar Shingles of 40 cents per M. compared with the 1st of July last. This can be attributed to two circumstances—a substantial falling off in the consumption of shingles in the Eastern States (due to strikes, the high price of labor, etc.), and to an increase in the volume of importations from the Pacific coast. Whether or not this last will remain a vital condition or not is a question, but the feeling generally among those most interested is that next season will find the demand for the Eastern products just as great as it was one, two, three and four years ago.

The month of October brought a stimulus that enabled the local manufacturers to work off the greater part of their surplus stock of shingles, although this increase in demand caused no advance in prices. At present writing, with practically none being manufactured, six millions to eight millions would cover all the available shingles at this port. Perhaps two-thirds of these are of the higher grades; the balance will be disposed of in the provinces for local use.

Prices have not changed materially during the last two months. The last sales of American shingles made brought the following figures f.o.b. St. John: Extras, $2.75 per M.; Clears, $2.30; 2nd Clears, $1.85; No. 1, 90 cents.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

OTTAWA, December 18, 1904. — The movement of lumber in the Ottawa district is at low ebb at present, but this condition of affairs is not causing any uneasiness. Dealers are busy stock-taking and are carefully refraining from taking on any new line. Business will be at a standstill until well after the new year. Manufacturers report the firm tone of the market continued with no indication of a break, and this in itself is a cause for a hopeful feeling. In no single line can a change from recorded prices be mentioned.

Reports from the limits show that the Fall has been an ideal one for log cutting, hardly an unfavorable day delaying the operations. The work is so well advanced that it is estimated that fully seventy per cent. of the contemplated log cut has been finished by the leading firms. A good depth of snow is reported on the limits, so that the work of hauling the logs should be taken up with vigor early in the new year. Leading firms such as J. R. Booth, the W. C. Edwards Company, Gilmour & Hughson, the Hawkesbury Lumber Company, Pembroke Lumber Company, A. & P. White, McLachlan Bros., and Shephard & Morse will cut nearly as extensively as in former years.

While the British market is looking more hopeful than at any time during the year, no sales of any consequence have yet been made for next season's cut of deals. One lot of the past summer's cut changed hands recently at a decline of five per cent. on the prices ruling a year ago, but this cannot be taken as any criterion. However, the British buyers having starved themselves on Canadian white pine, must ere long be stocking up again, so that an improvement may be looked for. On account of the condition of the British market, no contracts for next summer's cutting are expected before February, according to reliable information.

Backus & Company, who are about to build a large dam and develop a water power at Fort Frances, Ont., have asked permission from the Ontario Crown Lands Department to cut about 3,000,000 feet of timber on Stokes Bay.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 40 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every week.

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, DECEMBER 28, 1904 No. 48

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

35 ALLIANCE BUILDING, MONTREAL

720-721 UNION BANK BUILDING, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

HARDWOOD LUMBER DEALERS

I CAN BUY FOR YOU AND CUT THIS winter 200 to 500M of Red Oak and Basswood, also smaller quantities of other hardwoods. Address "Hardwood," care CANADA LUMBERMAN, Toronto.

WANTED

Beveled Siding. We want delivered prices in car lots on Beveled Siding in **Pine** and **Cedar.** Present or Spring delivery.

HALEY & SON - St. Stephen, N B.

The wood-working factory of the Wm. Currie Company, Limited, at Campbellton, N. B., was totally destroyed by fire December 26.

The H. Witbeck Company, of Marinette, Wis., a few days ago sold the last of their lumber, 400,000 feet of basswood, and they are now out of the lumber business for good. The machinery in the mill will be removed to Owen Sound, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Values in the lumber market are quite firm. There has been no show of activity, but the expectation of a heavy demand next year is having a favorable influence. Manufacturers report an increase in the number of enquiries and there is a disposition to contract for stock for spring delivery. Considering the season of the year, building operations are quite brisk, and it now appears that the winter consumption of lumber will be unusually large. The large number of firms operating in the woods on a restricted scale also has a tendency to keep up prices. Another point worthy of consideration is that most of the lumbermen are in a position to hold their stocks if they should find it expedient to do so.

Reports concerning the hardwood market are generally strong in tone. One dealer reports having placed 1,200,000 feet of ash, birch, maple, elm and baswood lumber with customers at an advance on last year's prices, which would indicate that higher prices will rule during the coming year. The outlook at present is that hemlock lumber will be in good demand, with some likelihood that values will be higher in the early spring.

There is not much doing in shingles. The low price of B. C. cedars, namely, $2.50 to $2.60 for XXX for delivery in Ontario, has made it difficult to sell the white pine variety, which are held about 40 cents higher. If the present price of red cedars should prevail in the spring, a heavy demand will probably be experienced, as at present prices many consumers will give the preference to the British Columbia product. The present looks like a favorable time to buy shingles, either for consumption or speculation.

QUEBEC AND NEW BRUNSWICK.

Square and waney pine timber is slightly firmer in price, although few contracts for 1905 delivery have yet been made. It is understood that the Quebec shippers are holding out for prices which many of the British importers consider too high, but which they will probably be successful in obtaining if the production this winter should prove no greater than is anticipated. The opinion is becoming more general that spruce lumber prices will continue to advance until they are from $2 to $4 higher than the low figures reached this summer. One of the largest shippers from New Brunswick has recently bought a considerable quantity of British deals, which he apparently intends to hold until able to realize a fair profit.

UNITED STATES.

The reviva of industrial activity throughout the United States during the past four months, or since it became certain that there would be an abundant yield of corn and cotton, has probably done more than anything e'se to strengthen the lumber market. The iron and steel industry is steadily improving and prices have continued to advance. The number of orders placed for furnace products to be delivered next spring is quite large and there is a disposition to contract for future requirements in nearly all lines. Yellow pine is the most active lumber. Manufacturers are even finding difficulty in filling orders, and prices are about $2 higher than they were last fall, with indications of a further advance. Compared with six months ago, the conditions are decidedly favorable. In white pine the movement is not large, but stocks are in good shape and the outlook for the ensuing year is all that could be desired. Not much business will be booked before the middle of January, although wholesale dealers may take advantage of the intervening period to contract for the mill product.

The demand for hardwoods has declined during the past ten days, but this lull is regarded as only temporary. There is a good trade in birch and oak for interior finishing purposes. The supply of plain white and red oak is very small and in consequence prices have steadily advanced. Firsts and seconds are held at $40 for Chicago delivery, while $47 is asked at Boston. Birch is in greater supply but none too plentiful and prices are strong. Elm probably comes next in point of strength. Holders of hemlock are showing confidence in the situation. It is expected that the cut will be small. Buffalo reports a scarcity of 12 and 14 foot lengths.

Conditions affecting white pine lath are unchanged. The consumption at this season of the year is light, but nevertheless the demand continues to be in excess of the supply. In the Western States lath is also scarce. New Brunswick cedar shingles are slightly firmer, and it is understood that some of the larger manufacturers are holding out for $3.35 for Extras for Boston delivery.

GREAT BRITAIN.

Indications of an improvement in the British lumber market are increasing. Spruce lumber has been one of the first to feel the effects of the revival in the cotton industry, and the indications are that the consumption during the winter months will reduce the stocks at the leading importing centres to a low point. Holders of both pine and spruce are apparently satisfied that the available supply will be absorbed before next year's shipments reach the market, and there is therefore little incentive to cut prices. The London stock of spruce is very moderate, but at Liverpool and Manchester the supply is proportionately larger.

There has as yet been very little buying for next season, importers preferring to wait until after the holidays. In the meantime representatives of Quebec shippers are arranging their stock lists and getting ready for increased activity after the turn of the year.

Swedish shippers are doing considerable business with the Continent, but very little with English buyers. Prices so far show a considerable increase on those of last fall. Norway flooring has been sold on the basis of £8 1s. 3d. to £8 5s. c.i.f. Cardiff.

STOCKS AND PRICES.

Wm. A. Haye, of Millville, N. B., has bought a tract of timber land near Woodstock which he will log this winter.

The Musquash Lumber Company, of Musquash, N. B., have been given a contract to supply 150,000 ties for the New Brunswick Southern Railway.

There is a great scarcity of No. 1 white pine lath in Wisconsin. At Marinette they are selling at $3.50 a thousand, the highest price ever known.

George L. Wells, of Vancouver, B. C., is reported to have sold a tract of 600,000,000 feet of British Columbia timber to the Marinette Lumber Company, of Marinette, Wis.

W. F. Newton, of Grand Forks, B. C., has leased some timber limits, and will cut this winter about 6,000,000 feet of saw logs, which will be brought down to Smelter Lake next spring.

Lumbering operations in the vicinity of Richmond, Que., are dull this winter. Joseph Bedard and A. S. McDonald, of Melbourne, have camps in the woods. Other firms are doing very little.

The Moulthrop Lumber Company, of John's Island, Ont., manufactured 17,000,000 feet of white pine lumber and 4,000,000 pickets during the past season. They have on hand about 7,000,000 feet of lumber.

The Cleveland-Sarnia Saw Mills Company, of Sarnia, Ont., have manufactured during the past season 26,500,000 feet of pine lumber and 1,000,000 of hemlock, also 7,500,000 pieces of lath and 5,000,000 shingles. They have on hand about 11,000,000 feet of pine and 250,000 feet of hemlock lumber, 1,800,000 pieces of lath and 2,400,000 shingles. They are taking out 20,000,000 feet of logs for next season's run.

POSITION OF THE BRITISH MARKET.

Now that the Quebec season is really closed and all shipments have reached this country, one is able to form, as far as London is concerned, a pretty accurate observation of the position of the pine market, and we are glad to find, says the Timber Trades Journal, that our prognostications for the past three months are being borne out in so far that stocks are in moderate compass, and those who hold them must feel in a comfortable position, as they have now five to six months in which to work them off, before the new arrivals can reach the market. For the past two weeks there has been a fair demand, and prices rule firm.

The spruce market keeps steady and is likely to do so, in view of the moderate stock here, and seeing that the London general export trade is not taking much, we think it well that the stock is moderate. We have not heard that any forward business has yet been arranged in either of these woods.

MONTREAL LUMBER SHIPMENTS.

The quantity of lumber shipped from the port of Montreal during the season of 1904 was over 76,000,000 feet less than the previous year. Watson & Todd again head the list with 38,028,601 feet, although this is a large falling off as compared with their 1903 shipments. The statement follows :

	Season, 1904. Ft. B. M.	Season, 1903. Ft. B. M.
Watson & Todd.....	38,028,601	51,801,668

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B. C., December 21st, 1904.—Conditions in British Columbia in connection with the lumber industry are regarded as worse than ever. It certainly is as far as the employees of the mills are concerned, for with the closing of so many establishments hundreds of men are deprived of wages at a season of the year when money is so essential. Over half the plants in Vancouver city are inactive, and the only mill doing any business to speak of is that of Messrs. E. H. Heaps & Company. In East Kootenay most of the mills close down anyway for the winter, but others which might run have been stopped until spring. On Vancouver island the Ladysmith Lumber Company's mill has suspended operations and 70 men have been thrown out of employment. In the latter instance the shingle mill was stopped but started again to fill some orders. The indefinite period for which these mills are shut down is supposed to be March or April, but before that time the cessation of the industry will be severely felt in British Columbia, and particularly in Vancouver, where the manufacture of lumber is one of the principal industries.

The result will in all probability be that the stocks of lumber will get small, and with increased demand the prices in the Territories will likely go up because of the lack of sufficient supply. A determined effort is to be made to have the Government impose a duty such as has been asked for repeatedly for the last eight years.

The new schedule of prices which was being arranged by the British Columbia Lumber and Shingle Manufacturers' Association came into force yesterday. All of the members have agreed to abide by this, which will do away with the disastrous price-cutting that has been going on for two or three months. During that time the cuts were all the way from 25 to 40 per cent. off list price, and contractors especially were displeased, because they never knew when a competitor was not getting larger reductions from some other mill.

The new schedule contains a reduction of all kinds of lumber, except one. Shiplap, previously scheduled at $15 per M, is now selling for $12. Rough lumber, formerly $13, is now $10. Shingles have been reduced from $2.50 to $1.90. Clear cedar, all round, from $40 to $35, and cedar ceiling, formerly quoted at $35, is now $32. Fir lath is reduced $1. The only increase was on edged grain lumber. This is rather scarce and more or less subject to special call.

Mr. John Murray, timber ranger, returned this afternoon from the interior, and reports things in bad shape in the lumber industry. What mills are running are on very limited time, and many of the operators are taking out no logs this winter. Collections were considerably more difficult than six months ago.

The trade with Mexico by means of the proposed steamship line subsidized by the Dominion and Mexican Governments was discussed at the last meeting of the Board of Trade, when Mr. R. H. Alexander and Mr. Beecher stated that there was little prospect of this province doing much business in the lumber line with that country. Only about 9,000,000 feet per year was imported, and this from the States. Mr. J. G. Scott thought it peculiar that the Government should give $50,000 a year to assist in the securing of such a small trade, when by a mere stroke of the pen, and without the cost of one cent, a trade of double 9,000,000 feet per month could be secured in the Territories. Mr. Beecher advocated the opening of trade with North China, where there is a good market and where large quantities of lumber could be disposed of.

Revenue from timber sources in the province for the first six months of the present fiscal year total over $200,000. The amount for the whole of last year was only $250,000.

The sheriff is to preside at a sale of the mill at Sydney, Vancouver island, and at the sale of the assets of the Fernie Manufacturing Company. In the latter instance the upset price was $16,000, but this was not offered. Creditors hope to receive 50 cents on the dollar.

The development of the "ready-made" house business, which has been begun by the B. C. Mills, Timber & Trading Company, of this city, is indicated by the receipt of an order from the Provincial Government for a school house 24x36 feet, which will be sent north to Port Essington.

Mr. M. J. Henry, nurseryman, of Van-

couver, has received a commission to secure 2,500 pounds of seeds of the Douglas fir and British Columbia cedar to be sent to Europe. Forestry experts are about to endeavor to reforest the depleted districts in Denmark, and certain large areas in Prussia, Norway, European Russia and Scotland. The procuring and transportation of young trees for such a purpose would involve too great an expense.

Conditions generally are poor, but many lumbermen have hopes that the trade in the spring will be good. Stocks will be lighter, prices should be firmer and business should be on a much better basis than hitherto.

At a meeting of the Executive Committee of the Interstate Red Cedar Shingle Association, held in Seattle, Wash., on December 15th, it was resolved to dissolve the association in the near future, with the object of starting another on different lines.

The saw and grist mill at Feversham, Ont., owned and operated by the Farmers' Milling Company, was burned last week.

THE SPRUCE SITUATION.

A Canadian correspondent of the Timber News comments as follows :

The stocks of logs and deals wintered over in Canada will be larger than usual, but that is sure to be counterbalanced by a considerable reduction in the winter operations in the woods. It is just possible that a drop in freights to last winter's level, say to 25s., will encourage liner consignments, as holders will doubtless be inclined to realize so long as they can see a fair margin, and if such consignments come tumbling in again we may say farewell to any prospects of an early improvement in values. It is not, however, sure that freights will come down to such a low level, and the liners to-day are quite firm at from 30s. to 32s. 6d. Besides that, the bulk of the stocks available for shipment are in strong hands, and are not likely to be shipped unless a reasonable margin seems assured.

Some effort is being made by the operators in the Maritime Provinces to form a combination to resist the high wages demanded, which are, they consider, above an equitable point, and due to the artificial influence of the trade unions, but there is a want of unanimity among the manufacturers, which may prove fatal to any advantageous results.

It seems quite certain that the supply of spruce deals during the coming season is going to fall short of an average, but as the early demand is likely to be fully met from stocks existing on our side, any shortage is not likely to be fully appreciated until well on in the season. In any case we may look to some improvement in prices, as present figures are unprofitable to the shippers, who are steadfastly refusing to accept business at such a level.

Most of the wintering stocks in St. John have recently changed hands at improved figures, and are now held by the shippers. It is expected that all the mills in that district will shut down this winter, and consequently there will be no new cut on the market until the spring. The production of the portable mills during the winter is going to be greatly curtailed, and unless a considerable advancement in price takes place there will be no inducement to increase these operations.

During the past year a good trade has been done in spruce to the States and to South America, and it is confidently anticipated that the coming season will see equally active markets in those quarters. Hemlock will be got out this winter in reduced quantities, as the demand has been unsatisfactory.

CANADIAN LUMBER SHIPMENTS.

From St. John, N. B. :—Steamer Lake Erie, for Liverpool, 174,572 ft. spruce deals, 7,191 ft. spruce ends, 7,182 ft. scantling, 64,301 ft. birch deals, 3,984 ft. birch scantling, 534 ft. birch ends, 800 doors, 532 pcs. oak lumber, 528 pcs. timber.
